Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 concerning opportunity for public comment on proposed collections of information, the Substance Abuse and Mental Health Services Administration will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the information collection plans, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Comments are invited on: (a) Whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection

of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Cross-Site Evaluation of the National Child Traumatic Stress Initiative (NCTSI)—NEW

The Substance Abuse and Mental Health Services Administration's (SAMHSA), Center for Mental Health Services (CMHS) will conduct the Cross-Site Evaluation of the National Child Traumatic Stress Initiative (NCTSI). The data collected will describe the children and families served by the National Child Traumatic Stress Network (NCTSN) and their outcomes, assess the development and dissemination of effective treatments and services, evaluate intra-network collaboration, and assess the Network's impact beyond the NCTSN.

Data will be collected from caregivers, NCTSN staff (e.g., project directors, researchers, and providers), mental health providers outside of the NCTSN, and non-mental health service providers who provide services to children outside of the NCTSN. Data collection will take place in 31 Community Treatment and Services Programs (CTS), 13 Treatment and Service Adaptation Centers (TSA), and 2 National Centers for Child Traumatic Stress (NCCTS). Data collection for this evaluation will be conducted over a four-year period.

In order to describe the children served, their outcomes, and satisfaction with services, data will be collected from youth ages 7-18 who are receiving services in the NCTSN, and from caregivers for all children who are receiving NCTSN services. Data will be collected when the child/youth enters services and during subsequent follow-up sessions at three-month intervals over the course of one year.
