AGENCY: Bureau of Indian Affairs, Interior.

SUMMARY: This notice advises the public that the Bureau of Indian Affairs (BIA) as lead agency, in cooperation with the Confederated Tribes of the Warm Springs Reservation of Oregon (Tribes), intends to prepare an Environmental Impact Statement (EIS) for a proposed 25-acre trust acquisition and resort and casino project, including transportation system improvements, to be located within the city of Cascade Locks, Hood River County, Oregon. Other cooperating agencies include the Oregon Department of Transportation, the city of Cascade Locks, the port of Cascade Locks, Hood River County and, because of proposed transportation system improvements to Interstate 84, the Federal Highway Administration. FOR FURTHER INFORMATION CONTACT: June Boynton, (503) 231-6749.

SUPPLEMENTARY INFORMATION: The Bureau of Indian Affairs is considering the Tribes' application for 25 acres of land to be taken into trust for the development of gaming and related entertainment facilities. The 25 acres proposed for trust acquisition are part of a 60-acre tract located at the eastern edge of the city of Cascade Locks in Hood River County, Oregon.

The EIS will include an evaluation of alternatives for meeting the proposed facilities' access needs from Interstate 84. The transportation analysis will include all reasonable alternatives for access from Interstate 84, including modifying or eliminating the existing partial interchanges known as Herman Creek Interchange and East Cascade Locks Interchange. The EIS will also analyze a new interchange at Forest Lane. Although the eventual size and scope of the facilities may be modified based on information obtained through

the EIS process, the Tribes' current proposal for the new gaming facility, on acquired trust land, would have a 90,000-square-foot gaming floor connected to retail shops, dining venues, and a 250-room hotel and spa. The facility would provide parking for 3,600 vehicles, including a parking garage and spaces for oversized vehicles. The proposed action encompasses the various federal approvals required to implement the Tribes' fee-to-trust application. Areas of environmental concern identified so far for analysis in the EIS include water resources, air quality, biological resources, cultural resources, socioeconomic conditions, traffic and transportation, land use, public utilities and services, noise, lighting, hazardous materials, environmental justice, and visual resources/aesthetics. The range of issues and alternatives to be addressed in the EIS may be expanded based on comments received in response to this notice and at the public scoping meetings.

Notice of a 30-Day Public Comment Period To Affirm the Policy for the Standards To Establish the Potash Enclave as Used To Administer the Secretarial Order of 1986 Entitled "Oil and Gas and Potash Leasing and Development Within the Designated Potash Area of Eddy and Lea Counties, New Mexico"

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice solicits public comments on the report which affirms the existing policy on the criteria used to establish the potash enclave.

DATES: Comments should be submitted to the address below no later than September 29, 2005.

ADDRESSES: Written comments should be addressed to Group Manager, Solid Minerals, 1620 L. St. NW., Mail Stop 501 LS, Washington DC 20036.

FOR FURTHER INFORMATION CONTACT:

David Stewart, Mining Engineer, 1620 L. St. NW., Mail Stop 501 LS, Washington, DC 20036, telephone (202) 452-0310.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of the Interior (DOI) has a long history of administering the concurrent development of the oil and gas and potash deposits owned by the United States in Eddy and Lea counties, New Mexico. The BLM is the agency within the DOI responsible for these activities. There is an interest in exploring for oil and gas in parts of the area containing the potash reserves (potash enclave). The Secretarial Order (SO), published in the **Federal Register** dated October 28, 1986 entitled, "Oil and Gas and Potash Development within the Designated Potash Area of Eddy and Lea Counties," was developed to administer the development of these resources.

The order, in Yates Petroleum Corp., et al., IBLA No. 92-612, was issued pursuant to an appeal filed by Yates Petroleum Corp., et al. concerning decisions to deny the approval to drill certain oil and gas wells by the BLM

pursuant to the SO. In her opinion, the Administrative Law Judge stated, "The record does not support a conclusion that the standards of four (4) feet of 10 percent K₂O as sylvite and four (4) feet of 4 percent K₂O as langbeinite, or a combination of the two, as defined by Van Sickle in 1974, continue to identify the thickness and quality of potash which is mineable under existing technology and economics" as required by the SO. The BLM has the same concerns and prepared the report referenced in this notice.

II. Report, Entitled "Potash Enclave Mineral Report"

The report may be viewed at the following site on the Internet, <http://www.blm.gov/nhp/300/wo320/potash.pdf>. A hard copy may be requested from the contact for further information above.

Assistant Director, Minerals, Realty and Resource Protection.
