Semiannual Regulatory Agenda, Fall 2005

AGENCY: Office of the Secretary, USDA.

ACTION: Semiannual regulatory agenda.

SUMMARY: This agenda provides summary descriptions of significant and not significant regulations being developed in agencies of the U.S. Department of Agriculture (USDA) in

conformance with Executive Order 12866 “Regulatory Planning and Review.” The agenda also describes regulations affecting small entities as required by section 602 of the Regulatory Flexibility Act, Public Law 96-354. This agenda also identifies regulatory actions that are being reviewed in compliance with section 610(c) of the Regulatory Flexibility Act. We invite public comment on those actions.

USDA has attempted to list all regulations and regulatory reviews pending at the time of publication except for minor and routine or repetitive actions, but some may have been inadvertently missed. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the date shown.

For this edition of the USDA regulatory agenda, the most significant regulatory actions are included in part II of this issue of the Federal Register. The Regulatory Plan entries are listed in the table of contents below and are denoted by a bracketed bold reference, which directs the reader to the appropriate sequence number in part II.

FOR FURTHER INFORMATION CONTACT: For further information on any specific entry shown in this agenda, please contact the person listed for that action. For general comments or inquiries about the agenda, please contact Michael Poe, Office of Budget and Program Analysis, U.S. Department of Agriculture, Washington, DC 20250, (202) 720-1272.

Dated: September 9, 2005.

Geraldine Broadway,
Chief, Legislative and Regulatory Staff.

 CERTIFICATION OF WILD CAPTURED
 AQUATIC ANIMALS (TM-01-08)**

Priority: Other Significant

Legal Authority: 7 USC 6501 through 6522

CFR Citation: 7 CFR 205

Legal Deadline: None

Abstract: The Agricultural Marketing Service (AMS) is revising regulations pertaining to labeling of agricultural products as organically produced and handled (7 CFR part 205). The term "aquatic animal" will be incorporated in the definition of livestock to establish production and handling standards for operations that capture aquatic animals from the wild. AMS has defined "aquatic animal" as any finfish or shellfish used for human consumption, whether taken from regulated but free roaming marine and fresh water populations (wild captured) or propagated and raised in a controlled or selected environment (aquaculture). Production standards for operations producing aquatic animals will incorporate requirements for livestock origin, feed ration, health care, living conditions, and recordkeeping. Handling standards for such operations will address prevention of commingling of organically produced commodities and prevention of contact between organically produced and prohibited substances.

 COMMODITIES ACT: TRUST RIGHTS
 (FV-05-373)**

Priority: Substantive, Nonsignificant

Legal Authority: 7 USC 4990

CFR Citation: 7 CFR 46

Legal Deadline: None

Abstract: The Agricultural Marketing Service (AMS), PACA Branch, is issuing an advance notice of proposed rulemaking in response to concerns raised by the industry that sellers may lose their status as trust creditors when using electronic data interchange (EDI) for invoicing. The Perishable Agricultural Commodities Act (PACA) imposes a statutory trust on the assets, including inventory and receivables of a licensee or firms operating subject to the PACA that have not paid for perishable agricultural commodities.

The PACA provides that a creditor may preserve its rights under the trust by including specified language on billing or invoicing statements. In 1997, the PACA regulations were amended to state that electronic transmissions are considered "ordinary and usual billing and invoicing statements." While perfecting PACA trust rights on paper invoices is fairly straightforward, due to the nature of technology, perfecting trust rights using EDI is not. Sellers who use EDI transmissions to perfect their trust rights perceive a threat that their trust rights may not be preserved. AMS is soliciting comments on the preservation of PACA trust rights in connection with EDI invoicing so that the Agency will be able to provide greater direction to the industry of how PACA trust rights can be preserved when invoicing electronically.

Abstract: On December 21, 2000, the Secretary of Agriculture (Secretary) established within the National Organic Program (NOP) the National List. The National List regulations identify synthetic (natural) substances and ingredients that are prohibited for use in organic production and handling. Under the authority of the Organic Foods Production Act of 1990 (OFPA), as amended (7 U.S.C. 6501 et seq.), the National List can be amended by the Secretary based on proposed amendments developed by the National Organic Standards Board (NOSB). This proposed rule would amend the National List to reflect recommendations submitted to the Secretary by the NOSB from November 15, 2000, through March 3, 2005. Between the specified time period, the NOSB has recommended that the Secretary add 4 substances to section 205.601 and 11 substances to section 205.605 of the National List regulations. This proposed rule would also amend the mailing address for where to file a Certification or Accreditation appeal pursuant to section 205.681(d).

Abstract: The U.S. Department of Agriculture (Department) received a request from the National Honey Packers and Dealers Association, dated July 8, 2003, to develop an industry-funded research, promotion, consumer education, and information program for honey and honey products. This proposed new program, the Honey Research, Promotion, and Consumer Education and Industry Order (Order), will assist the honey industry to: (1) Develop and finance an effective and coordinated program to strengthen the position of the honey industry and (2) maintain, develop, and expand existing markets for honey and honey products. Under the proposed Order, first handlers (packers) and importers of 250,000 or more pounds of honey and honey products would pay an assessment on \$0.01 per pound to the National Honey Packers and Importers Board (Board). At this initial rate, revenue for the program would be approximately \$3 million. Of this amount, about 47 percent would be generated by assessments on imported honey and honey products. The Board would be appointed by the Department to conduct a program of research and promotion, industry information, and consumer information needed to strengthen and increase the consumption of honey and honey products in the United States.

Abstract: The Agricultural Marketing Service is proposing to increase the hourly fee rates for performing laboratory testing to the agricultural industry by approximately 24 percent each, yielding additional program revenues of \$1,248,000 annually. The current fees, last increased in October 2000, are no longer adequate to cover current obligations. The program must also maintain an adequate program reserve balance called for by Agency policy and prudent financial management. In addition, this proposed rule will eliminate obsolete laboratory tests from, and add new laboratory tests to, the fee schedules in the regulations. The hourly rate for each regular laboratory analysis will be based on an hourly rate of \$56.00. The premium laboratory rate for appeals, holiday, and overtime services will be \$84.00 per analysis hour.

Priority: Substantive, Nonsignificant

Legal Authority: 7 USC 6501 through 6522

USDA—AMS

Proposed Rule Stage

CFR Citation: 7 CFR 205

Legal Deadline: None

Abstract: The Agricultural Marketing Service (AMS) is revising regulations pertaining to the use of allowed and prohibited substances contained on the National List. The Organic Foods Production Act (OFPA), (7 U.S.C. 6501 et seq.), authorizes the establishment of the National List of allowed and prohibited substances. The National List identifies synthetic substances that are allowed and nonsynthetic substances that are prohibited in organic crop and livestock production. The National List also identifies nonsynthetics and synthetics that are allowed for use in organic handling.

The allowances and prohibitions granted under the OFPA are required to be reviewed every 5 years by the National Organic Standards Board (NOSB). If they are not reviewed by the NOSB and renewed by the Secretary within 5 years of their inclusion on the National List, their authorized use or prohibition expires. This means that a synthetic substance currently allowed for use in organic production will no longer be allowed for use after October 21, 2007; a non-synthetic substance currently prohibited from use in organic production will be allowed after October 21, 2007; and a synthetic or nonsynthetic substance currently allowed for use in organic handling will be prohibited after October 21, 2007.

Expiration of the exempted or prohibited use of substances is provided for under the OFPA's sunset provision. AMS will conduct informal rulemaking to facilitate the sunset review of 165 exempted and 9 prohibited substances currently on the National List. On June 17, 2005, AMS published an ANPRM that establishes October 21, 2007, as the date by which the sunset review and renewal process

must be concluded. This ANPRM discussed how the NOP will manage the sunset review and renewal process. The ANPRM also began the public comment process on whether the existing specific exemptions or prohibitions on the National List should be continued for organic production and handling. The comment period for the ANPRM closed on August 16, 2005. The NOSB will have approximately 90 days from the close of the comment period to provide a recommendation to AMS concerning the continued use and prohibition of over 150 materials. AMS expects to publish a proposed rule by March 2006.

Abstract: The Agricultural Marketing Service (AMS) is proposing to revise regulations pertaining to 7 CFR part 42,

Standards for Condition of Food Containers. Periodically, AMS reviews inspection standards to determine if they meet current industry practices. Based on our most recent analysis, we believe that the standards need to be revised. The revisions are necessary in order to provide standards that reflect current U.S. industry practices. Revisions to the standards include, but are not limited to: (1) Incorporating new defects and updating current defects for metal, glass, rigid and semi-rigid, and flexible containers; (2) updating the standards to include new packaging technology such as aseptic packaging, metal cans with easy open lids, plastic rings that hold several containers together; and (3) removing the Operating Characteristic (OC) curves for on-line sampling and inspection.

Legal Authority: 7 USC 1621 through 1627

CFR Citation: 7 CFR 96

Legal Deadline: None

Abstract: The Agricultural Marketing Service (AMS) is establishing operating procedures for the USDA Farmers Market. These procedures would allow

AMS the means to demonstrate and experiment with direct marketing techniques (operate a farmers market), while at the same time educate consumers on the significance of small farms, the nutritional benefits of fresh fruits and vegetables, and the merits of food recovery. Included in this action would be the establishment of vendor criteria, selection procedures, and guidelines for governing the operation of the USDA Farmers Market.

Priority: Other Significant

Legal Authority: 7 USC 1621 through 1627

CFR Citation: 7 CFR 56

Legal Deadline: None

Abstract: Shell egg grading is a voluntary program provided under the Agricultural Marketing Act of 1946 and is offered on a fee-for-service basis. It is designed to assist the orderly marketing of shell eggs by providing for the official certification of egg quality, quantity, size, temperature, packaging, and other factors. Currently about one-third of the Nation's table eggs are marketed under the voluntary shell egg-grading program. Shell egg processors that choose to use this service pay a fee to have graders in their plants monitor processing operations and verify the grade and size of eggs packaged into packages bearing the USDA grade shield. The proposal would provide that, in order to be officially identified with a USDA consumer grade shield, shell eggs must not be more than 15 days old (or some other period between 15 and 30 days if justified by public comment) and must not have been previously shipped for retail sale.

Priority: Substantive, Nonsignificant

Legal Authority: 7 USC 7333

CFR Citation: 7 CFR 1437

Legal Deadline: None

Abstract: The Commodity Credit Corporation will amend 7 CFR section 1437.7(c) to provide that producers of crops in tropical areas do not have to report every planting period. The affected producers will be required to maintain a contemporaneous record of when and where the specific crop is planted and when harvested. This change will reduce producer travel to the Agency offices for reporting. The record will be used to determine the crops vulnerable to loss at the time of the disaster event. This will provide a more accurate loss measure for the agency to use in determining eligibility for NAP assistance.

