

(e) * * *

(3) *Swine*—(i) *Amount*. Administer 2.2 mg/kg (1.0 mg/lb) of body weight as a single intramuscular injection.

(ii) *Indications for use*. For the control of pyrexia associated with swine respiratory disease.

(iii) *Limitations*. Swine must not be slaughtered for human consumption within 12 days of last treatment.

PART 556—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

■ 3. The authority citation for 21 CFR part 556 continues to read as follows:

Authority: 21 U.S.C. 342, 360b, 371.

■ 4. Section 556.286 is amended by adding paragraph (b)(2) to read as follows:

§ 556.286 Flunixin.

* * * * *

(b) * * *

(2) *Swine*. The tolerance for flunixin free acid (the marker residue) is:

(i) *Liver (the target tissue)*. 30 ppb.

(ii) *Muscle*. 25 ppb.

* * * * *

Dated: November 15, 2005.

Steven D. Vaughn,

Director, Office of New Animal Drug Evaluation, Center for Veterinary Medicine.

[FR Doc. 05-23294 Filed 11-23-05; 8:45 am]

BILLING CODE 4160-01-S

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[R05-OAR-2005-IN-0007; FRL-7999-3]

Approval and Promulgation of Implementation Plan; Indiana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The EPA is approving Indiana's April 8, 2005, submittal which revises existing sulfur dioxide (SO₂) emission limits for sources in Dearborn County, makes minor corrections removing obsolete rule language, and updates information for sources listed in the rule. These revisions will not result in an increase in SO₂ emissions in Dearborn County because no emission limits were increased.

DATES: This rule is effective on January 24, 2006, unless EPA receives adverse written comments by December 27, 2005. If EPA receives adverse comments, EPA will publish a timely withdrawal of the rule in the **Federal**

Register and inform the public that the rule will not take effect.

ADDRESSES: Submit comments, identified by Regional Material in EDocket (RME) ID No. R05-OAR-2005-IN-0007, by one of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the on-line instructions for submitting comments.

Agency Web site: <http://docket.epa.gov/rmepub/>. Regional RME, EPA's electronic public docket and comments system, is EPA's preferred method for receiving comments. Once in the system, select "quick search," then key in the appropriate RME Docket identification number. Follow the on-line instructions for submitting comments.

E-mail: mooney.john@epa.gov.

Fax: (312) 886-5824.

Mail: You may send written comments to: John M. Mooney, Chief, Criteria Pollutant Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, 77 West Jackson Boulevard, Chicago, Illinois 60604.

Hand delivery: Deliver your comments to: John M. Mooney, Chief, Criteria Pollutant Section, Air Programs Branch, (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, 18th floor, Chicago, Illinois 60604.

Such deliveries are only accepted during the Regional Office's normal hours of operation. The Regional Office's official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m. excluding Federal holidays.

Instructions: Direct your comments to RME ID No. R05-OAR-2005-IN-0007. EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Do not submit information that you consider to be CBI or otherwise protected through RME, regulations.gov, or e-mail. The EPA RME Web site and the Federal regulations.gov Web site are "anonymous access" systems, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through RME or regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA

recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional instructions on submitting comments, go to Section I of the **SUPPLEMENTARY INFORMATION** section of the related proposed rule which is published in the Proposed Rules section of this **Federal Register**.

Docket: All documents in the electronic docket are listed in the RME index at <http://docket.epa.gov/rmepub/>. Although listed in the index, some information is not publicly available, i.e., CBI or other information whose disclosure is restricted by statute. Publicly available docket materials are available either electronically in RME or in hard copy at Environmental Protection Agency, Region 5, Air and Radiation Division, 77 West Jackson Boulevard, Chicago, Illinois 60604. We recommend that you telephone Charles Hatten, Environmental Engineer, at (312) 886-6031 before visiting the Region 5 office. This facility is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT:

Charles Hatten, Environmental Engineer, Criteria Pollutant Section, Air Programs Branch (AR-18J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-6031, hatten.charles@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever "we," "us," or "our" is used, we mean EPA. This supplementary information section is arranged as follows:

- I. General Information.
 - A. Does This Action Apply to Me?
 - B. How Can I Get Copies of This Document and Other Related Information?
 - C. How and to Whom Do I Submit Comments?
- II. What Is EPA Approving?
- III. What Are the Changes From the Current Rule?
- IV. What Action Is EPA Taking Today?
- V. Statutory and Executive Order Reviews.

I. General Information

A. Does This Action Apply to Me?

This action only applies to specific SO₂ sources located in Dearborn County, Indiana.

B. How Can I Get Copies of This Document and Other Related Information?

1. The Regional Office has established an electronic public rulemaking file available for inspection at RME under ID No. R05-OAR-2005-IN-0007, and a hard copy file which is available for inspection at the Regional Office. The official public file consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public rulemaking file does not include CBI or other information whose disclosure is restricted by statute. The official public rulemaking file is the collection of materials that is available for public viewing at the Air Programs Branch, Air and Radiation Division, EPA Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604. EPA requests that, if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday, 8:30 a.m. to 4:30 p.m. excluding Federal holidays.

2. *Electronic Access.* You may access this **Federal Register** document electronically through the regulations.gov Web site located at <http://www.regulations.gov> where you can find, review, and submit comments on Federal rules that have been published in the **Federal Register**, the Government's legal newspaper, and that are open for comment.

For public commenters, it is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at the EPA Regional Office, as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in the official public rulemaking file. The entire printed comment, including the copyrighted material, will be available at the Regional Office for public inspection.

