BILLING CODE 4410-11-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 05-032]

NASA Advisory Council, Financial Audit Committee; Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act (FACA), Public Law 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council (NAC), Financial Audit Committee (NFAC).

DATES: Friday, March 11, 2005, 11 a.m. to 3 p.m.

ADDRESSES: National Aeronautics and Space Administration, 300 E Street, SW., Room 9H40, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Ms. Ermerdene Lee, Office of the Chief Financial Officer, National Aeronautics and Space Administration, Washington, DC 20546. 202/358-4529, email elee1@hq.nasa.gov.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the capacity of the room. The agenda for the meeting includes the following topics:

- NASA 2004 Financial Audit Summary
- NASA Financial Management Improvement Plan
- Operation Clean Opinion
- Budget Process Enhancements
- Reporting Metrics

Attendees will be requested to sign a register and to comply with NASA security requirements, including the presentation of a valid picture ID, before receiving an access badge. Foreign nationals attending this meeting will be required to provide the following information no less than 3 working days prior to the meeting: Full name; gender; date/place of birth; citizenship; visa/green card information (number, type, expiration date); passport information (number, country, expiration date);

employer/affiliation information (name of institution, address, country, phone); title/position of attendee. To expedite admittance, attendees with U.S. citizenship can provide identifying information in advance by contacting Ermerdene Lee via email at elee1@hq.nasa.gov or by telephone at (202) 358-4529.

It is imperative that the meeting be held on this date to accommodate the scheduling priorities of the key participants.

Michael F. O'Brien,
Assistant Administrator for External Relations.

BILLING CODE 7510-13-P

NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval To Continue an Information Collection

AGENCY: National Science Foundation.

ACTION: Notice and request for comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request renewal of this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we are providing an opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by May 2, 2005, to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230; telephone 703-292-75567; or send e-mail to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8

p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: National Science Foundation Science Honorary Awards.
OMB Approval Number: 3145-0035.
Expiration Date of Approval: July 31, 2005.

Type of Request: Intent to seek approval to continue an information collection for three years.

Abstract: The National Science Foundation (NSF) administers several honorary awards, among them the President's National Medal of Science, the Alan T. Waterman Award, the NSB Vannevar Bush Award, and the NSB Public Service Award.

In 2003, to comply with E-government requirements, the nomination processes were converted to electronic submission through the National Science Foundation's (NSF) FastLane system. Individuals can now prepare nominations and references through <http://www.fastlane.nsf.gov/honawards/>. First-time users must register on the Fastlane Web site using the link found in the upper right-hand corner above the "Log In" box before accessing any of the honorary award categories.

Use of the Information: The Foundation has the following honorary award programs:

- *President's National Medal of Science.* Statutory authority for the President's National Medal of Science is contained in 42 U.S.C. 1881 (Pub. L. 86-209), which established the award and stated that "(t)he President shall * * * award the Medal on the recommendations received from the National Academy of Sciences or on the basis of such other information and evidence as * * * appropriate."

Subsequently, Executive Order 10961 specified procedures for the Award by establishing a National Medal of Science Committee which would "receive recommendations made by any other nationally representative scientific or engineering organization." On the basis of these recommendations, the Committee was directed to select its candidates and to forward its recommendations to the President.

In 1962, to comply with these directives, the Committee initiated a solicitation form letter to invite these nominations. In 1979, the Committee initiated a nomination form as an attachment to the solicitation letter. A slightly modified version of the nomination form was used in 1980.

The Committee established the following guidelines for selection of candidates:

1. The total impact of an individual's work on the present state of physical, biological, mathematical, engineering, or social and behavioral sciences is to be the principal criterion.

2. Achievements of an unusually significant nature in relation to the potential effects of such achievements on the development of scientific thought.

3. Unusually distinguished service in the general advancement of science and engineering, when accompanied by substantial contributions to the content of science at some time.

