SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) received on June 27, 2005, from Pa'ina Hawaii, LLC, a Hawaiian owned company, an application to build and operate a commercial pool type industrial irradiator in Honolulu, Hawaii, near the Honolulu International Airport. This commercial irradiator will irradiate fresh fruit and vegetables bound for the mainland from the Hawaiian Islands, cosmetics, and pharmaceutical products. The irradiator will also be used by the applicant to conduct research and development projects, and irradiate a wide range of other materials as specifically approved by the NRC on a case-by-case basis.

The NRC plans to hold a public meeting to solicit comments from members of the public on the proposed license application. The meeting is open to the public and all interested parties may attend. This meeting is the first of several public meetings that the NRC will hold in Hawaii to enhance public awareness of the NRC's independent regulatory role in protecting public health and safety and the environment, to allow public involvement in NRC

decision-making matters associated with this license application, and to promote two-way communication on matters related to the NRC's licensing and inspection processes. The public is invited to participate in this meeting by providing comments and asking questions throughout the meeting.

OFFICE OF PERSONNEL MANAGEMENT

Submission for OMB Emergency Clearance and 60 Day Notice for Comment for a Reinstatement, With Change, of a Previously Approved Collection: OPM Form 1300, Presidential Management Fellows Program Online Application and Resume Builder

AGENCY: Office of Personnel Management (OPM).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) submitted a request to the Office of Management and Budget (OMB) for emergency clearance and review for a reinstatement, with change, of a previously approved collection for the OPM Form 1300, Presidential Management Fellows (PMF) Program Online Application and Resume Builder. Approval of the PMF Online Application and Resume Builder is necessary to facilitate the timely

registration, nomination, selection, and placement of PMF finalists in Federal agencies. This also serves as the 60 Day Notice for review for full clearance.

As a result of Executive Order 13318, the OPM issued a final rule on May 19, 2005 (FR, Vol. 70, No. 96, Page 28775) implementing new program regulations effective June 20, 2005. Consistent with these new regulations, the following significant changes have been made to the application and nomination process: (1) The programmatic guidance in the Program and Application Overview, found under the PMF Web site's "How to Apply" section, was rewritten to reflect myriad changes resulting from the new regulations; (2) the nomination process was modified to clarify that eligible graduate students are to be nominated by their school's Dean, Chairperson, or Academic Program Director (*i.e.* a nominating official), and not by a designee or nomination coordinator; and (3) the dates and times were revised from last year to reflect the current academic year of 2005/2006.

We estimate 3,500 to 4,000 applications will be received and processed in the 2005/2006 open season for PMF applications. During the 2004/2005 open season OPM received approximately 3,321 applications, leading to 3,073 nominations by colleges and universities. We estimate students will need 2 hours to complete the OPM Form 1300 and electronically submit it to their school's nominating official. In addition, we estimate school nominating officials will need one-half hour to receive, review, and render a decision on the student's application for nomination into the PMF Program. The annual estimated burden for nominees is 8,000 hours and 2,000 hours for school nominating officials, for a total of 10,000 hours.

Comments are particularly invited on: whether this information is necessary for the proper performance of functions on the Office of Personnel Management, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.
