

storms, or other sources of extraneous electricity. The employer must certify and maintain a record of alternative provisions made to adequately prevent any premature firing of electric firing of electric blasting caps.

*Section 1926.900(o)*—Employers must notify the operators and/or owners of overhead power lines, communication lines, utility lines, or other services and structures when blasting operations will take place in proximity to those lines, services, or structures.

*Section 1926.903(d)*—The employer must notify the hoist operator prior to transporting explosives or blasting agents in a shaft conveyance.

*Section 1926.903(e)*—Employers must perform weekly inspections on the electrical system of trucks used for underground transportation of explosives. The weekly inspection is to detect any failure in the system which would constitute an electrical hazard. The most recent certification of inspection must be maintained and must include the date of inspection, a serial number or other identifier of the truck inspected, and the signature of the person performing the inspection.

*Section 1926.905(t)*—Under § 1926.905(t), the employer blaster must maintain an accurate and up-to-date record of explosives, blasting agents, and blasting supplies used in a blast. In addition, the employer must also maintain a running inventory of all explosives and blasting agent stored on the operation.

## II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

## III. Proposed Actions

OSHA is requesting the OMB extend the approval of the information collection requirements necessitated by 29 CFR part 1926, subpart U—Blasting Operations and the Use of Explosives. The Agency will include this summary in its request to OMB to extend the

approval of these information collection requirements.

*Type of Review:* Extension of currently approved information collection requirements.

*Title:* 29 CFR part 1926, subpart U—Blasting Operations and the Use of Explosives.

*OMB Number:* 1218-0217.

*Affected Public:* Business or other for-profits; Not-for-profit organizations; Federal Government; State, local or tribal government.

*Frequency:* On occasion.

*Average Time Per Response:* Time varies from five minutes to notify a hoist operator of blasting agents to eight hours to develop an alternative plan if an employer is unable to display adequate warning signs against the use of mobile transmitters during blasting operations.

*Estimated Total Burden Hours:* 322,523.

*Estimated Cost (Operation and Maintenance):* \$800,000.

## IV. Public Participation—Submission of Comments on this Notice and Internet Access to Comments and Submissions

You may submit comments and supporting materials in response to this notice by (1) hard copy, (2) Fax transmission (facsimile), or (3) electronically through the OSHA Web page. Because of security-related problems, there may be a significant delay in the receipt of comments by regular mail. Please contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for information about security procedures concerning the delivery of submissions by express delivery, hand delivery, and courier service.

All comments, submissions, and background documents are available for inspection and copying at the OSHA Docket Office at the above address. Comments and submissions posted on OSHA's Web page are available at <http://www.OSHA.gov>. Contact the OSHA Docket Office for information about materials not available through the OSHA Web page and for assistance using the Web page to locate docket submissions.

Electronic copies of this **Federal Register** notice as well as other relevant documents are available on OSHA's Web page. Since all submissions become public, private information such as social security numbers should not be submitted.

## V. Authority and Signature

Jonathan L. Snare, Acting Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority

for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 *et seq.*), and Secretary of Labor's Order No. 5-2002 (67 FR 65008).

Signed at Washington, DC, on November 21, 2005.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 05-154]

### NASA Advisory Committee; Renewal of NASA's Aerospace Safety Advisory Panel Charter

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of Renewal and amendment of the Charter of the Aerospace Safety Advisory Panel.

**SUMMARY:** Pursuant to sections 14(b)(1) and 9(c) of the Federal Advisory Committee Act (Pub. L. 92-463), and after consultation with the Committee Management Secretariat, General Services Administration, the Administrator of the National Aeronautics and Space Administration has determined that a renewal of the Aerospace Safety Advisory Panel is in the public interest in connection with the performance of duties imposed upon NASA by law. The structure and duties of this panel is unchanged.

**FOR FURTHER INFORMATION CONTACT:** Ms. P. Diane Rausch, Office of External Relations, National Aeronautics and Space Administration, Washington, DC 20546, (202) 358-4510.

#### SUPPLEMENTARY INFORMATION:

Information regarding the Aerospace Safety Advisory Panel is available on the world wide web at: <http://www.hq.nasa.gov/office/codeq/asap/index.htm>.

Dated: November 17, 2005.

## NATIONAL SCIENCE FOUNDATION

### Agency Information Collection Activities: Comment Request

**AGENCY:** National Science Foundation.

**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) is announcing plans to request reinstatement and approval of this data collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this information collection.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use

of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments should be received by January 24, 2006 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

**ADDRESSES:** Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to [splimpto@nsf.gov](mailto:splimpto@nsf.gov).

**FOR FURTHER INFORMATION CONTACT:**

Suzanne Plimpton on (703) 292-7556 or send e-mail to [splimpto@nsf.gov](mailto:splimpto@nsf.gov).

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., eastern time, Monday through Friday.

**SUPPLEMENTARY INFORMATION:**

*Title of Collection:* 2007 and 2009 Survey of Science and Engineering Research Facilities.

*Expiration Date of Approval:* April 31, 2006.

*Type of Request:* Intent to seek approval to renew an information collection for three years.

*Proposed Project:* The National Science Foundation Survey of Science and Engineering Research Facilities is a Congressionally mandated (Pub. L. 99-159), biennial survey that has been conducted since 1986. The survey collects data on the amount, condition, and costs of the physical facilities used to conduct science and engineering research. It was expected by Congress that this survey would provide the data necessary to describe the status and needs of science and engineering research facilities and to formulate appropriate solutions to documented needs. During the 2003 and 2005 survey cycles, data were collected from a population of approximately 465 research-performing colleges and universities. This survey population was supplemented with approximately 190 nonprofit biomedical research institutions receiving research support from the National Institutes of Health. Beginning with the FY 2003 cycle, a new section was added to the survey requesting information on the computing and networking capacity at the surveyed institutions, an

increasingly important part of the infrastructure for science and engineering research. Other important changes include updating the networking and computing section, based on technological changes and issues that may occur.

*Use of the Information:* Analysis of the Facilities Survey data will provide updated information on the status of scientific and engineering research facilities and capabilities. The information can be used by Federal policy makers, planners, and budget analysts in making policy decisions, as well as by institutional academic officials, the scientific/engineering establishment, and state agencies and legislatures that fund universities.

*Burden on the Public:* The Facilities Survey will be sent by mail to approximately 465 academic institutions and 190 nonprofit research organizations and hospitals. The completion time per academic institution is expected to average 41 hours and the completion time per research organization/hospitals is expected to average 7 hours. Assuming a 90% response rate, this would result in an estimated burden of 17,159 hours for academic institutions and 1,197 hours for nonprofit research organizations/hospitals.

Dated: November 21, 2005.
