

all Participants disseminate dynamic quotes with size, the Participants believe that it is appropriate to calculate the FCQS based on the size of the disseminated quotation of the Participant receiving the P/A Order. Accordingly, the Participant Exchanges submitted Amendment No. 16 to the Linkage Plan, and the Exchange proposes to amend the definition of FCQS to Chapter XII, Section 1(g) of BOX Rules. As such, upon implementation of the proposed rule change and Amendment No. 16, a Participant will provide incoming P/A Orders with executions up to the full size of a Participant's disseminated quotation.

The proposed rule change will eliminate a 15-second period Participants must wait before sending a second P/A Order. Specifically, Chapter XII, Section 2(c) of BOX's Rules governs the manner in which P/A Orders larger than the FCQS are handled. It provides that an initial P/A Order may be sent to a Participant for execution at the FCQS; if the same Participant continues to disseminate the same price 15 seconds after the execution of the initial P/A Order, the market maker can send a second P/A Order, subject to certain restrictions. The Exchange proposes to eliminate the 15-second wait period because the Participants now employ dynamic quotes with size, obviating the need for a manual quote refresh period for P/A Orders.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act⁷ in general, and furthers the objectives of Section 6(b)(5) of the Act⁸ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Specifically, the Exchange believes the proposed rule change will help promote the Linkage Plan by providing greater automatic execution of Linkage orders.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose

any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding, or (ii) as to which the BSE consents, the Commission will:

A. By order approve such proposed rule change; or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Order Approving a Proposed Rule Change and Amendment No. 1 Thereto To Amend the Exchange's Trade-Through and Locked Markets Rules

September 13, 2005.

On June 30, 2005, the Chicago Board Options Exchange, Incorporated ("CBOE"), filed with the Securities and Exchange Commission ("Commission") a proposed rule change pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² to implement Amendment No. 15 to the Plan for the Purpose of Creating and Operating an Intermarket Option Linkage³ by

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ On July 28, 2000, the Commission approved a national market system plan for the purpose of creating and operating an intermarket option linkage proposed by the American Stock Exchange LLC, the CBOE, and the International Securities Exchange, Inc. See Securities Exchange Act Release No. 43086 (July 28, 2000), 65 FR 48023 (August 4, 2000) ("Linkage Plan"). Subsequently, upon separate requests by the Philadelphia Stock Exchange, Inc., the Pacific Exchange, Inc., and the Boston Stock Exchange, Inc., the Commission issued orders to permit these exchanges to participate in the Linkage Plan. amending CBOE Rules 6.80 and 6.84 to add a "trade and ship" exception to the definition of "Trade-Through" and add a "book and ship" exception to the provision relating to locked markets, respectively. On July 26, 2005, the CBOE filed Amendment No. 1 to the proposed rule change.⁴ The proposed rule change, as amended, was published for comment in the **Federal Register** on August 5, 2005.⁵ The Commission received no comments on the proposal. This order approves the proposed rule change, as amended.

Under the proposed rule change, an order could be traded at a price that is one minimum quoting increment inferior to the national best bid or offer ("NBBO") if a Linkage Order⁶ is sent contemporaneously to the market(s) disseminating the NBBO to satisfy all interest at the NBBO price. The proposed rule change also would provide that an order may be booked that would otherwise lock another market if a Linkage Order is sent contemporaneously to such other market to satisfy all interest at the lock price and only the remaining portion of the order is booked. The CBOE proposes that, under trade and ship, any execution received from the market disseminating the NBBO must (pursuant to agency obligations) be reassigned to the customer order that is underlying the Linkage Order that was sent to trade with the market disseminating the NBBO.

After careful consideration, the Commission finds that the proposed rule change is consistent with the requirements of section 6 of the Act⁷ and the rules and regulations thereunder applicable to a national securities exchange.⁸ In particular, the Commission finds that the proposed rule change is consistent with section 6(b)(5) of the Act,⁹ which requires, among other things, that the rules of an exchange be designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market

⁴ In Amendment No. 1, the CBOE revised the rule text to use terms consistent with CBOE's current rules and made certain clarifying changes to the purpose section.

and a national market system, and, in general, to protect investors and the public interest. The Commission believes that the proposed rule change should help to implement the Linkage Plan by facilitating the ability of CBOE's members to execute their customer orders in a timely manner and potentially could decrease the incidence of Trade-Throughs and locked markets.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁰ that the proposed rule change (SR-CBOE-2005-51) as amended, is approved.

September 14, 2005.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on August 29, 2005, the Chicago Board Options Exchange, Incorporated ("CBOE" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the CBOE. The Exchange proposes to amend its rules governing the operation of the intermarket option linkage ("Linkage") to conform with a proposed amendment³ to the Plan for the Purpose of Creating and Operating an

Intermarket Option Linkage ("Linkage Plan").⁴ The Exchange is proposing: (i) To amend the definition of "Firm Customer Quote Size" ("FCQS")⁵ to provide automatic executions for Linkage Principal Acting as Agent Orders ("P/A Orders")⁶ up to the full size of the Exchange's disseminated quotation; and (ii) to eliminate a 15-second waiting period between the sending of P/A Orders.

The text of the proposed rule change is available on CBOE's Web site (www.cboe.com), at the CBOE's Office of the Secretary, and at the Commission's public reference room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the CBOE included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to modernize the definition of FCQS in CBOE rules related to the operation of the Linkage rules. At the time the Linkage commenced, options quote sizes were not disseminated through the Options Price Reporting Authority and most participants in the Linkage Plan employed automatic execution systems that guaranteed automatic fills on orders under a certain contract size (which was generally a static number). As such, the FCQS was
