DEPARTMENT OF DEFENSE

Office of the Secretary; Defense Science Board

AGENCY: Department of Defense (DoD).

ACTION: Notice; Correction—Notice of Advisory Committee meeting date and location change.

SUMMARY: The Defense Science Board published a document in the **Federal Register** of May 20, 2005, announcing a closed meeting of the Defense Science Board (DSB) Task Force on Nuclear Capabilities. The *August 30-31, 2005*, tasked force has been revised to meet in closed session on *August 31-September 1, 2005, at the Institute for Defense Analysis (IDA)*. IDA is located at 4850 Mark Center Drive, Alexandria, VA. All other meeting dates and locations remain unchanged. The Task Force will review DoD needs and specific requirements for nuclear capabilities.

In accordance with section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board Task Force meetings concern matters listed in 5 U.S.C. 552b(c)(1) and that,

accordingly, the meetings will be closed to the public.

FOR FURTHER INFORMATION CONTRACT: LtCol David Robertson, USAF, Defense Science Board, 3140 Defense Pentagon, Room 3C553, Washington, DC 20301-3140, via e-mail at *david.robertson@osd.mil*, or via phone at (703) 571-0081.

Correction

In the **Federal Register** of May 20, 2005, in FR Doc 05-10155, on page 29288, in the last column, correct the **SUMMARY** and **DATES** captions to read: **SUMMARY:** The August 30-31, 2005, tasked force meeting has been revised to meet in closed session on August 31-September 1, 2005, at the Institute for Defense Analysis (IDA).

DATES: The August 30-31, 2005, tasked force meeting has been revised to meet in closed session on August 31-September 1, 2005.

Dated: July 27, 2005.

DEPARTMENT OF EDUCATION

Submission for OMB Review; Comment Request

AGENCY: Department of Education.

SUMMARY: The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer invites comments on the submission for OMB review as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before September 1, 2005.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Carolyn Lovett, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10235, New Executive Office Building, Washington, DC 20503 or faxed to (202) 395-6974.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public

consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) title; (3) summary of the collection; (4) description of the need for, and proposed use of, the information; (5) respondents and frequency of collection; and (6) reporting and/or recordkeeping burden. OMB invites public comment.

Dated: July 27, 2005.

Angela C. Arrington,

Leader, Information Management Case Services Team, Regulatory Information Management Services, Office of the Chief Information Officer.

Office of Special Education and Rehabilitative Services

Type of Review: Extension.

Title: Annual Client Assistance Program (CAP) Report.

Frequency: Annually.

Affected Public: State, local, or tribal gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 56.

Burden Hours: 350.

Abstract: Form RSA-227 is used to analyze and evaluate the Client Assistance Program (CAP) administered by designated CAP agencies. These agencies provide services to clients and client applicants of programs, projects, and community rehabilitation programs authorized by the Rehabilitation Act of 1973, as amended. Data also are reported on information and referral services provided to any individual with a disability.

Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests

may also be electronically mailed to the Internet address *OCIO_RIMG@ed.gov* or faxed to 202-245-6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to Sheila Carey at her e-mail address *Sheila.Carey@ed.gov*. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Office of Planning, Evaluation and Policy Development

Type of Review: Reinstatement.

Title: Follow Up Evaluation of the GEAR UP Program.

Frequency: One time.

Affected Public: Individuals or household; State, local, or tribal gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 7,255.

Burden Hours: 3,907.

Abstract: The evaluation responds to legislative requirement in P.L. 105-244, Section G to evaluate and report on the effectiveness of projects funded under the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) program. Using a quasi-experimental design, high school graduation and postsecondary enrollment as well as students' and parents' expectations for postsecondary education, their knowledge of the academic preparation needed and availability of financial resources and students' academic performance will be compared over time for students who participated in GEAR UP with students who did not participate in GEAR UP projects. Descriptive information about projects will also be collected.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Expression of Interest Regarding the Scope of an Intended Solicitation for Superconductivity Partnerships With Industry (SPI) Projects

AGENCY: Department of Energy, Office of Electricity Delivery and Energy Reliability.

ACTION: Notice of inquiry.

SUMMARY: The Department of Energy (DOE), as part of its Superconductivity Program for Electric Power Systems, is currently pursuing the development of electric power equipment incorporating high temperature superconductors (HTS) through PSIs. The purpose is to accelerate future commercial availability of the more efficient, higher capacity new technology enabled by HTS for modernizing the electricity infrastructure.

The DOE is contemplating issuing a solicitation in FY-2006 in response to continued industrial interest and due to the impressive technical accomplishments made to date by participating industry teams. Applications of interest could address the next stage of HTS power line R&D, or begin R&D for power equipment based on the expected 2006 availability of second generation (2G) HTS wires in limited quantity. The purpose of this notice is to request expressions of interest in responding to the contemplated solicitation. DOE also welcomes comments on the content of the solicitation.

DATES: Written comments are to be filed electronically by e-mailing to: *SPI.comments@tms-hq.doe.gov* no later than 5 p.m. eastern time September 16, 2005. Comments can also be submitted at the address listed below.

ADDRESSES: Office of Electricity Delivery and Energy Reliability, OE-2, Attention: SPI Comments, U.S. Department of Energy, Forrestal Building, Room 6H-034, 1000 Independence Avenue, SW., Washington, DC 20585.

Note that U.S. Postal Service mail sent to DOE continues to be delayed by several weeks due to security screening. Submission via FedEx or electronically is therefore encouraged.

FOR FURTHER INFORMATION CONTACT: Dr. James Daley, Office of Electricity Delivery and Energy Reliability, OE-2, Attention: SPI Comments, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585.

SUPPLEMENTARY INFORMATION: DOE intends offering to share the cost of multi-year projects that advance program equipment goals where the industry contribution is typically 50% or more of the total project costs. DOE contemplates that proposals submitted pursuant to a future solicitation would be prepared by vertically integrated teams that include an equipment manufacturer, an end user such as an electric utility, and a HTS wire supplier. In addition, each team would be able to access (via separate Cooperative Research and Development Agreements) the capabilities of national laboratories currently participating in the superconductivity program in performing their project. These teams would be responsible for design, manufacture, installation and testing the technology of their choice. The program currently has a major focus on HTS power lines, but also has cost-shared projects for HTS generators, transformers, motors, fault current limiters and flywheel systems.

The DOE is contemplating issuing a solicitation in FY-2006 in response to continued industrial interest and due to the impressive technical accomplishments made to date by participating industry teams. Applications of interest could address the next stage of HTS power line R&D, or begin R&D for power equipment based on the expected 2006 availability of second generation (2G) HTS wires in limited quantity. Subject to availability of funds, DOE anticipates that awards for the contemplated solicitation will range from hundreds of thousands of dollars to several million dollars per year and for project periods of up to four years. The SPI awards would be cost-shared cooperative agreements between DOE and the industry team. The solicitation would also require that greater than 50% of manufacturing expenditures be in the United States. Further, the solicitation would require that the application include energy and economic benefits analysis, technical performance expectations, product or system design studies, and a plan for eventual product commercialization. A resulting award would fund first-of-a-kind equipment R&D concluding with its operation and testing, but would not commit DOE to follow-on phases or projects.