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 7 USC 7931; 15 USC 714b

CFR Citation: 7 CFR 1421

Legal Deadline: None

Abstract: This rule amends existing regulations governing the Marketing

Assistance Loan (MAL) and Loan Deficiency Payment (LDP) Program of the Commodity Credit Corporation (CCC). The amendments to the rule are intended to clarify, support, and implement the requirements of title 1, subtitle B, Marketing Assistance Loans and Loan Deficiency Payments of the Farm Security Rural Investment Act of 2002. The regulatory changes impact the overall mission and administration of the MAL and LDP programs. This rule amends regulations governing (1) beneficial interest with regards to eligible commodities that are delivered to storage facilities, such as feedlots, feed yards, and dairies; (2) the announcement time of the adjusted world price (AWP) for rice; (3) the handling of payments and collections of \$24.99 or less; (4) CCC's processes in conducting lien searches and the associated fees necessary to record and file such liens on marketing assistance loans; (5) personal liability of the producer when it is determined by CCC that the producer violated the MAL terms and conditions by which the producer disposed of a quantity of commodity that is collateral for a CCC farm-stored loan without prior written approval from CCC; and (6) the producer's responsibility for requesting loan deficiency payment benefits.

Priority: Substantive, Nonsignificant

Legal Authority: 7 USC 7285

CFR Citation: 7 CFR 1402

Legal Deadline: None

Abstract: This action will update the regulations regarding the dissemination of general sales offering information to reflect current sales policies. 7 CFR part 1402 provides policy for the sale of certain commodities. Section 1402.1 provides that "...CCC will disseminate general sales offering information in the CCC Sales List, which is published in press release form. The CCC Sales List will be revised and republished as necessary." The methods of disseminating sales offering information have evolved with better technology, including inventory listings on CCC's Commodity Operations website (<http://www.fsa.usda.gov/daco/catalogs.htm>) and the capability for cotton buyers to purchase CCC-owned cotton (including transfer of title) through an on-line, web-based system. This action will have no budget impact.

Abstract: The Farm Service Agency is amending 7 CFR parts 761 and 762 regarding appraisals required for Farm Loan Programs Direct and Guaranteed Loan Programs. Current regulations allow an appraisal of real estate that is or is proposed to be security for an FSA direct or guaranteed farm loan to be considered a current appraisal when it is not completed in the previous 12 months, if it has been updated in compliance with the Uniform Standards of Professional Appraisal Practice (USPAP). However, USPAP was recently amended to provide that an update of an appraisal does not meet USPAP standards. This amendment will make FSA regulations comply with USPAP.

Abstract: The Commodity Credit Corporation (CCC) proposes several changes to the sugar program regulations. First, CCC proposes to amend the regulations for transferring sugar marketing allocation when a mill closes and growers request to move their allocation. The rule codifies the concept used to transfer allocation when Louisiana sugar mills closed in 2003 and 2004.

Second, CCC proposes adding a deadline for the program's information reporting requirements. The required monthly information would be due on the 20th of each month. This rule is intended to enforce reporting compliance, allowing CCC to assign a civil penalty for noncompliance.

Third, CCC proposes to amend the requirements for the maintenance and inspection of records to require each cane processor, cane refiner, and beet processor to provide an annual audit by a Certified Public Accountant (CPA) that verifies the company's data submitted to CCC.

Abstract: The U.S. Department of Agriculture regulates the treatment of certain marine mammals under the Animal Welfare Act. The present standards for treatment of these animals have been in effect for over 10 years. During this time, advances have been made and new information has been developed with regard to the housing and care of marine mammals. We

intend to develop amendments to the marine mammal standards on which consensus was not reached during negotiated rulemaking conducted between September 1995 and July 1996. The amendments would be to standards affecting variances, indoor facilities, outdoor facilities, space requirements, and water quality, as well as swim-with-the-dolphin programs. These actions appear necessary to ensure that the minimum standards for the humane handling, care, treatment, and transportation of marine mammals in captivity are based on current general, industry, and scientific knowledge and experience.

Abstract: We are amending the Karnal bunt regulations to provide compensation for certain growers and handlers of grain and seed affected by Karnal bunt who are not currently eligible for compensation, for certain wheat grown outside the regulated area that was commingled with wheat grown in regulated areas, and for other parties affected by the Karnal bunt regulations. The payment of compensation is necessary in order to encourage the participation of, and obtain cooperation from, affected individuals in our efforts to contain and reduce the prevalence of Karnal bunt.

Priority: Other Significant

Legal Authority: 21 USC 151 to 159

CFR Citation: 9 CFR 101; 9 CFR 116

Legal Deadline: None

Abstract: This proposed rule would amend the Virus-Serum-Toxin Act regulations concerning records and reports to require veterinary biologics licensees and permittees to record and submit reports to the Animal and Plant Health Inspection Service (APHIS) concerning adverse events associated with the use of biological products that they produce or distribute. We would specify the information that must be included in the adverse event report and would require veterinary biologics manufacturers to report to APHIS the number of doses of each licensed product that they distribute. These

actions would assist APHIS in providing complete and accurate information to consumers regarding adverse reactions or other problems associated with the use of licensed biological products. This proposed rule replaces a previously published proposed rule, which we are withdrawing as part of this document, that contained fewer specifics concerning the information that would have to be recorded in adverse event reports associated with the use of veterinary biologics that are submitted to the Agency.

Abstract: This action would establish domestic boll weevil regulations that would restrict the interstate movement of regulated articles within regulated areas and from regulated areas into or through nonregulated areas in commercial cotton producing States. The proposed regulations would help prevent the artificial spread of boll weevil into noninfested areas of the United States and the reinfestation of areas from which the boll weevil has been eradicated.

Abstract: This action would establish a voluntary Trichinae Certification Program for U.S. pork that has been produced under disease-prevention conditions. Under the proposed program, we would certify pork production sites that follow prescribed good production practices that reduce, eliminate, or avoid the risk of exposure of animals to the zoonotic parasite *Trichinella spiralis*, a disease of swine. Such a program should enhance the ability of producers to export pork and pork products to overseas markets. This proposed program, which would be funded by program fees, has been developed as a cooperative effort by the U.S. Department of Agriculture, the National Pork Board, and the pork processing industry. If adopted, this program would include those producers who choose to participate in the program, as well as slaughter facilities and other persons that handle or process swine from pork production sites that have been certified under the program.

Our approval would be contingent on the facility operator meeting certain minimum standards and other conditions relating to the receipt, handling, and release of sheep and goats at the facility, as well as complying with certain animal identification and recordkeeping requirements. Abstract: This action will amend the foreign quarantine and user fee regulations by removing the exemptions from inspection for fruits and vegetables imported from Canada and the exemptions from user fees for commercial vessels, commercial trucks, commercial railroad cars, commercial aircraft, and international air passengers entering the United States from Canada. As a result of this action, all agricultural products imported from Canada will be subject to inspection, and commercial conveyances, as well as airline passengers arriving on flights from Canada, will be subject to inspection and user fees. We are taking this action based on data showing an increasing number of interceptions on the U.S./Canada border of prohibited material that originated in regions other than Canada that presents a high risk of introducing plant pests or animal

diseases into the United States. These findings, combined with additional Canadian airport preclearance data on interceptions of ineligible agricultural products approaching the U.S. border from Canada, strongly indicate that we need to expand and strengthen our pest exclusion and smuggling interdiction efforts at that border.

Legal Deadline: None

Abstract: The Agency intends to publish a proposed rule to effectuate a comprehensive civil rights regulation implementing the following laws: The Equal Credit Opportunity Act (ECOA); title VI of the Civil Rights Act of 1964; title VIII of the Civil Rights Act of 1968,

as amended by the Fair Housing Amendments Act of 1988 (The Fair Housing Act); section 504 Federally Conducted and Federally Assisted Programs; title IX of the Education Amendments of 1972; Age Discrimination Act of 1975; and Executive Orders 11246 and 12898 (Environmental Justice). The revised regulations will provide detailed guidelines for field offices for improved enforcement and compliance with these laws, which heavily impact the Agency's programs. Mechanisms for monitoring compliance by field offices and recipients of Federal financial assistance at all levels will decrease the Agency's vulnerability that exists due to noncompliance with recently enacted Civil Rights legislation.

Abstract: Rural Housing Service intends to revise the definitions of new and existing dwellings to remove the reference to a 10-year warranty plan; remove requirement that all Community Land Trust (CLT) imposed restrictions terminate upon foreclosure by the Agency; remove dollar limits and use 1 percent of insurance coverage on loss deductible clauses with the objective of recognizing the increasing cost of home ownership insurance due to higher cost of home purchase; and require homeowner education for new home buyers.

This package has been separated into two rules. All revisions, except the homeowner education requirement and the CLT, were published as a direct final rule. The Agency is in the process of developing a proposed rule to implement the homeowner education requirement.

Abstract: The Rural Housing Service (RHS) is consolidating, simplifying, and updating the Agency standards for planning and developing sites and buildings to bring them in line with contemporary industry standards. This Agency regulation will contain the policies and procedures for planning and developing sites and buildings proposed for RHS financial assistance. This effort will produce a user-friendly tool to help program constituents, rural communities, and Agency personnel. The consolidation effort will also bring the requirements of these two regulations in line with the Agency's Single Family Housing, Multi-Family Housing, Community Programs, and Business and Industry regulations and handbooks. This action will have no financial impact on the public or Agency. These consolidations and technical revisions are in the best interest of the Government and public. This is a positive and needed action in RHS program delivery and will add value to the access and delivery of the Agency's programs.

Abstract: The Rural Development Agencies (Rural Housing Service, Rural Utilities Service, and Rural Business-Cooperative Service) are seeking to consolidate, simplify, and update the different Agency environmental requirements into a common environmental regulation. This Rural Development regulation will replace 7 CFR 1794, the current RUS environmental regulation; 7 CFR 1940-G, the current RHS/RBS environmental regulation; 7 CFR 1901-F, the current Historic Preservation regulation; and 7 CFR Part 1940-J, the current Intergovernmental Review regulation.

This consolidation effort will produce a single user-friendly tool to help the program constituents, rural communities, and Rural Development staff and bring the environmental requirements of Agency actions in line with the environmental requirements of other Federal programs for similar actions. This rule consists of subparts A through O.

Abstract: In 1996, a new payment assistance formula was implemented to provide assistance to Rural Housing Service customers to make home ownership affordable through the section 502 Direct Loan Program. No analysis has been conducted on the formula and its actual impacts since the change was implemented. Anecdotal information reveals that the formula may result in disparate treatment for some customers, especially those in the more rural counties. In addition, the formula is complex and difficult to

explain to customers and partners. USDA has contracted for a study of the formula to determine the extent of disparate or unintended borrower treatments/consequences of the existing formula and develop more equitable and simplified alternatives to provide payment assistance to our customers without increasing the cost of the program to the Government. The Agency intends to solicit public comments on potential alternatives to the current formula and to publish proposed and final rule changes to the formula.

Abstract: The Rural Housing Service (RHS) has consolidated and streamlined the regulations pertaining to section 515 Rural Rental Housing, section 514 Farm Labor Housing Loans, section 516 Farm Labor Housing Grants, and section 521 Rental Assistance Payments. Fourteen published regulations have been reduced to one regulation and handbooks for program administration. This will simplify loan origination and portfolio management for applicants, borrowers, and housing operators, as well as Rural Development field staff. This also provides flexibility for program modifications to reflect current and foreseeable changes. It reduces regulations that address solely internal Agency program administration.

Finally, the regulation is more customer-friendly and responsive to the needs of the public.

