DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Reporting and Performance Standards System for the Migrant and Seasonal Farm Worker Program Under Title I, Section 167 of the Workforce Investment Act (WIA) of 1998

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Employment and Training Administration (ETA) is soliciting comments on revised reporting requirements for the Migrant and Seasonal Farm Worker (MSFW) program. This information collection request is necessary in order to collect data for calculating a set of common performance measures of the outcomes achieved by the MSFW program.

SUPPLEMENTARY INFORMATION:

I. Background

Each grantee administering funds under the MSFW program is required to submit a program planning report (ETA Form 9094), a budget information summary report (ETA Form 9093), and a quarterly program status report (ETA Form 9095). This latter form contains information related to levels of participation and service, related assistance activities, and actual placements in employment. In addition, each grantee submits a quarterly file of individual records on all participants who exit the program, called the Workforce Investment Act Standardized Participant Record (WIASPR).

In 2001, under the President's Management Agenda, OMB and other Federal agencies developed a set of common performance measures to be applied to certain federally-funded employment and training programs with similar strategic goals. As part of this initiative, ETA initially issued Training and Employment Guidance Letter (TEGL) 15-03 and has more recently issued TEGL 28-04, Common Measures Policy, which rescinded TEGL 15-03 and reflected updates to the policy. The value of implementing common measures is the ability to describe in a similar manner the core purposes of the workforce system—how many people found jobs; did they keep their jobs; and what were their earnings. Multiple sets of performance measures have burdened states and grantees as they are required to report performance outcomes based on varying definitions and methodologies. By minimizing the different reporting and performance requirements, implementing a set of common performance measures can facilitate the integration of service delivery, reduce barriers to cooperation among programs, and enhance the ability to assess the effectiveness and impact of the workforce investment system, including the performance of the system in serving individuals facing significant barriers to employment.

The common measures are an integral part of ETA's performance accountability system, and ETA will continue to collect from grantees the data on program activities, participants, and outcomes that are necessary for program management and to convey full and accurate information on the performance of workforce programs to policymakers and stakeholders.