4. Recognition by peers within the scientific community.

5. Contributions to innovation and industry.

6. Influence on education through publications, students.

7. Must be a U.S. citizen or permanent resident who has applied for citizenship.

In 2003, the Committee changed the active period of eligibility to three years, including the year of nomination. After that time, candidates must be renominated with a new nomination package for them to be considered by the Committee.

Narratives are now restricted to two pages of text, as stipulated in the guidelines at <http://www.fastlane.nsf.gov/honawards/nms>.

• *Alan T. Waterman Award.* Congress established the Alan T. Waterman Award in August 1975 (42 U.S.C. 1881a (Pub. L. 94-86) and authorized NSF to "establish the Alan T. Waterman Award for research or advanced study in any of the sciences or engineering" to mark the 25th anniversary of the National Science Foundation and to honor its first Director. The annual award recognizes an outstanding young researcher in any field of science or engineering supported by NSF. In addition to a medal, the awardee receives a grant of \$500,000 over a three-year period for scientific research or advanced study in the mathematical, physical, medical biological, engineering, social, or other sciences at the institution of the recipient's choice.

The Alan T. Waterman Award Committee was established by NSF to comply with the directive contained in Pub. L. 94-86. The Committee solicits nominations from members of the National Academy of Sciences, National Academy of Engineering, scientific and technical organizations, and any other source, public or private, as appropriate.

In 1976, the Committee initiated a form letter to solicit these nominations. In 1980, a nomination form was used which standardized the nomination procedures, allowed for more effective

Committee review, and permitted better staff work in a short period of time. On the basis of its review, the committee forwards its recommendation to the Director, NSF, and the National Science Board (NSB).

Candidates must be U.S. citizens or permanent residents and must be 35 years of age or younger or not more than seven years beyond receipt of the Ph.D. degree by December 31 of the year in which they are nominated. Candidates should have demonstrated exceptional individual achievements in scientific or engineering research of sufficient quality to place them at the forefront of their peers. Criteria include originality, innovation, and significant impact on the field.

• *Vannevar Bush Award.* The NSB established the Vannevar Bush Award in 1980 to honor Dr. Bush's unique contributions to public service. The award recognizes an individual who, through public service activities in science and technology, has made an outstanding "contribution toward the welfare of mankind and the Nation."

The NSB ad hoc Vannevar Bush Award Committee annually solicits nominations from selected scientific engineering and educational societies. Candidates must be a senior stateperson who is an American citizen and meets two or more of the following criteria:

1. Distinguished him/herself through public service activities in science and technology.

2. Pioneered the exploration, charting and settlement of new frontiers in science, technology, education and public service.

3. Demonstrated leadership and creativity that have inspired others to distinguished careers in science and technology.

4. Contributed to the welfare of the Nation and mankind through activities in science and technology.

5. Demonstrated leadership and creativity that have helped mold the history of advancements in the Nation's science, technology, and education.

Nominations must include a narrative description about the nominee, a curriculum vitae (without publications), and a brief citation summarizing the nominee's scientific or technological contributions to our national welfare in promotion of the progress of science. Nominations must also include two reference letters, submitted separate from the nomination through <http://www.fastlane.nsf.gov/honawards/>.

Nominations remain active for three years, including the year of nomination. After that time, candidates must be renominated with a new nomination for

them to be considered by the selection committee.

• *NSB Public Service Award.* The NSB Public Service Award Committee was established in November 1996. This annual award recognizes people and organizations that have increased the public understanding of science or engineering. The award is given to an individual and to a group (company, corporation, or organization), but not to members of the U.S. Government.

Eligibility includes any individual or group (company, corporation or organization) that has increased the public understanding of science or engineering. Members of the U.S. Government are not eligible for consideration.

Candidates for the individual and group (company, corporation or organization) award must have made contributions to public service in areas other than research, and should meet one or more of the following criteria:

1. Increased the public's understanding of the processes of science and engineering through scientific discovery, innovation and its communication to the public.