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 7 USC 1506(l); 7 USC 1506(p)

CFR Citation: 7 CFR 457

Legal Deadline: None

Abstract: The Basic Provisions and crop provisions for the Common Crop Insurance Policy are published in 7 CFR part 457. The Income Protection (IP) plan of insurance is a pilot program. The Crop Revenue Coverage (CRC) and the Revenue Assurance (RA) plans of insurance programs approved by the FCIC Board of Directors under 508(h) of the Federal Crop Insurance Act. IP, CRC, and RA are revenue products, and have many duplicate features between them and the Common Crop Insurance Policy Basic Provisions and applicable crop provisions. Therefore, IP, CRC, and RA will be combined into the Common Crop Insurance Policy Basic Provisions and small grains, cotton, coarse grains, malting barley, rice, canola, and rapeseed crop provisions.

279. GENERAL ADMINISTRATIVE REGULATIONS; NONSTANDARD UNDERWRITING CLASSIFICATION SYSTEM

Priority: Other Significant

Legal Authority: 7 USC 1506(l); 7 USC 1506(p)

CFR Citation: 7 CFR 400

Legal Deadline: None

Abstract: Nonstandard Underwriting Classification System (NCS): NCS was criticized by producers and their representatives for several years and became a major issue with the repetitive floods in the upper Midwest and multi-year droughts in the Southwest. Complaints included claims that the NCS procedures: 1) Did not adequately exclude widespread causes of loss (disaster adjustment); 2) failed to recognize diverse conditions within

a county; 3) unfairly hit new or struggling producers caught by repetitive disasters; and 4) set too high a premium for those producers listed. Additionally, administration of the NCS process was complicated, sometimes subjective, and labor intensive.

The Advanced Notice of Proposed Rulemaking that was published in the Federal Register in September 1997 sought comments from the public on options to improve NCS. Twenty-two comments were received in response to the advanced notice. RMA decided to replace NCS with a process that charged appropriate rates for those producers with adverse loss experience and less than average production histories.

RMA examined increasing premium rates based on producers' lower APH yields and using a surcharge based on

use of the yield floor (or some other identifiable indicator of adverse experience) to determine if these measures would adequately address the need to increase premiums for those producers with the most adverse loss histories based on the frequency and severity of losses. After reviewing past NCS experience on the existing book of business, it was determined that appropriate rate increases for those producers whose APH yields were less than average would compensate entirely for the elimination of NCS.

RMA implemented the following actions to accomplish the goal of replacing NCS beginning with the 1999 crop year:

— Removed and reserved the current NCS regulation (7 CFR part 400, subpart O) by publishing a proposed rule in the Federal Register. The final

USDA—FCIC

Final Rule Stage

rule is pending clearance; however, the Agency proceeded with the process and has waived NCS since 1999.

— Developed and implemented appropriate rate adjustments to offset the removal of NCS.

291. CHILD AND ADULT CARE FOOD PROGRAM (CACFP): AT-RISK AFTERSCHOOL SUPPERS

Priority: Other Significant**Legal Authority:** PL 106-224, sec 243(i)**CFR Citation:** 7 CFR 226**Legal Deadline:** None

Abstract: This proposed rule would revise the Child and Adult Care Food Program (CACFP) regulations to allow reimbursement of suppers provided by at-risk afterschool care programs in seven States. Six States were initially authorized by the Agricultural Risk Protection Act (Pub. L. 106-224); the seventh State was authorized by fiscal year 2002 appropriation legislation. At-risk suppers in these States (Delaware, Illinois, Pennsylvania, Michigan, Missouri, New York, and Oregon) are reimbursed under the same conditions set forth in the National School Lunch Act (NSLA) for at-risk snacks in the CACFP. Children who are 18 or younger and enrolled in qualifying afterschool programs located in the seven States may receive free suppers. To qualify, afterschool care programs must be located in low-income areas, provide care to children, and have an educational or enrichment purpose. (01-007)

Priority: Info./Admin./Other**Legal Authority:** 7 USC 2011 to 2036**CFR Citation:** 7 CFR 272; 7 CFR 273**Legal Deadline:** None

Abstract: Section 13 of the Food Stamp Act of 1977, as amended, requires State agencies to pursue collection of recipient overissuances in the Food Stamp Program. On July 6, 2000, FNS published a major rule that revised many of the processes and procedures in this area. This proposed rule provides clarifications and corrections to the July 6, 2000, rulemaking. Abstract: Executive Order 13279, which was signed on December 12, 2002, instructs Federal agencies, to the extent permitted by law, to collect data regarding the participation of faith-based and community-based organizations in social service programs that receive Federal financial assistance. This rulemaking would authorize the Secretary of Agriculture to require State agencies to collect and submit data to the Food and Nutrition Service that identifies the numbers, by categories to be determined by the Secretary, of institutions, organizations, sites, and facilities that apply to and participate in the Federal nutrition assistance programs. This rulemaking would add requirements to the

following programs: Special Supplemental Nutrition Program for Women, Infants and Children, National School Lunch Program, School Breakfast Program, Child and Adult Care Food Program, Summer Food Service Program, Commodity Supplemental Food Program, and the Emergency Food Assistance Program. The data collection effort will end 5 years after the effective date of the interim final rule. (04-001)

CFR Citation: 7 CFR 278.1(b)(4); 7 CFR 278.2(f)

Legal Deadline: None

Abstract: The proposed rule will revise the current bonding requirements set forth in section 278.1(b)(4) of Food Stamp Program (FSP) regulations that are imposed against retailers who have violated FSP rules and regulations. Section 12(d) of the Food Stamp Act of 1977 (the Act), as amended, gives the Secretary of Agriculture the discretionary authority to require that retailers who have been sanctioned for program violations present a collateral bond as a condition of future authorization. The Act also gives the Secretary the authority to prescribe the amount, terms, and conditions of such

USDA—FNS

Proposed Rule Stage

bonds by regulation. Currently, all violating retailers that are sanctioned for a specified period of time or imposed a civil money penalty are required to submit a bond if they wish to continue to participate in the FSP. The bond must be valid as long as the firm is authorized to participate in the FSP regardless of the period of disqualification imposed or the amount of the civil money penalty assessed. Retailers are required to renew their bond through a financial institution on a periodic basis. The proposed rule will: 1) Eliminate the current bonding requirement for retailers who are disqualified for a period of 6 months or imposed a civil money penalty in lieu of a 6-month disqualification period; and 2) limit the requirement to no more than 1 year for retailers who are disqualified for a specified period of time greater than 6 months or imposed a civil money penalty in lieu of a specified period of time greater than 6 months. Section 278.2(f) of the FSP regulations stipulates that retail food stores may not accept food stamp benefits in payment for any eligible food sold to food stamp households on credit. Thus, the proposed rule will also assign a specified period of time for retailers to be removed from the program for accepting food stamp benefits in payment for eligible food on credit. (04-002)

Priority: Other Significant**Legal Authority:** Older Americans Act of 1965, as amended**CFR Citation:** 7 CFR 250.12, 250.19, 250.24, 250.40, 250.41; 7 CFR 250.42, 250.48, 250.49, 250.50**Legal Deadline:** None

Abstract: This proposed rule would revise or clarify requirements with respect to the distribution, management, and use of donated foods in child nutrition programs, the Nutrition Services Incentive Program, and by charitable institutions. Most significantly, it would establish specific requirements to ensure that school food authorities and other recipient agencies in child nutrition programs receive the benefit of all donated foods provided under contract with food service management companies to conduct the food service. It would require the food service management company to credit the recipient agency for donated foods received, through invoice reductions, refunds, or other means of crediting. The rule would provide some flexibility in crediting for and use of donated foods by allowing the recipient agency to use donated food values other than the USDA purchase price and by allowing the food service management company to substitute donated foods with commercially purchased foods, with the exception of (1) donated ground beef and ground pork, and (2) end products received from processors. 299. SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC): DISCRETIONARY WIC VENDOR PROVISIONS IN THE CHILD NUTRITION AND WIC REAUTHORIZATION ACT OF 2004, PUBLIC LAW 108-265

Priority: Other Significant. Major status under 5 USC 801 is undetermined.**Legal Authority:** 42 USC 1786**CFR Citation:** 7 CFR 246**Legal Deadline:** Final, Statutory, December 2004.

Abstract: This rule proposes to amend regulations for the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) by adding three requirements mandated by the Child Nutrition and WIC Reauthorization Act of 2004, Public Law 108-265, concerning retail vendors authorized by WIC State agencies to provide supplemental food to WIC participants in exchange for WIC food instruments. This rulemaking would require WIC State agencies to notify WIC-authorized retail vendors of an initial violation, for violations requiring a pattern of occurrences in order to impose a sanction, before documenting a subsequent violation unless notification would compromise an investigation. In addition, State agencies would maintain a list of State-licensed wholesalers, distributors, and retailers, and manufacturers registered with the Food and Drug Administration, and would require WIC-authorized retail vendors to purchase infant formula only from sources on the list. Further, State agencies would prohibit the authorization of or payments to WIC-authorized vendors that derive more than 50 percent of their annual food sales revenue ("above-50-percent vendors") and which provide incentive items or other free merchandise except food or merchandise of nominal value to program participant customers unless the vendor provides the State agency with proof that the vendor obtained the incentive items or merchandise at no cost. The intent of these provisions is to, respectively, enhance due process for vendors; prevent defective infant formula from being consumed by infant WIC

participants; and, prevent increased WIC food costs caused by above-50-percent vendors who provide incentive items to participants which ultimately are derived from the proceeds of WIC purchases. (04-007)

Priority: Substantive, Nonsignificant. Major status under 5 USC 801 is undetermined.

Legal Authority: 7 USC 2011 to 2034

CFR Citation: 7 CFR 274.8 and 274.12; 7 CFR 278

Legal Deadline: None

Abstract: The proposed changes to the Food Stamp Program's regulations are being put forth to account for the replacement of the paper coupon issuance system with the Electronic Benefits Transfer (EBT) system as the nationwide method of distributing benefits to program recipients. These changes will remove coupon issuance regulations that are no longer applicable, revise regulatory language to more appropriately connote the new EBT issuance system (such as eliminating the use of the term "coupon," and replacing it with either "benefits" or "EBT card"), and reorganize sections to develop a more cohesive set of issuance and retailer regulations. None of the changes will

have any policy impacts. The regulatory revisions, however, are necessary to avoid confusion by ensuring that the issuance and redemption requirements are clear and comprehensible. The sections that will be updated and reorganized by the proposed rule are 7 CFR parts 274 and 278. (04-004)

CFR Citation: 7 CFR 250

Legal Deadline: None

Abstract: Food Distribution Program regulations at 7 CFR part 250.14(a) currently require all distributing agencies to, at minimum, evaluate non-commercial systems, perform cost

comparisons of existing systems with commercial systems, and seek FNS approval to use non-commercial facilities once every 3 years by March 31. This rule would amend current regulations at section 250.14(a) by removing the regulatory requirements above. By this time, per legislative mandate and the more stringent regulatory requirements, most States required to do so have conducted warehousing and distribution system evaluations and cost comparisons on multiple occasions. Through cycles of cost comparisons, we believe that conversions to commercial systems have already taken place where appropriate. The limited number of States that operate their own systems do so because no commercial system is available, or because the State-run system is more cost-effective.

