Title: Ownership Report for Commercial Broadcast Station.

Form Number: FCC Form 323.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 2,000.

Estimated Time per Response: 0.5 to 1.5 hours.

Frequency of Response: On occasion reporting requirement; Biennial reporting requirement; Upon renewal reporting requirement; Third party disclosure requirement.

Total Annual Burden: 2,750 hours.

Total Annual Cost: \$2,166,800.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Each permittee of a commercial AM, FM, TV, and international broadcast station must file FCC Form 323, Ownership Report, within 30 days of the FCC granting their application for an original construction permit, the consummation, pursuant to FCC consent, of a transfer of control or an assignment of a construction permit, and when it files its license for the new station. Each license of a commercial AM, FM, TV, and international broadcast station must file FCC Form 323 with 30 days of the consummation, pursuant to FCC consent, of a transfer of control or an assignment of license, when it files its station's renewal application, and every two years thereafter. Data on the FCC Form 323 helps to determine whether the licensee/permittee meets the FCC's multiple ownership requirements and complies with the Communications Act. The race/ethnicity/gender question on the form indicates current minority and female ownership of broadcast facilities and the efficacy of FCC Rules to promote opportunities for small businesses and minority and female-owned businesses in the broadcasting industry.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1030.

Title: Service Rules for Advanced Wireless Services in the 1.7 GHz and 2.1 GHz Bands.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, Federal Government, and state, local and tribal government.

Number of Respondents: 500.

Estimated Time Per Response: .50 hours-10 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement and third party disclosure requirement.

Total Annual Burden: 6,505 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Needs and Uses: The Commission adopted and released a Report and Order in WT Docket No. 02-353, FCC 03-251, which adopts service, licensing, and competitive bidding rules for advanced wireless services in the 1710-1755 MHz and 2110-2155 MHz bands. These bands have previously been used for a variety of government and non-government services. The R&O allocates these frequency bands for fixed and mobile services to as to provide for the introduction of new advanced wireless services to the public. In the R&O, the Commission is enabling service providers to put this spectrum to its highest value use with minimal transaction costs. By the end of its license term a licensee must provide "substantial service" that is, service that is sound, favorable and substantially above the level of mediocre service that just might minimally warrant renewal. Compared to a construction standard, section 27.14(a)'s substantial service requirement will provide licensees greater flexibility to determine how best to implement their business plans based on criteria demonstrating actual service to end users. This requirement provides the flexibility required to accommodate the new and innovative services that we believe will be forthcoming in these bands.

The Commission is imposing three information collection burdens on the public. They are: (1) Foreign ownership change submission; (b) showing of compliance with substantial service requirement; and (3) interference coordination. Such information has been used in the past and will continue

to be used to minimize interference, verify that the applicants are legally and technically qualified to hold licenses, and to determine compliance with Commission rules.

Secretary.