2. Encouraged others to help raise the public understanding of science and technology.

3. Promoted the engagement of scientists and engineers in public outreach and scientific literacy.

4. Contributed to the development of broad science and engineering policy and its support.

5. Influenced and encouraged the next generation of scientist and engineers.

6. Achieved broad recognition outside the nominee's area of specialization.

7. Fostered awareness of science and technology among broad segments of the population.

Nominations must include a summary of the candidate's activities as they relate to the selection criteria; the nominator's name, address and telephone number; the name, address, and telephone number of the nominee; and the candidate's vita, if appropriate (no more than three pages).

The selection committee recommends the most outstanding candidate(s) for each category of the NSB, which approves the awardees.

Nominations remain active for a period of three years, including the year of nomination. After that time, candidates must be renominated with a new nomination for them to be considered by the selection committee.

Estimate of Burden: These are annual award programs with application deadlines varying according to the program. Public burden also may vary according to program; however, it is

estimated that each submission is averaged to be 15 hours per respondent for each program. If the nominator is thoroughly familiar with the scientific background of the nominees, time spent to complete the nomination may be considerably reduced.

Respondents: Individuals, businesses or other for-profit organizations, universities, non-profit institutions, and Federal and State governments.

Estimated Number of Responses per Award: 137 responses, broken down as follows: For the President's National Medal of Science, 55; for the Alan T. Waterman Award, 50; for the Vannevar Bush Award, 12; for the Public Service Award, 20.

Estimated Total Annual Burden on Respondents: 2,280 hours, broken down by 900 hours for the President's National Medal of Science (20 hours per 45 respondents); 900 hours for the Alan T. Waterman Award (20 hours per 60 respondents); 180 hours for the Vannevar Bush Award (15 hours per 12 respondents); and 300 hours for the Public Service Award (15 hours per 20 respondents).

Frequency of Responses: Annually.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: February 24, 2005.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

Dominion Nuclear Connecticut; Establishment of Atomic Safety and Licensing Board

[Docket No. 50-336 and 50-423; ASLBP No. 05-837-01-LR]

Pursuant to delegation by the Commission dated December 29, 1972, published in the **Federal Register**, 37 FR 28,710 (1972), and the Commission's regulations, see 10 CFR 2.104, 2.300, 2.303, 2.309, 2.311, 2.318, and 2.321, notice is hereby given that an Atomic Safety and Licensing Board is being established to preside over the following proceeding:

Dominion Nuclear Connecticut

(Millstone Nuclear Power Station, Units 2 and 3)

Pursuant to a March 8, 2004 notice of opportunity for hearing published in the **Federal Register** (69 FR 11,897 (Mar. 12, 2004)), a Licensing Board is being established to conduct a proceeding on the February 1, 2005 petition for late intervention of Suffolk County, New York, regarding the January 22, 2004 Dominion Nuclear Connecticut applications for renewal of the Millstone Units 2 and 3 operating licenses.

The Board is comprised of the following administrative judges: Michael C. Farrar, Chair, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Alan S. Rosenthal, Atomic Safety and Licensing Board Panel, U.S. Nuclear

Regulatory Commission, Washington, DC 20555-0001.

Dr. Peter S. Lam, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

All correspondence, documents, and other materials shall be filed with the administrative judges in accordance with 10 CFR 2.302.

Issued at Rockville, Maryland, this 23rd day of February 2005.

G. Paul Bollwerk, III,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-272 and 50-311]

PSEG Nuclear LLC; Notice of Consideration of Issuance of Amendment to Facility Operating License, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (NRC or the Commission) is considering issuance of an amendment to Facility Operating License Nos. DPR-70 and DPR-75 issued to the Salem Nuclear Generating Station, Unit Nos. 1 and 2 (Salem) for operation in Salem County, New Jersey.

The proposed revision would modify the Technical Specification (TS) definition of OPERABILITY with respect to requirements for availability of normal and emergency power. Additionally, the proposed revision would modify the required actions for shutdown power TSs.

Before issuance of the proposed license amendment, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the amendment request involves no significant hazards consideration. Pursuant to the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), Section 50.92, this means that operation of the facility in accordance with the proposed amendment would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a
