

1969, as amended, the Pittsburgh District (District), U.S. Army Corps of Engineers, intends to develop a Draft Environmental Impact Statement (EIS).

The Draft EIS will consider Federal actions associated with the District's proposal to restore the aquatic ecosystem of the lower Mahoning River in Ohio through (1) Dredging contaminated sediments lining the river; (2) bioremediating sediments in the bank and river where applicable; (3) capping contaminants in the bank; and (4) removing low-head dams along the river; or a combination of all four actions. The lower Mahoning River's ecosystem has been severely impacted by contamination from industries that once lined the valley and by several low-head dams that disrupt the river's natural hydrology. The proposed project will improve the lower Mahoning River's ecosystem to a level found at a model reach located just upstream of the project area.

ADDRESSES: Submit questions or comments regarding the environmental dredging project to Mr. Curtis N. Meeder, Chief, Planning and Environmental Branch, U.S. Army Corps of Engineers, Mahoning Environmental Dredging Project, 1000 Liberty Ave., Pittsburgh, PA 15222-4186, telephone (412) 395-7228 or e-mail: lrp.mahdredge@usace.army.mil.

FOR FURTHER INFORMATION CONTACT: Questions or comments regarding this notice can be directed to Mr. Larry Moskovitz, U.S. Army Corps of Engineers, 1000 Liberty Avenue, Pittsburgh, PA 15222-4186, Telephone: (412) 395-7205, e-mail: lrp.mahdredge@usace.army.mil.

SUPPLEMENTARY INFORMATION: The District is evaluating alternative strategies to restore, through environmental dredging, 31 miles of the lower Mahoning River that extends from Warren, Ohio to the Pennsylvania-Ohio state line. Through this project reach, the Mahoning River is considered a navigable waterway of the United States. The river sediment was contaminated from the heavy industrial use of the Mahoning River Valley through the early and mid 20th Century. Low head dams were constructed at that time to assure water supplies needed by industry. These dams have significantly altered the natural riverine habitat, and sediments in the river's bottom and banks were contaminated by decades of unregulated industrial waste disposal. The sediment contamination has severely impacted the aquatic life in this river and has led the Ohio Department of Health to issue two advisories against recreation on the Mahoning River from

Warren, Ohio to the Pennsylvania state line, one limiting fish consumption due to elevated levels of mercury and polychlorinated biphenols (PCBs) and another advising against coming in contact with sediments due to elevated levels of polyaromatic hydrocarbons (PAHs). At the end of the 20th Century, many of the industrial facilities along the Mahoning River closed down, and the remaining companies improved their wastewater treatment facilities resulting in a marked improvement in river water quality. Despite this improvement, recent studies of the lower Mahoning River's ecosystem [including the Ohio Environmental Protection Agency (OEPA's) 1994 Water Quality Study] suggest that the ecology of the Mahoning River will not be restored unless the contaminated sediments are removed, remediated, or capped and some or all of the dams are removed.

The project is being undertaken pursuant to the authority of Section 312 of the Water Resources Development Act (WRDA) of 1990 (Pub. L. 101-640), as amended by Section 205 of the WRDA of 1996 (Pub. L. 104-303) and Section 224 of the WRDA of 1999 (Pub. L. 106-53). Section 312 provides for the removal (dredging) of contaminated sediments within navigable waters for the purpose of ecosystem restoration and specifically identifies the Mahoning River in Ohio and Pennsylvania, due to the severity of contamination, as one of five rivers in the nation given top priority for removal and remediation of contaminated sediments. The District will prepare a Draft Environmental Impact Statement assessing the environmental impacts of the recommended and alternative plans.

Proposed Action: The Mahoning Environmental Dredging Project is designed to restore the ecosystem of the Mahoning River by removing contaminated sediment and low-head dams throughout a 31-mile stretch of the river (from Warren, Ohio to the Ohio-Pennsylvania border).

The Proposed Action involves removing contaminated sediments from the river utilizing mechanical or hydraulic dredging techniques and disposing of the material in an approved manner. Contaminated sediment located in the banks may be treated through hydraulic dredging, bioremediation, capping, or a combination of these three actions. Low-head dams that are no longer being used for water supply will be considered for removal.

Reasonable Alternatives: The District will evaluate a Future Without Project (No Action) Alternative and Future With Project Alternatives. The exact

nature and extent of the alternatives will be determined as part of the preparation of the Draft EIS. To facilitate scoping of the environmental effects of the project, the public may initially base comments upon a combination of possible actions that result in the removal of contaminated sediments from the riverbed and riverbank and the removal of unused low-head dams.

The primary issues to be analyzed in depth during the NEPA process will be the environmental impacts of proposed actions on the Mahoning River and cumulative impacts of this proposed Federal action in conjunction with reasonably foreseeable future actions by others. The analysis will include impacts to biological resources, cultural resources, socioeconomic resources, air quality, noise, and recreation.

In addition to the public notice, a notice will be mailed to each address on the Mahoning Environmental Dredging mailing list. Coordination throughout the project will be maintained with the appropriate local, state, and Federal agencies. Interested parties are encouraged to provide written comments relevant to issues to be addressed in the Draft EIS. The District requests that comments or requests for information be directed to the following study contact: Mr. Curtis N. Meeder, Chief, Planning and Environmental Branch (*see ADDRESSES* above).

Curtis N. Meeder,

Chief, Planning and Environmental.

I. Funding Opportunity Description

Purpose of Program: The purpose of the Early Childhood Educator Professional Development (ECEPD) program is to enhance the school readiness of young children, particularly disadvantaged young children, and to prevent them from encountering difficulties once they enter school, by improving the knowledge and skills of early childhood educators who work in communities that have high concentrations of children living in poverty.

Projects funded under the ECEPD program provide high-quality, sustained, and intensive professional development for these early childhood educators in how to provide developmentally appropriate school-readiness services for preschool-age children that are based on the best available research on early childhood

pedagogy and on child development and learning. For these grants, increased emphasis is being placed on the quality of program evaluations for the proposed projects.

The specific activities for which recipients may use grant funds are identified in the application package.

Priorities: This competition includes one absolute priority and two invitational priorities that are explained in the following paragraphs. In accordance with 34 CFR 75.105(b)(2)(iv), the absolute priority is from section 2151(e)(5)(A) of the Elementary and Secondary Education Act of 1965, as amended (ESEA), 20 U.S.C. 6651(e)(5)(A). The absolute priority and the two invitational priorities are as follows.

Absolute Priority: For FY 2005 this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority. This priority is:

High-Need Communities

The applicant partnership, if awarded a grant, shall use the grant funds to carry out activities that will improve the knowledge and skills of early childhood educators who are working in early childhood programs that are located in “high-need communities.”

An eligible applicant must demonstrate in its application how it meets the statutory requirement in section 2151(e)(5)(A) of the ESEA by including relevant demographic and socioeconomic data about the “high-need community” in which the program is located, as indicated in the application package. (See section 2151(e)(3)(B)(i) of the ESEA.)

“High-need community,” as defined in section 2151(e)(9)(B) of the ESEA, means—

(a) A political subdivision of a State, or a portion of a political subdivision of a State, in which at least 50 percent of the children are from low-income families; or

(b) A political subdivision of a State that is among the 10 percent of political subdivisions of the State having the greatest numbers of such children.

Note: The following additional terms used in or related to this absolute priority have statutory definitions that are included in the application package: “early childhood educator,” “low-income family,” and “professional development.”

Under this competition we are particularly interested in applications that address the following two invitational priorities.

Invitational Priorities: For FY 2005, these priorities are invitational priorities. Under 34 CFR 75.105(c)(1),

we do not give an application that meets these invitational priorities a competitive or absolute preference over other applications.

Invitational Priority 1—Young Children with Limited English Proficiency, Disabilities, or Other Special Needs

The Secretary is especially interested in applications that focus on providing professional development for early childhood educators who work with young children (including infants or toddlers, as applicable) with: limited English proficiency; disabilities, as identified under Parts B or C of the Individuals with Disabilities Education Act; or other special needs.

Note: The following terms used in this invitational priority have statutory definitions that are included in the application package: “child with a disability,” “infants and toddlers with disabilities,” and “limited English proficient.”

Invitational Priority 2—Classroom Curricula and Teacher Professional Development

The Secretary also is especially interested in applications that focus on professional development for early childhood educators on the specific preschool curricula that are being used in their early childhood programs and that promote young children’s school readiness in the areas of language and cognitive development and early reading and numeracy skills. The curricula should be based on scientifically based research, and have standardized training procedures and published curriculum materials to support implementation by the early childhood educators. The chosen curricula should include a scope and sequence of skills and content with concrete instructional goals that will promote early language, reading, and numeracy skills.

The need for rigorous preschool curricula is driven by the national focus on high-quality preschool experiences that prepare children for formal reading instruction in the elementary grades. The professional development in the ECEPD program provides opportunities for the program participants to achieve greater understanding of the implementation of scientifically based curricula that focus on early language, reading, and numeracy skills of young children. Grantees should focus on assisting the early childhood educators to fully implement the selected curricula and measuring learning outcomes for the children taught by those educators.

Program Authority: 20 U.S.C. 6651(e).

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99, as applicable.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education only.

II. Award Information

Type of Award: Discretionary grant.

5. *Funding Restrictions:*

(a) *Indirect Costs.* For purposes of indirect cost charges, the Secretary considers all ECEPD program grants to be "educational training grants" within the meaning of section 75.562(a) of EDGAR. Consistent with 34 CFR 75.562, the indirect cost rate for any fiscal agent other than a State agency or agency of local government (such as a local educational agency) is limited to a maximum of eight percent or the amount permitted by the fiscal agent's negotiated indirect cost rate agreement, whichever is less. Further information about indirect cost rates, and on how to apply for a negotiated indirect cost rate for fiscal agents that do not yet have one, is available at the following Web site: <http://www.ed.gov/about/offices/list/ocfo/intro.html?exp=0>.

(b) *Pre-award Costs:* For FY 2005 the Secretary exercises her authority under sections 75.263 and 74.25(e)(1) of EDGAR to approve pre-award costs incurred by recipients of these grants more than 90 calendar days before the grant award. Specifically, the Secretary approves necessary and reasonable pre-award costs incurred by these grant recipients for up to 90 days before the application deadline date. These pre-award costs must be related to the needs assessment that applicants conduct under section 2151(e)(3)(B)(iii) of the ESEA before submitting their applications, to determine the most critical professional development needs of the early childhood educators to be served by the project and in the broader community.

Applicants incur any pre-award costs at their own risk. The Secretary is under no obligation to reimburse these costs if for any reason the applicant does not receive an award or if the award is less than anticipated and inadequate to cover these costs.

We reference additional regulations outlining funding restrictions in the *Applicable Regulations* section of this notice.