The removal of the above regulatory requirements, in addition to other minor changes to the provisions of section 250.14(a), will decrease the burden on State distributing agencies in terms of both paperwork and man hours, while providing those State agencies greater flexibility in program operations. The proposed rule would also rewrite the provisions of section 250.14(a) in a "plain language" format in order to make them easier to read and understand.

The proposed rule will provide a public comment period, which would allow State agencies and other interested parties the forum to provide feedback and voice any concerns. All comments received during the specified comment period would be taken into consideration by FNS prior to publication of the rule in its final form. (05-001)

303. WIC FARMERS' MARKET NUTRITION PROGRAM (FMNP): IMPLEMENTATION OF THE FMNP PROVISIONS IN THE CN AND WIC REAUTHORIZATION ACT OF 2004 (PUB. L. 108-265) AND FMNP FUNDING FORMULA

Priority: Other Significant

Legal Authority: 42 USC 1786

CFR Citation: 7 CFR 248

Legal Deadline: None

Abstract: This proposed rule amends the FMNP regulations to implement the nondiscretionary FMNP provisions in Public Law 108-265, the Child Nutrition and WIC Reauthorization Act of 2004. The legislative provisions include: (1) An option for State agencies to authorize roadside stands without prior FNS approval; (2) revising the match requirement to apply the 30 percent to the administrative cost of the program instead of 30 percent of the total cost of the program (administrative and food costs); and (3) increasing the maximum Federal benefit level from \$20 to \$30.

Also included in this rulemaking will be a funding formula methodology for the FMNP when funds requested exceed available funds to allocate. The FMNP is a fixed grant program with limited funds. Funding increases are not guaranteed from year to year. Section 17(m) of the Child Nutrition Act of 1966, as amended, sets forth broad funding requirements for the FMNP. By law, after base grants are provided to current State agencies (i.e., total Federal funds received in the prior fiscal year), the remaining funds are divided so that 75 percent is provided for expansion funds for current State agencies and 25 percent is provided for new State agencies. Currently, beyond the division of funds noted above, there are no requirements for how to allocate funds for expansion and new State agencies when funds requested exceed the amount of available funds. This proposed regulation would amend 7 CFR part 248 to set forth a funding formula in cases where FMNP funds requested exceed available funds to allocate. The proposed methodology would provide a base funding level for each State agency. Funding above the base level would be based on the

individual State's need relative to all other State agencies' needs. (05-003)

Priority: Substantive, Nonsignificant

Legal Authority: PL 104-193

CFR Citation: 7 CFR 274.12(a)

Legal Deadline: None

Abstract: Food stamp benefits are now issued and redeemed electronically as of the completion of nationwide electronic benefit transfer (EBT) system implementation in June 2004. However, residual coupons from the old paper issuance system remain in circulation. This rule proposes to set an expiration date for all paper coupons. Such action is necessary because there is no longer an infrastructure for redeeming the coupons. Retailers are becoming

unfamiliar with coupons and how to process them, and some banks are refusing to redeem them because of the diminishing amount. Furthermore, despite decreased coupon redemptions, the FNS contract with the Federal Reserve Bank to redeem coupons deposited by retailers into financial institutions continues to cost FNS approximately \$3 million per year due to overhead costs.

In order to give clients ample opportunity to spend any remaining coupons they still have in their possession, we will propose to give clients 1 year from the final rule's publication date to spend their coupons. After 1 year, grocery stores will no longer be able to accept coupons. This timeframe is consistent with procedures for permanently expunging EBT food stamp accounts that have not been accessed for 1 year. (05-004)

USDA—FNS

Proposed Rule Stage

Abstract: This proposed rule would amend current regulations to require multi-State processors to sign National Master Processing Agreements (NMPA) with the Department to process donated foods into end products, as under a current demonstration project. Under NMPA, the Department would be responsible for the review and approval of end product data schedules and the management of the processor's performance bond to protect the value of donated food inventories. Processors would still be required to enter into State Participation Agreements (SPA) to sell end products in the State and to meet other State-specific processing options. The proposals would reduce the workload currently required of State agencies in approving end product data schedules and accounting for donated foods provided to processors. However, State agencies may continue to ensure that processing requirements are met under current agreement or contract options.

This proposed rule would also amend other processing requirements to reduce the paperwork burden and workload and to more fully integrate donated foods with commercial business practices. It would amend current

regulations to: (1) Allow processing agreements or contracts of up to 5 years duration, rather than the current 1 year, with an option for two 1-year extensions; (2) allow substitution of donated beef and pork with like commercial foods of U.S. origin and of equal or better quality; (3) reduce the frequency of submission of processors' performance reports to distributing agencies with which they have entered into SPA to quarterly, rather than monthly; (4) reduce the frequency of verification of end product sales through commercial distributors to annually, rather than semiannually; (5) reduce independent CPA audit requirements for multi-State processors by revising upward the donated food value thresholds that determine the required frequency of such audits; and (6) require in-State processors to obtain an independent CPA audit every 3 years, and remove the requirement that distributing agencies conduct an on-site review of such processors at least once every 2 years.

Lastly, we would use the rule to rewrite and reorganize processing regulations in a "plain language" format to make them easier to understand for the general public. (05-005)

Abstract: This rule makes revisions to food stamp regulations affecting the standards and administration of EBT systems for food stamp issuance. Current regulations at 7 CFR 274.12 delineate the standards that EBT systems must meet in order to be approved for operation. This rule revises those regulations to provide the State agency more flexibility in implementing and operating those systems. Clarifications and FNS settlement improvements are also incorporated into the rule. The rule

contains a provision to provide State agencies with a new option to allow retailers with commercial equipment to use a Store and Forward process instead of the manual voucher process when the system is down. This provision will go forward as an interim provision so that the Department can solicit additional comments. All the other provisions will go forward as final. (96-016)

Abstract: The William F. Goodling Child Nutrition Reauthorization Act of 1998 amended the Richard B. Russell National School Lunch Act to authorize reimbursement for snacks served under the NSLP in afterschool care programs operated by schools. The afterschool program must be organized primarily to provide care for children and have an educational or enrichment purpose. Additionally, the statute mandates free snacks for all children enrolled in afterschool care programs operated by

schools in areas served by a school in which at least 50 percent of the enrolled children are certified for free or reduced price meals. (98-007)

RIN: 0584-AC75**311. SPECIAL NUTRITION PROGRAMS: DISCLOSURE OF CHILDREN'S ELIGIBILITY INFORMATION UNDER THE CHILD NUTRITION PROGRAMS****Priority:** Other Significant**Legal Authority:** PL 106-224, sec 242; PL 103-448, sec 108**CFR Citation:** 7 CFR 215; 7 CFR 225; 7 CFR 226; 7 CFR 245**Legal Deadline:** Final, Statutory, October 20, 2000.

Abstract: This rule establishes requirements for the disclosure of children's free and reduced price meal and free milk eligibility information by agencies that make the free and reduced price meal or free milk determination under the National School Lunch Program, the School Breakfast Program, the Special Milk Program, the Child and Adult Care Food Program, and the Summer Food Service Program. The rule responds to amendments to the Richard B. Russell National School Lunch Act, which allow limited disclosure of children's free and reduced-price meal or free milk eligibility information, comments received on the July 25, 2000, proposed rule on "Disclosure of Children's Eligibility Information" (65 FR 45725 issued under RIN 0584-AC21), and comments received on the January 11, 2001, interim rule on "Disclosure of Children's Eligibility Information to State Medicaid and the State Children's Health Insurance Program" (66 FR 2195 issued under RIN 0584-AC95). This rule incorporates the proposed rule and interim rule into one final rule. Therefore, RIN 0584-AC21 was withdrawn, and the final provisions are issued under RIN 0584-AC95. The final rule adopts or modifies as necessary many of the provisions mandated by the statute and required by the interim rule. The objective is to provide consistency in procedures when determining agencies' option to disclose children's eligibility information and to provide some protection against unauthorized disclosures and misuse of personal information, regardless of whether the

disclosure is to Medicaid or SCHIP or to an education or other program. (00-004)

Abstract: Section 4108—This rule allows alternate methods for issuing food stamp benefits during disasters when reliance on electronic benefit transfer systems (EBT) is impracticable.

Section 4110—This rule eliminates the requirement that Federal costs for electronic benefit transfer systems cannot exceed the costs of the paper systems they replace.

Section 4113—This rule allows group homes and institutions to redeem EBT benefits directly through banks in areas where EBT has been implemented rather than going through authorized wholesalers or other retailers.

Section 4117—This rule allows the Secretary of Agriculture to use mailing methods other than certified mail when notifying retailers of the above mentioned adverse actions so long as the method provides evidence of delivery. (02-005)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 1752

CFR Citation: 7 CFR 210, 215, 220

Abstract: This rule updates the regulations for the National School Lunch Program, the Special Milk Program, and the School Breakfast Program regarding the use of federal funds for the provision of meals for school children. This rule prohibits school food authorities (SFA) from using funds in the non-profit school food service account for expenditures made under improperly procured contracts. The expected result is that regulatory language will ensure optimum utilization of funds in the non-profit school food service account. (03-001)

Priority: Substantive, Nonsignificant

Legal Authority: PL 108–265

Abstract: Currently, in order to receive the higher severe need School Breakfast Program reimbursements, schools must have served 40 percent + of their lunches free or at a reduced price in the second preceding year and must document their costs. They receive the lesser of their documented costs or the severe need rate.

In response to Public Law 108-265, which amended the Child Nutrition Act of 1966, 7 CFR 220, the School Breakfast Program's regulations will be revised to remove the requirement to document costs. This law was also revised to require that the Secretary determine how schools without a 2nd preceding year history may qualify for severe need reimbursements. (04-008)

321. DISTRICT-WIDE USE OF PROVISIONS 2 AND 3**Priority:** Substantive, Nonsignificant**Legal Authority:** PL 108–265**CFR Citation:** 7 CFR 245**Legal Deadline:** None

Abstract: Currently, schools may choose to use “Provision 2” or “Provision 3,” to reduce application burdens and simplify meal counting and claiming procedures. Provision 2 allows schools to establish claiming percentages and to serve all meals at no charge for a 4-year period. Provision 3 allows schools to simply receive the same level of Federal cash and commodity assistance each year, with some adjustments, for a 4-year period. Both provisions are used by schools with significant percentages of children eligible for free and reduced-price school meals. Schools serve all meals at no cost to the child but continue to be reimbursed at the rate determined in the year that the actual number of free and reduced price eligible children was determined.