C. How and to Whom Do I Submit Comments?

You may submit comments electronically, by mail, or through hand delivery/courier. To ensure proper receipt by EPA, identify the appropriate

rulemaking identification number by including the text "Public comment on proposed rulemaking Region 5 Air Docket R05-OAR-2005-IN-0007" in the subject line on the first page of your comment. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

For detailed instructions on submitting public comments and on what to consider as you prepare your comments see the **ADDRESSES** section and the section I General Information of the **SUPPLEMENTARY INFORMATION** section of the related proposed rule which is published in the Proposed Rules section of this **Federal Register**.

II. What Is EPA Approving?

EPA is approving revisions to Indiana's SO₂ State Implementation Plan (SIP) for specified existing stationary sources located in Dearborn County, Indiana. The SIP revisions amend Title 326 of the Indiana Administrative Code (IAC), section 7-4-13, by removing obsolete rule language for the Indiana Michigan Power Tanners Creek Station. The SIP revision also updates information for other companies listed in 326 IAC 7-4-13, including adding source identification numbers. Indiana held public hearings on these revisions on May 5, 2004 and October 6, 2004.

III. What Are the Changes From the Current Rule?

Indiana's SO₂ emission limits for Dearborn County are contained in 326 IAC 7-4-13. The current SO₂ emission limitations in 326 IAC 7-4-13 are based on air quality modeling used by the State when EPA approved the SIP in 1987. The SIP revision amends 326 IAC 7-4-13, as described below.

A. Indiana Michigan Power Tanners Creek Station

The SIP revision removes obsolete rule language that included interim requirements restricting the SO₂ emission limits for the Indiana Michigan Power Tanners Creek Station, Unit 4. These interim requirements are no longer necessary, and have been deleted; the rule limits Unit 4 to an SO₂ emission limit of five and twenty-four hundredths (5.24) pounds per MMBTU since August 1, 1991. This revision reflects these changes. This SIP revision also adds source identification number, No. 00002, to the Indiana Michigan Power Tanners Creek Station.

B. Schenley Distillers, Inc.

Schenley Distillers, Inc. closed in 1998 and has been removed from the rule.

C. Joseph E. Seagram and Sons, Inc.

The revision changes the name from Joseph E. Seagram and Sons, Inc. to Pernod Ricard USA, Seagram Lawrenceburg Distillery. The company has removed one boiler listed in the current rule, and renamed the remaining boiler. This revision reflects this change. The revision also adds source identification number, No. 00005, to the Pernod Ricard USA, Seagram Lawrenceburg Distillery.

D. Diamond Thatcher Glass

The furnaces formerly owned by Diamond Thatcher Glass are owned by Anchor Glass Container Corporation, and have been renamed as such. This revision reflects this change. The revision also adds source identification number, No. 00007, to the Anchor Glass Container Corporation.

IV. What Action Is EPA Taking Today?

EPA is approving revisions to 326 IAC 7-4-13, which contains the SO₂ emission limitations for existing stationary sources located in Dearborn County, Indiana. The SIP revision amends 326 IAC 7-4-13, by removing obsolete rule language for the Indiana Michigan Power Tanners Creek Station, and by making minor revisions for other companies listed in 326 IAC 7-4-13, including adding source identification numbers.

We are publishing this action without prior proposal because we view this as a noncontroversial amendment and anticipate no adverse comments. However, in the proposed rules section of this **Federal Register** publication, we are publishing a separate document that will serve as the proposal to approve the state plan if relevant adverse written comments are filed. This rule will be effective January 24, 2006 without further notice unless we receive relevant adverse written comments by December 27, 2005. If we receive such comments, we will withdraw this action before the effective date by publishing a subsequent document that will withdraw the final action. All public comments received will then be addressed in a subsequent final rule based on the proposed action. The EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. If we do not receive any comments, this action will be effective January 24, 2006.

V. Statutory and Executive Order Reviews

Executive Order 12866; Regulatory Planning and Review

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and therefore is not subject to review by the Office of Management and Budget.

Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

Because it is not a “significant regulatory action” under Executive Order 12866 or a “significant energy action,” this action is also not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001).

Regulatory Flexibility Act

This action merely approves state law as meeting Federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*).

Unfunded Mandates Reform Act

Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This rule also does not have tribal implications because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, as specified by Executive Order 13175 (59 FR 22951, November 9, 2000).

Executive Order 13132: Federalism

This action also does not have Federalism implications because it does not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various

levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action merely approves a state rule implementing a Federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act.

Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

This rule also is not subject to Executive Order 13045 “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997), because it is not economically significant.

National Technology Transfer Advancement Act

In reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the state to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply.

Paperwork Reduction Act

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of

this action must be filed in the United States Court of Appeals for the appropriate circuit by January 24, 2006. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, and recordkeeping requirements, sulfur oxides.

Dated: November 10, 2005.

Bharat Mathur,

Acting Regional Administrator, Region 5.

■ For the reasons stated in the preamble, part 52, chapter I, of title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart P—Indiana

■ 2. Section 52.770 is amended by adding paragraph (c)(171) to read as follows:

§ 52.770 Identification of plan.

* * * * *

(c) * * *

(171) On April 8, 2005, Indiana submitted final adopted revisions for the Dearborn County sulfur dioxide emission limitations in 326 IAC 7–4–13 as a requested revision to the Indiana state implementation plan. EPA is approving these revisions, which remove obsolete rule language for Indiana Michigan Tanners Creek Station and updates information for other companies listed in the rule.

(i) Incorporation by reference.

(A) Indiana Administrative Code Title 326: Air Pollution Control Board, Article 7: Sulfur Dioxide Rules, Rule 4: Emission Limitations and Requirements by County, Section 13: Dearborn County Sulfur Dioxide Emission Limitations. Filed with the Secretary of State on February 14, 2005, and effective March 16, 2005. Published in the Indiana Register on April 1, 2005 (28 IR 2021).
