BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP04-34-000]

Columbia Gas Transmission Corporation; Notice Of Availability of the Environmental Assessment for the Proposed Line 1278 Replacement Project

April 15, 2005.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) in cooperation with the National Park Service has prepared an environmental assessment (EA) on the natural gas pipeline facilities proposed by Columbia Gas Transmission Corporation (Columbia) in the above referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential effects of the proposed 43.4 miles of abandonment of Columbia's existing 14-inch-diameter pipeline, Line 1278, and its replacement with 20-inch-diameter pipeline in Northampton, Monroe, and Pike Counties, Pennsylvania mostly within Columbia's existing right-of-way. Columbia is under mandate from the United States Department of Transportation to replace deteriorated sections of its existing 14-inch-diameter Line 1278. The replacement would take place in two phases in 2005 and 2006. No volume increases are proposed.

Columbia would also abandon and replace one 12-inch-diameter and eight 14-inch-diameter valve settings along the replaced pipeline. The existing 14-inch-diameter pig launcher presently located at the Easton Compressor Station would be removed and relocated to the northern terminus of the project at Columbia's Weber Road Lot for use on Line 1278 at the north end of the replacement in Pike County. A new 20-inch-diameter receiver and a 12-inch-diameter regulator setting would also be installed at the Weber Road Lot.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371; Delaware Water Gap National Recreation Area, River Road, Bushkill, PA 18324, (570) 588-2452.

Copies of the EA have been mailed to Federal, State, and local agencies, public interest groups, interested individuals, libraries, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below. Please carefully follow these instructions to ensure that your comments are received in time and properly recorded:

- Send an original and two copies of your comments to: Magalie R. Salas, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1A, Washington, DC 20426;
- Label one copy of the comments for the attention of Gas 1, PJ-11.1;
- Reference Docket No. CP04-34-000
- Mail your comments so that they will be received in Washington, DC on or before May 16, 2005.

Please note that the Commission encourages electronic filing of comments. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Internet Web site at <http://www.ferc.gov> under the "e-Filing" link and the link to the User's Guide. Prepare your submission in the same manner as you would if filing on paper and save it to a file on your hard drive. Before you can file comments you will need to create an account by clicking on "Login to File" and then "New User Account." You will be asked to select the type of filing you are making. This filing is considered a "Comment on Filing."

Comments will be considered by the Commission but will not serve to make