In response to Public Law 108-265, which amended the Richard B. Russell National School Lunch Act, 7 CFR 245, Determining Eligibility for Free and Reduced Price Meals and Free Milk in Schools, will be revised to allow school districts to use “Provision 2” or “Provision 3” on a district-wide basis as well as on a school basis. Abstract: The regulations for determining eligibility for free and reduced price meals and free milk in schools will be revised to require that:

(1) Descriptive materials distributed to parents and guardians contain a notification that:

— Participants in the special supplemental nutrition program for women, infants, and children (the WIC program), the Food Stamp Program, the Food Distribution Program on Indian reservations, and State Temporary Assistance for Needy families (TANF) programs may be eligible for free or reduced-price school meals; and

— Documentation may be requested for verification of eligibility for free or reduced-price meals;

(2) Eligibility determinations for free or reduced-price school meals (other than cases where “direct certification” is used) are to be made on the basis of a complete application executed by an adult member of the household or in accordance with guidance issued by the Secretary. It will also stipulate that the household application must identify the names of each child in the household for whom free or reduced-price meal benefits are being requested and bars State agencies and local educational authorities from requesting separate applications for each child in cases where the children attend schools in the same local educational authority;

(3) Explicitly permits applications with electronic signatures if the application is submitted electronically and the application filing system meets confidentiality standards set by the Secretary; and

(4) Eligibility for free or reduced-price school meals remains valid for 1 year for most students. Eligibility would remain in effect beginning with approval for the current school year and ending on a date during the subsequent school year determined by the Secretary. An exception is included for cases where verification activities indicate ineligibility. (04-012)

Abstract: Public Law 108-265 amended the Richard B. This amendment was in response to procurement contracts that limited the types of products that schools could sell outside of the reimbursable meal programs. Abstract: Public Law 108-265 requires the Secretary to issue regulations that reflect specific recommendations for increased consumption of foods and food ingredients in school nutrition programs based on the most recent Dietary Guidelines for Americans.

The current regulations specify that reimbursable meals offered by schools meet the Dietary Guidelines for Americans that are specified in the regulations. This final rule would revise the current regulations on nutrition standards to require that participating schools meet the

applicable recommendations of the most recent Dietary Guidelines for Americans as specified in program guidance. This revision would permit USDA and schools to more promptly conform to any new recommendations in the nutrition standards. (04-017)

Legal Authority: PL 108-265

CFR Citation: 7 CFR 210; 7 CFR 245

Legal Deadline: None

Abstract: In response to Public Law 108-265, which amended the Richard B. Russell National School Lunch Act, the verification procedures in 7 CFR 245, Determining Eligibility for Free and Reduced Price Meals and Free Milk in Schools, will be revised to require that, starting July 2005:

1. Local Educational Authorities (LEAs) verify the eligibility of children in a sample of approved free and reduced-price school meal applications. The basic sample size would be the lesser of 3 percent of all approved applications (as of October 1 of the school year) selected from error-prone

USDA—FNS

Final Rule Stage

applications or 3,000 approved error-prone applications. Error-prone applications would be those defined as within \$100 a month or \$1200 annually of the applicable income limit or, alternately, under criteria set by USDA. However, local educational agencies could choose 1 of 2 alternate sample sizes (effectively the options established in current regulations) if:

- Their nonresponse rate for the preceding school year is less than 20 percent, or
- For a local educational agency with more than 20,000 children approved by application as eligible for free or reduced-price school meals as of October 1, their nonresponse rate for the preceding school year is improved by 10 percent from the nonresponse rate for the second preceding school year.

A nonresponse rate is the percentage of approved household applications for which verification information has not been obtained by a LEA. However, second-preceding-school-year nonresponse rates may not be available for all schools for the 2005-2006 school year. As a result, this rule would also provide that, for the 2005-2006 school year, large local educational agencies (20,000+ approved students) also could qualify to use 1 of the 2 alternate sample sizes (the options in current regulations) if they attempt to verify all approved household applications through the use of direct verification. When verifying eligibility for free or reduced-price school meals, local educational agencies can first use direct verification and obtain and use income and program participation information from public agencies administering certain programs. The programs are: The Food Stamp Program, the Food Distribution Program on Indian Reservations, State TANF programs, State Medicaid programs, or similar income-tested programs (or other sources of information). In cases in which there are not enough error-prone applications to comply with the options, local educational agencies would be required to randomly select additional applications to fulfill the percentage or number requirement.

2. Requires local educational agencies to complete all verification activities (including required “follow-up” activities) by November 15 of each school year; States may extend this deadline to December 15 under criteria

set by the Secretary. It will also require local educational agencies to make appropriate modifications to eligibility determinations based on their verification activities.

3. It also allows local educational agencies to “decline” to verify up to 5 percent of their verification sample and replace the declined applications with other approved applications.

4. Requires that the local educational agency provide written notice to households selected for verification. The notice must include a toll-free phone number that the household can call for assistance with the verification process. (04-019)

330. IMPLEMENTING PROVISIONS OF THE CHILD NUTRITION AND WIC REAUTHORIZATION ACT OF 2004: DISREGARD OF OVERPAYMENTS IN THE CHILD NUTRITION PROGRAMS

Priority: Other Significant

Legal Authority: PL 108-265

CFR Citation: 7 CFR 226

Legal Deadline: None

Abstract: This interim rule implements a provision of the Child Nutrition and WIC Reauthorization Act of 2004 (Pub. L. 108-265). It creates uniform regulations related to the disregard of overpayments made to a school or institution in the National School Lunch Program (NSLP), School Breakfast Program (SBP), or Child and Adult Care Food Program (CACFP). It allows the Department and State agencies, when conducting management evaluations, reviews, or audits in the NSLP, SBP, or CACFP, to disregard overpayments to a school or institution under certain conditions. However, no overpayment would be disregarded where there is substantial evidence of violations of criminal law or civil fraud statutes. (04-026)

331. IMPLEMENTING PROVISIONS FROM THE CHILD NUTRITION AND WIC REAUTHORIZATION ACT OF 2004: SEAMLESS SUMMER OPTION FOR SCHOOLS PARTICIPATING IN THE NATIONAL SCHOOL LUNCH PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: PL 108-265

CFR Citation: 7 CFR 210; 7 CFR 220

Legal Deadline: None

Abstract: Section 116 of the Child Nutrition and WIC Reauthorization Act of 2004 (Pub. L. 108-265) amended section 13(a) of the Richard B. Russell National School Lunch Act (NSLA) to authorize a Seamless Summer Option for public or private nonprofit school food authorities to participate in the National School Lunch Program (NSLP) and School Breakfast Program (SBP). The law stipulates that schools that participate under the Seamless Summer Option must be reimbursed for breakfasts served at the School Breakfast Program free rates and for lunches and snacks served at the National School Lunch Program free rates.

The Committee Report (108-279) accompanying the Child Nutrition and WIC Reauthorization Act of 2004 notes that the provision closely tracks the current Seamless Summer Feeding Waiver, which has been available to school sponsors nationwide since fiscal year 2002. This interim final rule will amend 7 CFR parts 210 and 220 to incorporate the Seamless Summer Option that will be available to public and private nonprofit school food authorities that participate in the NSLP and SBP. The Department also intends to incorporate into the NSLP and SBP regulations much of the policy that has been developed for schools that were approved by State agencies or FNS to operate the waiver. Priority: Other Significant

Legal Authority: 42 USC 1786

CFR Citation: 7 CFR 246

Legal Deadline: None

Abstract: This final rule implements the nondiscretionary WIC provisions in the Child Nutrition and WIC Reauthorization Act of 2004 (Pub. L. 108-265). It contains provisions that address the following aspects of WIC Program administration and operation:

1. Expansion of definitions of "nutrition education" and "supplemental foods"
2. Infant formula rebate contracts
 - Adds new definitions ("State alliance" and "primary contract infant formula")
 - Limits the size of State alliances — Requires State agencies to use primary

contract infant formula as the first choice of issuance

— Allows State agencies to round up to the next whole can of infant formula as part of the prescribed food package

— Requires uncoupling of bids for milk- and soy-based infant formula in certain rebate solicitations

— Requires that bid solicitations require manufacturers to make a cent-for-cent increase or decrease in rebate amounts to match changes in national wholesale prices occurring subsequent to the bid opening

— Requires a State agency to have a system to ensure that rebate invoices provide a reasonable estimate or actual count of the number of units sold in the program

3. Program eligibility

— Provides additional exceptions to the physical presence requirement

4. Food delivery systems

— Requires State agencies to allow participants to receive supplemental foods from any of the authorized stores under retail food delivery systems

— Requires the State plan to include a description of the State agency's procedures for accepting and processing vendor applications outside the established timeframes

— Prohibits a State agency from imposing the cost of electronic benefit transfer equipment, systems, or processing on retail vendors

5. Funding and financial management

— Increases State agency carry-forward authority for nutrition services and administration funds from 1 percent to 3 percent

— Allows State agencies to use funds recovered through local agency claims in the same way that it uses funds recovered from vendors and participants. (04-006)

Abstract: This rulemaking will continue an effort initiated several years ago by amending FSIS's regulations to expand the types of labeling that are generically approved. FSIS plans to propose that the submission of labeling for approval prior to use be limited to certain types of labeling, as specified in the regulations. In addition, FSIS plans to reorganize and amend the regulations by consolidating the nutrition labeling rules that currently are stated separately for meat and poultry products (in part 317, subpart B, and part 381, subpart Y, respectively) and by amending their provisions to set out clearly various circumstances under which these products are misbranded.

Priority: Substantive, Nonsignificant

Legal Authority: 21 USC 451 et seq

CFR Citation: 9 CFR 381.68

Abstract: FSIS is proposing to amend the Federal poultry products inspection regulations to provide that turkey slaughter establishments that open turkey carcasses with Bar-type cuts may operate at the maximum line speeds established for J-type cuts, if the establishment uses the specific type of shackle described in this proposed rule. Under this proposed rule, as under current regulations, the inspector in charge will reduce line speeds when, in his or her judgment, the prescribed inspection procedure cannot be adequately performed within the time available because of the health conditions of a particular flock or because of other factors. Such factors include the manner in which birds are being presented to the inspector for inspection and the level of contamination among the birds on the line.

358. CLASSES OF POULTRY UPDATING POULTRY CLASS STANDARDS

Priority: Other Significant

Legal Authority: 21 USC 451

CFR Citation: 9 CFR 381.170(a)

Legal Deadline: None

Abstract: FSIS is proposing to amend the official U.S. classes of poultry so that they more accurately and clearly describe the characteristics of poultry in the market today. Poultry classes are defined primarily in terms of age and sex of the bird. Genetic improvements and new poultry management techniques have reduced the grow-out period for some poultry classes while extensive cross breeding has produced poultry with higher meat yields but blurred breed distinctions. This action is being taken to ensure that poultry products are labeled in a truthful and non-misleading manner. The rule will update existing regulations to reflect current poultry characteristics and production practices. Therefore, the impact on the poultry industry is expected to be minimal.

