Information Collection Requirement

Title: Department of Homeland Security—Vulnerability Identification Self-Assessment Tool—Transportation (DHS-VISAT-T).

Type of Request: Extension of a currently approved collection.

OMB Control Number: 1652-0037.

Forms(s): NA.

Affected Public: Various modal transportation sector owners and operators.

Abstract: After its inception, TSA faced the challenge of securing all of the different modes within the transportation sector. A methodology was required in order to support inter- and intra-modal analysis and decision-making. Millions of assets exist within the transportation sector, ranging from over 500,000 highway-bridges to over 19,000 general aviation airports. Given this population of assets, it became apparent that a mechanism was needed to solicit data from the asset owners/operators. TSA needs this data, such as the assets' security measures currently deployed, along with a high-level assessment of system security effectiveness, in order to prioritize resources.

In response to this need, TSA's Office of Threat Assessment and Risk Management (OTRM) developed the Department of Homeland Security—Vulnerability Identification Self-Assessment Tool—Transportation (DHS-VISAT-T), formerly called the TSA Self-Assessment Risk Module (TSARM), as a means to gather security-related data and provide a cost-free service to the transportation sector. TSA designed this tool to be flexible to support the unique characteristics of each transportation mode, while still providing a common framework from which analysis and trends can be identified. DHS-VISAT-T represents the U.S. Government's first self-assessment tool that provides the following features:

- The tool is provided to users at no cost;
- The tool is voluntary (potential users contact TSA to access the tool);
- The tool is web-based, easily accessible; and

- All ratings are determined by the user.

Upon completion of the tool assessment, users receive a report that summarizes their inputs. They may then use this report to develop a security plan or to identify areas of potential vulnerability. Users have the option to submit the completed assessment to DHS. If submitted, DHS reviews the assessment for consistency and provides feedback to the users.

Owners and operators within the transportation sector can access information about the tool by visiting TSA's Web site: www.tsa.gov, selecting "Industry Partners," then "Risk Management," then finally selecting the "DHS-VISAT" link. Thus far, TSA has developed modules of the tool for maritime, mass transit, highway bridges, and rail passenger stations, with more in development.

TSA is seeking OMB approval to renew this control number for the maximum three-year period to continue to provide this tool to transportation owners and operators.

Number of Respondents: Of the possible 3,002,450 respondents from the various transportation sectors, TSA expects that approximately 10 percent, or 300,245, will use the tool.

Estimated Annual Burden Hours: An estimated 2,401,960 hours annually.

Issued in Arlington, Virginia, on September 19, 2005.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4984-C-03]

Public Housing Graduation Incentive Bonus Program; Correction

AGENCY: Office of the Assistant Secretary for Public and Indian Housing, HUD.

ACTION: Notice of funding availability; correction.

SUMMARY: On June 2, 2005, HUD published its notice of funding availability (NOFA) for the Public Housing Graduation Incentive Bonus program. The NOFA includes a provision that disqualifies applicants that request funding in excess of the applicable maximum award. The Department has determined that this provision was erroneously included in this NOFA. This notice corrects this error by removing the provision from

the NOFA. Except for the changes discussed here, and the other technical change published on July 29, 2005, the original NOFA published on June 2, 2005, is unchanged.

FOR FURTHER INFORMATION CONTACT: For questions and technical assistance, applicants may call the Public and Indian Housing Information and Resource Center at 800-955-2232. Hearing- or speech-impaired persons may call the Federal Relay Service at 800-877-8339. (These are toll-free numbers.)

SUPPLEMENTARY INFORMATION: On June 2, 2005 (70 FR 32470), HUD published a NOFA for the Public Housing Graduation Incentive Bonus program. The purpose of the program is to invite Public Housing Authorities (PHAs) to apply for a graduation incentive bonus. The graduation incentive bonus is awarded to PHAs that can show their public housing residents are moving away from long-term dependence on housing assistance. This showing is evidenced by the proportion of households that leaves public housing and end their participation in assisted housing programs during calendar year 2004 plus the average length of stay among public housing residents.

The NOFA announced the availability of up to \$10 million under the Graduation Incentive Bonus program in fiscal year 2005. Eligible applicants are PHAs that operated a public housing program during calendar year 2004, have reported Public and Indian Housing Information Center (PIC) Family Household form HUD-50058 data for residents who ended their residency in public housing during calendar year 2004, have a minimum of 100 dwelling units in management status as reported in PIC as approved by the field office as of January 15, 2005, have a minimum of twenty-five Family Household form HUD-50058 records reported in PIC and have met the minimum threshold criteria based upon its size category.

Following publication of the June 2, 2005, NOFA, HUD determined that paragraph III.C.2. (Excess Funding Requests) was erroneously included in the June 2, 2005, NOFA. That paragraph provides that "Applicants that request funding in excess of the maximum award that they are eligible to receive will not receive funding consideration." This provision, adopted in error in the June 2, 2005, NOFA, is inappropriate as a basis for awarding the funds reserved in the NOFA. As discussed in the June 2, 2005, NOFA, the funding is predetermined and will be awarded based on PHA size and certain

identified historical data. Consequently, a PHA cannot receive an award in excess of the amount predetermined for its size. The formulaic nature of the allocation process makes it irrelevant that a PHA may inadvertently or otherwise apply for an amount larger than HUD decided to award. HUD will not exceed the respective award limits for the different sizes of PHAs.

Accordingly, in the Public Housing Graduation Incentive Bonus Program, HUD will remove paragraph III.C.2. entitled Excess Funding Requests.

Dated: September 15, 2005.

Paula O. Blunt,

General Deputy Assistant Secretary for Public and Indian Housing.
