#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—Active Fuel and Emission Control Teaming Agreement Under Award No. 70NANB4H3038

Notice is hereby given that, on January 12, 2005, pursuant to section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Active Fuel and Emission Control Teaming Agreement under Award No. 70NANB4H3038 ("ATV JV") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the identities of the parties to the venture and (2) the nature and objectives of the venture. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to section 6(b) of the Act, the identities of the parties to the venture are: Glennan Microsystems Inc., Cleveland, OH; Case Western Reserve University, Cleveland, OH; ZIN, Inc., Brook Park, OH; and Delavan Inc., a wholly owned subsidiary of Goodrich Corporation d/b/a Turbine Fuel Technologies, West Des Moines, IA. The general area of the ATV JV's planned activity is to develop an Active Fuel and Emission Control Technology Demonstrator for gas turbine engines based on Silicon Carbide microsystems technology that will greatly reduce polluting emissions while extending engine life and preserving fuel efficiency. The activities of this joint venture will be partially funded by an award from the Advanced Technology Program, National Institute of Standards

and Technology, U.S. Department of Commerce.

#### Notice Pursuant to the National Cooperative Research and Production Act of 1993—American Industrial Hygiene Association

Notice is hereby given that, on September 17, 2004, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), American Industrial Hygiene Association ("AIHA") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the name and principal place of business of the standards development organization is: American Industrial Hygiene Association, Fairfax, VA. The nature and scope of AIHA's standards development activities are: development of standards for the design, operation, and maintenance of equipment to provide a safe atmosphere in industrial, manufacturing, or construction operations by either local exhaust or general ventilation and safely disposing of such substances, and such supplementary standards on personal protection as may be necessary to prescribe methods for the protection of workers. AIHA also develops a standard of management principles and systems to help organizations design and implement deliberate and documented approaches to continuously improve their occupational health and safety (OHS) performance. This standard will enable organizations to integrate OHS management into their overall business management systems, focusing on principles that are broadly applicable to organizations of all sizes and types, not on detailed specifications. The standard will be compatible with relevant OHS,
