

the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority since it contains aircraft executing instrument approach procedures to Nevada Municipal Airport.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ Accordingly, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE MO E5 Nevada, MO

Nevada Municipal Airport, MO
(Lat. 37°51'07" N., long. 94°18'18" W.)
Nevada NDB
(Lat. 37°51'32" N., long. 94°18'10" W.)

That airspace extending upward from 700 feet above the surface within a 6.6-mile radius of Nevada Municipal Airport and within 2 miles each side of the 025° bearing from the airport extending from the 6.6-mile radius to 9.5 miles northeast of the airport and within 2.5 miles each side of the 036° bearing from the Nevada NDB extending from the 6.6-mile radius of the airport to 7 miles northeast of the NDB.

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2005–20061; Airspace Docket No. 05–ACE–3]

Modification of Class E Airspace; Ozark, MO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action amends Title 14 Code of Federal Regulations, part 71 (14 CFR part 71) by revising Class E airspace at Ozark, MO. A review of the Class E airspace area extending upward from 700 feet above ground level (AGL) at Ozark, MO revealed it is not in compliance with established airspace criteria. This airspace area is enlarged and modified to conform to FAA Orders. The intended effect of this rule is to provide controlled airspace of appropriate dimensions to protect aircraft departing from and executing Standard Instrumental Approach Procedures (SIAPs) to Air Park South Airport. This rule also amends the Air Park South Airport airport reference point (ARP) in the legal description to reflect current data. The area is modified and enlarged to conform to the criteria in FAA Orders.

DATES: This direct final rule is effective on 0901 UTC, May 12, 2005. Comments for inclusion in the Rules Docket must be received on or before March 14, 2005.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590–0001. You must identify the docket number FAA–2005–20061/Airspace Docket No. 05–ACE–3, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1–800–647–5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

FOR FURTHER INFORMATION CONTACT: Brenda Mumper, Air Traffic Division, Airspace Branch, ACE–520A, DOT Regional Headquarters Building, Federal Aviation Administration, 901 Locust, Kansas City, MO 64106; telephone: (816) 329–2524.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR Part 71 modifies the Class E airspace area extending upward from 700 feet above the surface at Ozark, MO. An examination of controlled airspace for Ozark, MO revealed the Class E area does not comply with airspace requirements for diverse departures from Air Park South Airport as set forth in FAA Order 7400.2E, Procedures for Handling Airspace Matters. The criteria in FAA Order 7400.2E for an aircraft to reach 1200 feet AGL, taking into consideration rising terrain, is based on a standard climb gradient of 200 feet per mile plus the distance from the airport reference point to the end of the outermost runway. Any fractional part of a mile is converted to the next higher tenth of a mile. Additionally, the examination revealed the description and dimensions of the north extension to the airspace area were not in compliance with FAA Orders 7400.2ZE and 8260.19C, Flight Procedures and Airspace. This amendment expands the airspace area from a 6-mile to a 6.8-mile radius of Air Park South Airport, decreases the width of the north extension from 2.6 miles to 2 miles each side of the Springfield collocated very high frequency omni-directional radio range and tactical air navigational aid (VORTAC) 165° radial and defines the extension in relation to the VORTAC. Additionally, the Air Park South Airport ARP is corrected in the legal description. These modifications provide controlled airspace of appropriate dimensions to protect aircraft departing from and existing SIAPs to Air Park South Airport and bring the legal description of the Ozark, MO Class E airspace area into compliance with FAA Orders 7400.2E and 8260.19C. This area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Direct Final Rule Procedure

The FAA anticipates that this regulation will not result in adverse or negative comment and, therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment,

or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

Comments Invited

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2005-20061/Airspace Docket No. 05-ACE-3." The postcard will be date/time stamped and returned to the commenter.

Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44

FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rulemaking is promulgated under the authority described in subtitle VII, part A, subpart I, section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority since it contains aircraft executing instrument approach procedures to Air Park South Airport.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

■ Accordingly, the Federal Aviation Administration amends 14 CFR 71 as follows:

PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, is amended as follows:

Paragraph 6005 Class E airspace areas extending upward from 700 feet or more above the surface of the earth.

* * * * *

ACE MO E5 Ozark, MO

Ozark, Air Park South Airport, MO
(Lat. 37°03'34" N., long. 93°14'03" W.)
Springfield VORTAC

(Lat. 37°21'21" N., long. 93°20'03" W.)
That airspace extending upward from 700 feet above the surface within a 6.8-mile radius of Air Park South Airport and within 2 miles each side of the Springfield VORTAC 165° radial extending from the 6.8-mile radius of the airport to 10 miles south of the VORTAC.

BILLING CODE 4910-13-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

15 CFR Part 902 and 50 CFR Part 660

[Docket No. 031125294-5018-03; I.D. 102903C]

RIN 0648-AP42

Fisheries Off West Coast States and in the Western Pacific; Highly Migratory Species Fisheries; Data Collection Requirements for U.S. Commercial and Recreational Charter Fishing Vessels

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; effectiveness of collection-of-information requirements.

SUMMARY: NMFS announces approval by the Office of Management and Budget (OMB) of collection-of-information requirements pertaining to permits, logbooks, vessel monitoring systems (VMS), and pre-trip notifications contained in the final rule to implement the approved portions of the U.S. West Coast Highly Migratory Species Fishery Management Plan (HMS FMP). The HMS FMP was partially approved on February 4, 2004, and the final rule to implement the approved portions of the HMS FMP was published in the **Federal Register** on April 7, 2004. At that time, the HMS FMP final rule contained collection-of-information requirements subject to the Paperwork Reduction Act (PRA) that were undergoing OMB review. This action announces receipt of OMB approval of data collections in the HMS FMP final rule for HMS permits, recordkeeping and reporting (daily logbooks), VMS, and pre-trip notification requirements for West Coast based U.S. fishing vessels targeting HMS. The intent of this notice is to inform the public of the effective date of the requirements approved by OMB.

DATES: This rule is effective February 10, 2005. Title 50 § 660.707 permits, § 660.708 reporting and recordkeeping, § 660.712(d) VMS, and § 660.712(f) pre-trip notification of the final rule for the U.S. West Coast Highly Migratory Species Fishery Management Plan