Legal Authority: 21 USC 601 to 695

CFR Citation: 9 CFR 301.2; 9 CFR 318.24 (Revision); 9 CFR 320.1

Legal Deadline: None

Abstract: On January 12, 2004, the Food Safety and Inspection Service (FSIS) issued an interim final rule to amend the Federal meat inspection regulations. The rule is designed, in part, to prevent human exposure to the Bovine Spongiform Encephalopathy (BSE) agent by ensuring that Advanced Meat/Bone Separation Machinery and Meat Recovery (AMR) systems are not a means of introducing central nervous system (CNS)-type tissue into product labeled as "meat." Meat may be derived by mechanically separating skeletal muscle tissue from the bones of livestock, other than skulls or vertebral column bones of cattle 30 months of age and older, using advances in mechanical meat/bone separation machinery; i.e., AMR systems. The recovered meat product may not incorporate any brain, trigeminal ganglia, spinal cord, or dorsal root ganglia tissues. In addition, there must be no more than a non-significant incorporation of bone solids or bone marrow as measured by the presence of calcium and iron in excess of the requirements in the interim final rule. This rule also requires that federally inspected establishments that process cattle develop, implement, and maintain written procedures for the removal, segregation, and disposition of specified risk materials (SRMs), including non-complying products from beef AMR systems. These procedures are required to be incorporated into an establishment's HACCP plan, Sanitation Standard Operation Procedures, or other prerequisite program. FSIS took

Abstract: The Food Safety and Inspection Service (FSIS) is amending the Federal meat inspection regulations to prohibit the use of penetrative captive bolt stunning devices that deliberately inject air into the cranial cavity of cattle. Abstract: FSIS is proposing to amend its regulations to change the required frequency of foreign inspection system supervisory visits to certified foreign establishments so as to bring FSIS import requirements into agreement with its requirements for domestic establishments. FSIS is proposing to delete the current requirement that supervisory visits take place "not less frequent[ly] than one such visit per month." In its place, FSIS is proposing to require foreign inspection systems to make "periodic supervisory visits" to certified establishments in order to ensure that such establishments continue to meet FSIS requirements for certification to export meat and poultry to the United States.

Abstract: This regulation governs the importation of world price sugar and its subsequent use as a refined reexport, product ingredient, or input into the production of polyhydric alcohols. The proposed amendments and/or modifications are principally aimed at reorganizing and simplifying the complexity of the current regulation; clarifying certain definitions, including the coverage of beet and cane sugar; extending the scope of the regulation to specially include toll operations,

which was inadvertently omitted; and implementing Mexico-NAFTA legal commitments. The proposed action will provide for increased operational efficiencies and promote the Government's objectives regarding regulatory simplification.

Abstract: This proposed rule sets forth the Forest Service role and procedures in the conveyance of Indian allotments on National Forest System (NFS) lands. The Indian Allotment Act of 1910, as amended, authorizes the Secretary of the Interior to make allotments of NFS

lands to American Indians for homesteading and agricultural and grazing purposes, but only after a determination by the Secretary of Agriculture that the lands are more valuable for agriculture or grazing than for timber. The Forest Service has relied upon U.S. Department of the Interior rules and procedures at 43 CFR

USDA—FS

Proposed Rule Stage

part 2533 to govern its involvement in Indian allotment cases. Litigation and a decision by the Interior Board of Land Appeals require the Forest Service to set forth its own regulations. This proposed rule clarifies the role of the Forest Service in the allotment process. It preserves the rights of affected individual American Indians who wish to apply for allotments on NFS lands. An earlier version of this proposed rule was published in the Federal Register on June 22, 1987 (52 FR 23473). Very few comments were received on the 1987 proposed rule, and this revision of the proposed rule makes only limited changes needed to update the rule due to the passage of 18 years since publication of the first version of the proposed rule. Because of the amount of time that has elapsed since the earlier version of the proposed rule was published, the Agency believes that it is in the public interest to publish a revised proposed rule and request comment prior to adopting a final rule.

Abstract: This proposed rule would amend 36 CFR 223.200 to list species proposed to be surplus to domestic manufacturing needs. This proposed rule would implement a portion of section 620a(b) of the Forest Resources

Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620 et seq.). Section 620a(a) of the Act provides that no person who acquires unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States may export such timber from the United States, or sell, trade, exchange, or otherwise convey such timber from the United States, unless such timber has been determined under subsection (b) to be surplus to the needs of timber manufacturing facilities in the United States. Section 620a(b) of the Act provides that the prohibition contained in subsection (a) shall not apply to specific quantities of grades and species of unprocessed timber originating in Federal lands which the Secretary determines, through rulemaking, to be surplus to domestic manufacturing needs.

Abstract: The Forest Service is publishing a proposed rule to revise the process by which certain parties can appeal decisions relating to authorizations for use and occupancy of National Forest System lands and resources. This proposed rule would create a new part 214 to replace

regulations at 36 CFR part 251, subpart C. The Forest Service has a continuing commitment to review its regulations periodically, to identify specific problems in administering them, and to determine whether they meet agency and public needs. Experience with the procedures at 36 CFR part 251, subpart C, has shown that certain provisions in the rule consistently raise questions. Thus, the agency has identified a need to amend the procedures at 36 CFR part 251, subpart C, to correct and clarify aspects of the part 251 appeals process and its relationship to the amended appeal rule at 36 CFR part 215. Among specific changes being proposed are acknowledgement that this is the appropriate part for appeal of decisions related to locatable mining operations; making terminology consistent with part 215; establishing timeframes for intervening, scheduling oral presentations or requesting stays; clarifying that decisions to deny permits for noncommercial group use are not subject to appeal, but rather are immediately subject to judicial review; and making conforming technical revisions to 36 CFR parts 212, 215, 228, 241, 251, 254, and 292.

Abstract: On February 16, 1994 (59 FR 7880), the Forest Service published a proposed rule for 36 CFR part 261,

USDA—FS

Proposed Rule Stage

Prohibitions, and part 262, Law Enforcement Support Activities. Due to the high level of interest in and comment on part 261, the decision was made to publish second proposed rules separately for each part.

The Forest Service is proceeding with publication of a second proposed rule for part 262, Law Enforcement Support Activities. The proposed revisions to part 262 are narrow in scope and are meant to clarify specific administrative provisions. In particular, they address the limitations and conditions for paying rewards in connection to fire or property prosecution; clarify the rules regarding the purchase of information or evidence in furtherance of investigations; and clarify certain actions and regulations regarding the impoundment, removal, and disposition of animals and personal property from National Forest System lands. The proposed rule also responds to comments concerning part 262 that were received in response to the proposed rule published in 1994. The majority of those comments referred to how the rule defines certain terms. To address those comments in this second proposed rule, the agency proposes to add a new section for definitions.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 472(a)

CFR Citation: 36 CFR 223.85

Legal Deadline: None

Abstract: This proposed rule would revise 36 CFR 223.85 by changing the reference to 16 U.S.C. 472(d) to 16 U.S.C. 472a(d). This proposed rule would revise the existing regulations regarding noncompetitive sale of timber based on the Secretary of Agriculture's determination that "extraordinary conditions" exist to apply to sales agency wide. This proposed rule would add paragraph (c), which further defines extraordinary conditions to allow forest officers, without advertisement, to make modifications to awarded timber and forest product sales, which result in the substitution of timber or forest products from outside the sale area specified in the contract. This would be applied to situations where replacement timber from outside the sale area could be substituted for timber lost as a result of litigation or catastrophic events. Substitute timber or forest products must be from the same National Environmental Policy Act (NEPA) analysis area, and meet agency requirements for compliance with the NEPA, the National Forest Management Act, and notice, comment, and appeal procedures at 36 CFR part 215. This proposed rule would authorize the Forest Service to propose timber sale modifications and to enter into discussions with purchasers on such modifications. But, timber purchasers would not be obligated to accept any proposed modifications.

To the extent that timber sale cancellations and partial cancellations are avoided, the effect of this proposed rule would be to reduce future damage claims on timber sales.

Abstract: This revision follows recommended changes developed by the Government Accountability Office and Office of Inspector General audits and recommendations in the National Research Council's 1999 report titled "Hardrock Mining on Federal Lands." The proposed rule would improve the administration of the locatable minerals program. The proposed rule's objectives are to improve the process for modifying, suspending, and terminating plans of operation; improve the process of reviewing and adjusting reclamation bonds to cover the full cost of reclamation; improve the process of managing temporary closures; define proper occupancy and use; and improve noncompliance and enforcement actions. This proposed rule revision will increase the efficiency of locatable minerals administration and protect the public from funding mine reclamation.

378. GRAZING PERMIT ADMINISTRATION (INTERIM DIRECTIVES, FOREST SERVICE HANDBOOK 2209.13, CHAPTERS 10 AND 20)

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 5801

CFR Citation: None

Legal Deadline: None

Abstract: Updated national direction is needed to ensure the agency is both current and consistent in working with grazing permittees in all Forest Service Regions. The Forest Service issued amendments to certain chapters and

sections of Forest Service Manual (FSM) title 2200, Rangeland Management, and to all chapters of Forest Service Handbook (FSH) 2209.13, Grazing Permit Administration. The last substantive amendments to both FSM 2200 and FSH 2209.13 were made in 1985. Clarifications and adjustments in policy are necessary to respond to changing needs of both the Forest Service and the livestock industry and to make the Agency's policy current with legislation, court decisions, and agency management. The Forest Service has determined that two chapters in FSH 2209.13 require public notice and comment: Chapter 10, Permits With Term Status, and chapter 20, Grazing Agreements. Both chapters contain substantive changes to agency operating procedures that affect how the Forest Service does business with permittees, grazing associations, and applicants for livestock grazing authorizations.

379. CLIMBING BOLTS IN WILDERNESS (PROPOSED INTERIM DIRECTIVE, FOREST SERVICE MANUAL, CHAPTER 2320)

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1131 to 1136

CFR Citation: None

Legal Deadline: None

Abstract: The Forest Service is publishing a proposed interim directive to Forest Service Manual 2320 to establish policy regarding the use and placement of climbing bolts (fixed anchors) for rock climbing in wilderness. The need for managing the use of climbing bolts in wilderness arose in the late 1980s with disputes over their use in the Superstition Wilderness in Arizona. Since that time, a number of efforts have been initiated to resolve the issue, but have all failed. This includes the establishment of the Fixed Anchors in Wilderness Negotiated Rulemaking Committee in 1999, to develop and recommend a policy to the Secretary of Agriculture. The Negotiated Rulemaking Committee could not reach unanimous consensus on a proposed policy, and was therefore terminated. Representatives of the climbing community have been in frequent contact with the Forest Service since the committee was terminated requesting resolution of the issue.

This proposed interim directive would assure consistent treatment of the use and placement of climbing bolts in wilderness throughout the National Forest System. It would establish policy to address where the use and placement of fixed anchors is appropriate for recreational purposes and emergency needs, and limitations on associated equipment.

CFR Citation: None

Abstract: The Forest Service is publishing a proposed directive to amend Forest Service Manual 2721.49 regarding the basis of determining fees for recreation events. Currently, fees are based on a percentage of gross revenues. The proposed fee system would establish a fee based on the number of people involved in the event. This modification in the fee system would result in fees similar to the Bureau of Land Management for this type of use. Additionally, the modification would reduce the administrative workload, for both holders and the Government, associated with the auditing of records for permits that generate less than \$100,000 in revenue.

Abstract: The Forest Service is publishing a proposed directive to amend certain portions of agency direction for outfitter/guide special use authorizations. This action is being taken to ensure quality long-term public service and reduce administrative burden to small business and the Agency. The proposed directive would revise a number of existing

provisions and provide new direction. For example, the current fee system would change from one based on a percentage of gross revenue to a flat rate concession fee for minor uses; guidance for considering capacity analysis would be developed, and the transfer and renewal of existing authorizations and the accommodation of short term use would be clarified.

