Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA 04-19684; Airspace Docket No. 04-ANM-24]

Proposed Revision of Class E Airspace; Herlong, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposal would revise Class E airspace at Herlong, CA. Additional controlled airspace is necessary to contain Instrument Flight Rules (IFR) aircraft during airborne holding at Amedee Army Air Field (AAF) due to weather below landing minimums, traffic congestion, or other operational reasons. Holding airspace is designated at specific altitudes and lateral boundaries within controlled airspace to provide a safe environment above obstacles. This holding pattern is an integral part of the new Area Navigation (RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedures (SIAPs) at the Amedee AAF.

DATES: Comments must be received by August 26, 2005.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. The Proposal

This action proposes to amend Title 14 Code of Federal Regulations, part 71 (14 CFR part 71) by revising Class E airspace at Amedee AAF, Herlong, CA. Additional Class E airspace is necessary to contain IFR aircraft within controlled airspace during airborne holding at Amedee AAF. Holding airspace is necessary when aircraft are delayed at Amedee AAF due to weather below landing minimums, traffic congestion, or other operational reasons. Holding airspace is designated at specific altitudes and lateral boundaries within controlled airspace to provide a safe environment above obstacles. This holding pattern is an integral part of the new RNAV GPS SIAP's at the Amedee AAF.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.9M dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in this Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal

Aviation Administration proposes to amend 14 CFR part 71 as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR part 71.1 of the Federal Aviation Administration Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, is amended as follows:
