

Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR part 5. The wage rates and fringe benefits, notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, NW., Room S-3014, Washington, DC 20210.

THE NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

Proposed Collection, Comment Request, Program Guidelines, Report Forms, Reviewer Forms

AGENCY: Institute of Museum and Library Services.

ACTION: Notice of requests for information collection, submission for OMB review.

SUMMARY: The Institute of Museum and Library Services as part of its continuing

effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95), 44 U.S.C. 3508(2)(A). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently the Institute of Museum and Library Services is soliciting comments concerning the proposed collection of application information for Librarians for the 21st Century, Native American/ Native Hawaiian Library Services reporting forms, Grants for State Library Administrative Agencies financial report form, and reviewer forms.

A copy of the proposed information collection request can be obtained by contacting the individual listed below in the addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before February 2, 2005.

IMLS is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electric submissions of responses.

ADDRESSES: Send comments to: Rebecca Danvers, Director, Office of Research and Technology, Institute of Museum and Library Services, 1100 Pennsylvania Ave., NW., Room 223, Washington, DC 20506. Dr. Danvers can be reached on Telephone: 202-606-2478 Fax: 202-606-0395 or by e-mail at rdanvers@imls.gov.

SUPPLEMENTARY INFORMATION:

Background: The Institute of Museum and Library Services is an independent Federal grant-making agency authorized by the Museum and Library Services Act, 20 U.S.C. 9101, *et seq.* The IMLS provides a variety of grant programs to assist the nation's museums and libraries in improving their operations and enhancing their services to the public. Museums and libraries of all sizes and types may receive support from IMLS programs. The Museum and Library Services Act, 20 U.S.C. 9101, *et seq.* authorizes the Director of the Institute of Museum and Library Services to make grants to museums, libraries, and other entities as the Director considers appropriate, and to Indian tribes and to organizations that primarily serve and represent Native Hawaiians. In addition, IMLS awards financial assistance to State Library Administrative Agencies, which are responsible for promoting library services throughout the country.

II. Current Actions

To administer these programs of grants, cooperative agreements and contracts, IMLS must develop application guidelines, reports and collect information about reviewers.

NUCLEAR REGULATORY COMMISSION

[Docket No. 040-07982]

Notice of Issuance of License Amendment for Termination of License SUB-00971 for ATK Ordnance and Ground Systems, LLC Arden Hills, Minnesota

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

George M. McCann, Senior Health Physicist, Decommissioning Branch, Division of Nuclear Material Safety, Region III, U.S. Nuclear Regulatory Commission, 2443 Warrenville Road, Lisle, Illinois 60532; Telephone: (630) 829-9856; fax number: (630) 515-1259; e-mail: gmm@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is issuing a license amendment to terminate Source Material License No. SUB-00971 issued to ATK Ordnance and Ground Systems, LLC, (ATK) and to authorize for unrestricted use its former depleted uranium production facilities, located at the Twin Cities Army Ammunition Plant, Arden Hills, Minnesota. On October 25, 2001, the NRC amended ATK's license to include an NRC-approved decommissioning plan supported by an Environmental Assessment and a Finding of No Significant Impact. These documents addressed the impacts of ATK's request to decommission its former depleted uranium facilities, including final status survey plans and the licensee's intent to terminate Source Material License No. SUB-00971. The NRC published a Notice of the Agency's proposed action and opportunity to request a hearing in the **Federal Register** (63 FR 28015) on May 21, 1998.

In a letter dated June 2, 2004, ATK requested termination of its NRC radioactive source material license. The NRC staff documented its review of ATK's final status surveys in a December 13, 2004, Safety Evaluation Report. Based on its review, the staff concluded that all licensable radioactive material had been removed from the ATK facility and residual radioactive material attributable to licensed activities did not exceed NRC unrestricted release criteria cited in its decommissioning plan.