382. SECRETARY DETERMINATION THAT DOMESTIC SPECIES OF UNPROCESSED TIMBER ARE SURPLUS TO DOMESTIC NEEDS WITHIN THE ZONE OF SOUTHERN CALIFORNIA

Priority: Other Significant

Legal Authority: 16 USC 620

CFR Citation: 36 CFR 223.200(d)

Legal Deadline: None

Abstract: The Forest Service is proposing to amend 36 CFR 223.200 to add a new paragraph (d) to address the Secretary of Agriculture's proposed determination that domestic species of unprocessed timber within the zone of southern California are being considered surplus to domestic needs. Section 439 of Public Law 101-382, the Forest Resources Conservation and Shortage Relief Act (16 U.S.C. 620 note, 620, 620a-j) established special authorities for determining if specific quantities of grades and species of unprocessed timber originating from Federal lands is surplus to domestic manufacturing needs.

Extended drought conditions, overstocking, and increased bark beetle activities have created a forest health

and fuels management crisis on national forests in southern California. The San Bernardino National Forest, the most heavily impacted national forest, has identified over 100,000 acres of dead and dying timber for priority treatment, with an estimated 140 million board feet of salvage volume. As of September 2003, over 474,000 acres of the gross acreage within the forest boundary is showing significant vegetative mortality. Processing infrastructure such as loggers, log truckers, or mills do not exist in the area. Most of this timber volume is economically inaccessible to the domestic timber market.

The Secretary's proposed determination that domestic species of unprocessed timber is surplus to domestic needs would allow the lifting of export restrictions so unprocessed timber could be offered on the foreign market. This action would increase utilization of dead and dying timber, increase capability to reduce hazardous fuels, and decrease government costs.

Abstract: The Forest Service promulgated a final rule on June 4, 2003 (68 FR 33595), at 36 CFR part 215, revising the process by which the

USDA—FS

public can receive notice and be provided an opportunity to comment on proposed actions for projects and activities implementing a land management plan prior to a decision by the Responsible Official. The rule also established an appeal process and identified the decisions that may be appealed, who may appeal those decisions, the responsibilities of the participants in an appeal, and the procedures that apply for the prompt disposition of the appeal.

Since publishing the current rule at 36 CFR part 215, the Forest Service has identified inconsistencies between sections of this regulation, sections that are inconsistent with other regulations, and some inadvertent omissions. Therefore, the Forest Service is proposing a technical amendment to the rule to resolve inconsistencies and clarify intent.

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 551

CFR Citation: 36 CFR 261.1; 36 CFR 261.2; 36 CFR 261.5

Abstract: The Forest Service intends to amend 36 CFR 261.1, 261.2, and 261.5 to clarify that strict liability will be applied to a person who commits a prohibited action under section 261 that results in a fire escaping and damaging or threatening National Forest System lands. This section has

not been interpreted consistently in the courts. Amending the CFR to align with the Model Penal Code definitions of criminal intent will achieve consistency in application and interpretation.

In addition, the CFR will be amended to clarify that a person conducting a legitimate prescribed fire on private or public lands adjacent to National Forest System Lands will be subject to the Model Penal Code standard of negligence. This will bring the law enforcement action in line with the objectives and goals of the National Fire Plan and the Healthy Forest Initiative by assuring those who conduct those activities with due diligence will not be subject to a strict liability interpretation in 36 CFR 261.5.

386. NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) DOCUMENTATION FOR SPORICIDE USE ON NATIONAL FOREST SYSTEM LANDS (PROPOSED DIRECTIVE, FOREST SERVICE HANDBOOK 1909.15, CHAPTER 30)

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 4321 to 4346

CFR Citation: None

Legal Deadline: None

Abstract: The Forest Service is considering development of a new Categorical Exclusion (CE) to Forest Service Handbook (FSH) 1909.15, Environmental Policy and Procedures Handbook, chapter 30, which addresses categories of action that normally do not require either an environmental impact statement (EIS) or environmental assessment (EA). The new category would be applicable to the use of fungicide on recently cut trees through thinning or other tree cutting activity in conjunction with the Healthy Forest Initiative categorical exclusions (and possibly other situations). Coordination with other governmental agencies will be conducted during development of the aforementioned CE.

The Healthy Forest Initiatives (HFI) Categorical Exclusion 31.2(10) states 'Hazardous fuels reduction activities ... (d) shall not include the use of herbicide or pesticides. ...' It has come to our attention that a frequently connected action of thinning for fuels reduction is the use of sporax or borax fungicide to maintain stand health. Such fungicides, although commonly used in forestry and elsewhere, are technically classified as a pesticide and as such are not allowed under 31.2(10). This incongruity has had the following

USDA—FS

Proposed Rule Stage

effect: (a) Some units may be alternatively using timber sale improvement category 31.2(6) or other categories, because they do not preclude the use of fungicides. This results in an underreporting of HFI accomplishments, and given the scope of the other categories, it is likely that fewer acres are being treated; (b) Although not confirmed, some units may not be treating the harvested stands to protect against fungal agents which could put stands at risk; and (c) Some units may be alternatively using environmental assessments. This results in increased planning costs and time and underreporting of HFI accomplishments.

387. PISCICIDE APPLICATIONS ON NATIONAL FOREST SYSTEM LANDS

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: 36 CFR 241; 36 CFR 251.50(a); 36 CFR 261.9(f)

Legal Deadline: None

Abstract: State Fish and Game agencies typically use piscicides as a tool for managing fish populations in water bodies of the U.S. At times, these State agencies apply piscicides when they conduct fisheries management on water within the National Forest Systems lands. Current regulations at 36 CFR 251.5 and 261.9(f), require permits for all land uses and prohibit the use of any pesticide on National Forest System lands “. . . except for personal use as an insect repellent or as provided by special-use authorization for other minor uses.” The wording in these regulations has led to confusion

and inconsistent application of Forest Service piscicide policy that has delayed restoration projects and strained working relationships with State cooperators.

Therefore, the Forest Service is proposing that the regulations at 36 CFR part 241 (Fish and Wildlife), 36 CFR part 251, subpart B, (Special Uses, 251.50(a)), and 36 CFR part 261, subpart A (General Prohibitions, 36 CFR 261.9(f)) be modified to allow State Game and Fish agencies to apply piscicides without first having to obtain a special use authorization, under certain conditions. A special use authorization would still be required for piscicide application within wilderness areas. The regulation could help eliminate redundancy with other State and Federal laws and regulations and improve the implementation of restoration and management projects.

Eliminating the Forest Service special use authorization requirement for this use is not expected to change the frequency of piscicide applications on National Forest System lands or change how piscicides are used. States are required to comply with other Federal laws when applying piscicides, such as the Federal Water Pollution Control Act and the Endangered Species Act.

Priority: Other Significant

Legal Authority: 42 USC 4321 to 4346

CFR Citation: None

Legal Deadline: None

Abstract: The Forest Service proposes to add a new categorical exclusion to Forest Service Handbook (FSH) 1909.15, Environmental Policy and Procedures Handbook, chapter 30, which addresses categories of actions that normally do not require either an environmental impact statement (EIS) or environmental assessment (EA). The new category will be applicable to the issuance of Surface Use Plans of Operation for exploration or development of an oil and gas lease.

Executive Order 13212 states that “For energy-related projects, agencies shall expedite their review of permits or take other actions as necessary to accelerate the completion of such projects, while maintaining safety, public health, and environmental protections. The agencies shall take such actions to the extent permitted by law and regulation, and where appropriate.”

The National Energy Policy and the Forest Service Energy Implementation plan call for streamlining of processing Applications for Permit to Drill (APDs) and other energy related permits in an environmentally sound manner.

Comments received on the proposed categorical exclusion will be used in development of the final direction in FSH 1909.15, chapter 30. In accordance with Council on Environmental Quality regulations, the Forest Service must give prior notice and opportunity for comment by publishing the proposed categorical exclusion in the Federal Register before the agency adopts final direction.

Priority: Substantive, Nonsignificant

Abstract: The Forest Service is proposing to amend the regulations at 36 CFR 261.10 to clarify when a criminal citation should be used for unauthorized mining operations. This revision is necessary to address recent adverse District Court decisions which have found that sections 261.10(b) and (k) do not apply to the enforcement of unauthorized mining operations. These sections deal with taking possession of, occupying, or using National Forest System lands for residential purposes, and the use or occupancy of the lands or facilities, respectively. Adding appropriate language would make it clear that these sections do apply to mineral operations.

In addition, in the definitions section where operating plan is defined, references to other mineral-related regulations will be added to indicate that 36 CFR 261.10 applies to them as well.

Abstract: The Forest Service is publishing a proposed agency interim directive (ID) to Forest Service Manual 2343.03 regarding (1) advertising in concessions involving privately developed facilities operated under special use authorization on National Forest System (NFS) lands and (2) sponsorship of new public services associated with those concessions. With respect to advertising, the current policy addresses only exterior advertising while the proposed policy would add direction to allow the permit holder to advertise inside buildings and other interior spaces owned by the holder. With respect to sponsorship, the proposed policy would add new direction on sponsorships that promote public participation in the management of NFS lands. The proposed ID describes the duration, location, and content of recognition of sponsors. Additionally, the proposed ID addresses special events and would waive a prohibition on exterior advertising during a short-term event and would require the holder to not display the Forest Service shield or other agency symbol in conjunction with product names, services, and advertising.

Abstract: The Forest Service is issuing a final rule to revise current regulations regarding cancellation of timber sale contracts, permits, and other such instruments authorizing the sale or harvest of timber or other forest products. This rule is needed to clarify when, why, and by whom contracts may be cancelled to remove redundant provisions and to provide a new formula for compensation when the Government must cancel timber sale contracts. The Forest Service takes every precaution before authorizing a particular activity on National Forest System lands to ensure that its authorization conforms with existing laws and with existing conditions on the ground at the time of the authorization. The current regulations place an inappropriate amount of financial liability on the Forest Service when the agency must, for reasons of public policy, judicial decision, or statutory direction, cancel a timber sale contract or permit. The regulatory changes are necessary because the Forest Service is unable to continue bearing the majority of the financial risk and burden of contract cancellations. This rule would more reasonably allocate the risk between the Government and private parties. Establishing these reasonable limits to the Government's exposure to financial liability and burden of risk in the event of contractual changes or contract cancellations is critical to protecting the public's financial interests.

Priority: Other Significant

Legal Authority: 43 USC 1764; 30 USC 181

CFR Citation: 36 CFR 251

Abstract: This final rule, as authorized by the Mineral Leasing Act, the Federal Land Policy and Management Act, and other statutes, would provide for recovering costs associated with processing applications for special use authorizations to use and occupy National Forest System (NFS) lands and with monitoring compliance with these special use authorizations. The action is needed to provide timely reviews and evaluations of special use applications; to ensure that forest resources are adequately protected; and to ensure that holders comply with the terms and conditions of their authorization. Promulgation of this rule would comply with requirements of OMB Circular A-25, section 7, which directs that user charges be instituted through promulgation of agency regulations implementing the authority for Federal agencies to recover costs under the Independent Officers Appropriations Act (IOAA). The rule would also respond to recommendations in GAO reports RCED-96-84 (April 1996) and RCED 97-16 (December 1996) that the Forest Service (1) operate its special uses program in a more cost-efficient and businesslike manner and (2) promulgate regulations allowing the Agency to exercise existing authority to recover from applicants and holders the Agency's costs to process special-use applications and monitor compliance with those authorizations. This rule would also make Forest Service procedures and fees related to cost recovery consistent with the Bureau of

Land Management's (BLM) rules at 43 CFR parts 2800, 2880, and 2930.

Additional Information: Cost reimbursement for processing special use applications and administration of special use authorizations was originally included under RIN 0596-AA36. All provisions pertaining to the special use application and administration process were merged into the final rule published November 30, 1998 (63 FR 65950, RIN 0596-AB35). Thus, this rulemaking addresses only the cost-reimbursement provisions.

395. SPECIAL FOREST PRODUCTS AND FOREST BOTANICAL PRODUCTS

Priority: Substantive, Nonsignificant

Legal Authority: PL 106-113

CFR Citation: 36 CFR 223

Legal Deadline: None

Abstract: The Forest Service is promulgating regulations for managing special forest products and forest botanical products. The regulations will guide the Forest Service in the administration of the broader category of special forest products. The interim final rule also implements Public Law 106-113, which authorizes a pilot program of charges and fees for harvest

of forest botanical products. Forest botanical products include products such as herbs, berries, seeds, and wildflowers that are not wood products. The intended effect of this rule is to give guidance and provide consistency for the sustainability and sale of special forest products including forest botanical products.

396. DETERMINING FAIR MARKET VALUE FOR RECREATION RESIDENCE USE AUTHORIZATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 497; PL 106-291, title VI

CFR Citation: 36 CFR 251

Legal Deadline: None

Abstract: The Appropriations Act for the Department of the Interior and Related Agencies for Fiscal Year 2001 (Pub. L. 106-291) contains provisions in title VI "Cabin User Fee Fairness Act of 2000" to ensure consistent and fair processes for appraising the fee simple value of recreation residence lots on National Forest System (NFS) lands. The Forest Service is adopting final regulations at 36 CFR part 251, subpart B, and final policy in the Forest Service Manual (FSM) 2347 and FSM 2721, and Forest Service Handbook (FSH) 2709.11, section 33, and FSH 5409.12, chapter 6, that would provide the regulatory framework and Agency management direction necessary to implement the provisions of the act. The proposed policies and proposed rule were published on May 13, 2003 (68 FR 25748), with a 60-day comment period ending August 11, 2003. The proposed rule and proposed policy

included provisions for establishing a base annual fee and a new appraisal cycle, conducting inventories of recreation residence lots, and setting out appeal and judicial review processes and appraisal guidelines for appraising the fee simple value of recreation residence lots.

Approximately 950 comments were received, the majority of which were submitted by permit holders or organized associations of permit holders. The comments are being analyzed and will be considered in development of the final rule and policy.

Priority: Other Significant

Legal Authority: 16 USC et seq; 5 USC 301

CFR Citation: 36 CFR 219, subpart A

Legal Deadline: None

Abstract: The Forest Service requested comment on a proposed revision to its procedures for implementing the National Environmental Policy Act (NEPA) and Council on Environmental Quality (CEQ) regulations. This revision is being proposed at Forest Service Handbook 1909.15, chapter 30, which describes categorical exclusions, that is, categories of actions that will not result in significant impacts on the human environment and which are therefore exempt from requirements to prepare

further NEPA documentation absent extraordinary circumstances. The proposal would add one such category of actions to the agency's NEPA procedures for final approvals on proposals to develop, amend, or revise land management plans that are comprised of five components which are desired conditions, objectives, guidelines, suitability of areas, and special areas for a forest. This proposal was published in conjunction with the final Forest Service planning regulations published January 5, 2005.

Abstract: The Architectural Barriers Act of 1968, section 504 of the Rehabilitation Act of 1973, and 7 CFR part 15e require that new or reconstructed facilities be accessible. The Forest Service Trails Accessibility Guidelines in this proposed policy amending Forest Service Manual (FSM) 2350, Trail, River, and Similar Recreation Opportunities, would establish clear agency guidelines to provide the highest level of

accessibility to pedestrian/hiker trails for the greatest number of people, including persons with disabilities, while not fundamentally altering the environment and recreational setting. The proposed policy also would incorporate the definition of a wheelchair and clarify direction that a mobility device that meets that definition of a wheelchair may be used anywhere foot travel is permitted. Abstract: The Architectural Barriers Act of 1968, section 504 of the Rehabilitation Act of 1973, and 7 CFR part 15e require that new or reconstructed facilities be accessible. The proposed Forest Service Outdoor Recreation Accessibility Guidelines would amend Forest Service Manual (FSM) chapter 2330, Publicly Managed Recreation Opportunities, by establishing clear agency guidelines to provide the highest level of accessibility for the greatest number of people, including persons with disabilities, while not fundamentally

altering the environment and recreational setting. Outdoor recreation facilities include campgrounds, picnic areas, beach access and other access routes, and so on. The proposed policy also would clarify direction regarding existing requirements for the Golden Access Passport eligibility and documentation utilized by all Federal agencies under the 1980 amendment to the Land and Water Conservation Fund Act. Abstract: The Farm Security and Rural Investment Act of 2002 directs the Secretary of Agriculture to establish a Community and Private Land Fire Assistance Program to be administered by the Forest Service and implemented through the State Foresters. The Forest Service is issuing an interim rule to provide for the implementation and administration of the program, which would allow the following activities on both Federal and non-Federal lands: Fuel hazard mitigation and prevention, invasive species management, multi-resource wildfire planning, community protection planning, community and landowner education, market

development and expansion, improved wood utilization, and special restoration projects.

402. DELEGATION OF AUTHORITY TO APPROVE FREE USE BY INDIVIDUALS

Priority: Info./Admin./Other

Legal Authority: 16 USC 472a

CFR Citation: 36 CFR 223.8

Legal Deadline: None

Abstract: The Forest Service is developing an interim final rule to revise the current regulations at 36 CFR 223.8 to increase the value of timber and special forest products on National Forest System lands made available for free use. The current regulation, which has not been updated for over 30 years, provides for free use of timber up to \$20 in value in any one fiscal year. Forest Supervisors may grant permits of material not exceeding \$100 in value. Regional Foresters may approve permits for larger amounts and, in times of emergency, may delegate authority to Forest Supervisors for up to \$500 in value. Prior approval is required by the Chief if the amount exceeds \$5,000 in value. The market value of timber and special forest products has increased, however, and therefore, the regulation needs to be updated to reflect current values. This increase will authorize Forest Supervisors and Regional Foresters to provide free use of timber and special forest products up to \$5,000 and \$10,000 in value respectively.

The interim final rule will be published in the Federal Register with request for public comment. Comments received will be considered in the development of the final rule.

Priority: Other Significant

Legal Authority: 16 USC 551; 23 USC 205

CFR Citation: 36 CFR 212, 251, 261, and 295

Legal Deadline: None

Abstract: The Forest Service will be publishing a final rule amending 36 CFR part 212 by establishing three subparts. Subpart A will be established for Administration of the Forest Transportation System; subpart B will be established for Designation of Roads, Trails, and Areas for Motor Vehicle Use; subpart C will be for use by over-snow vehicles; 36 CFR part 295 will be incorporated into 36 CFR part 212, subpart B. The final rule will also clarify definitions and direction, and improve consistency in management of motor vehicles on National Forest System lands in an effort to blend broad agency policy with local decisionmaking. These changes ensure that collaborative efforts at the local level are integrated into decisionmaking.

Additionally, the final rule amends 36 CFR part 261 and 36 CFR part 251 to update language in current usage consistent with the changes to 36 CFR part 295 and 36 CFR part 212, and to add prohibitions not currently covered in existing regulations that would clarify the management and use of motor vehicles on National Forest System lands.

Abstract: The Forest Service promulgated an interim final rule on January 9, 2004 (69 FR 1529), at 36 CFR part 218, to establish a predecisional administrative review process whereby persons can seek administrative review and file objections for hazardous fuel reduction projects authorized under the Healthy Forests Restoration Act of 2003 (HFRA). Abstract: The Forest Service is adopting a final rule at part 223, subpart B, of title 36, Code of Federal Regulations, section 223.112. This final rule authorizes timber sale contracting officers to modify contracts to provide a redetermination of stumpage rates and deposits to reflect significant timber market declines. This rule applies to existing timber sale contracts awarded after October 1, 1995, that have been suspended for more than 90 days, during the normal operating season because of administrative appeals or litigation, through no fault of the timber purchaser.

This final rule provides relief for purchasers in this situation by enabling them to obtain stumpage rate redeterminations to continue existing contracts after the suspension has been lifted to ensure the economic viability of the sale.

406. ONSHORE OIL AND GAS OPERATIONS; FEDERAL AND INDIAN OIL AND GAS LEASES; ONSHORE OIL AND GAS ORDER NUMBER 1, APPROVAL OF OPERATIONS

Priority: Substantive, Nonsignificant
Legal Authority: 30 USC 223 et seq
CFR Citation: 36 CFR 228
Legal Deadline: None

Abstract: Through a joint Federal Register publication, the Bureau of Land Management (BLM), acting as lead agency, and the Forest Service are proposing to revise the current 1983 Onshore Oil and Gas Order Number 1 (Order). The new proposed Order is being jointly published by the Forest Service and the BLM to facilitate common conservation practices and procedures across agency boundaries.

The Order provides the requirements necessary for the approval of all proposed oil and gas exploratory, development, or service wells on all Federal and Indian (except Osage Tribe) onshore oil and gas leases. The revision is necessary due to provisions of the 1987 Federal Onshore Oil and Gas Leasing Reform Act, legal opinions, court cases since the Order was issued in 1983, and other policy and procedural changes. The revised Order would address the submittal of a complete Application for Permit to Drill or Deepen package, including a Drilling Plan, Surface Use Plan or Operations, evidence of bond coverage, operator certification, and clarification as to when a BLM right-of-way grant or Forest Service special use permit are needed to authorize secondary uses supporting the oil and gas operation.

The proposed rule changes to 36 CFR part 228 would include: (1) Removal of a specific reference to the 1983 Order to a reference that plans of operations or master development plans be submitted "in accordance with the current applicable Onshore Oil and Gas Order," (2) removal of the appendix (text of 1983 Order), and (3) removal of a non-existent cross-reference to appeal procedures at 36 CFR part 217 and replacing that reference with "the current applicable agency appeal procedures."

The proposed rule provides for a 60-day notice and comment period.

Comments received on the proposed rule will be considered in the development of a final rule.

407. INTEGRATED RESOURCE CONTRACTS, FS-2400-13 AND FS-2400-13T (NOTICE OF FINAL CONTRACTS)

Priority: Substantive, Nonsignificant

Legal Authority: PL 108-7

CFR Citation: None

Legal Deadline: None

Abstract: Section 323 of Public Law 108-7, the Consolidated Appropriations Resolution (16 U.S.C. 2104 note) established special authorities for stewardship contracting not addressed in existing Forest Service timber sale contracts. In general, the new authorities provide for including service work in timber sale contracts and applying the value of timber or other forest products removed as an offset against the cost of services received. Integrated Resource Contracts FS-2400-13 and FS-2400-13T are being developed for use with stewardship end result contracting when the value of timber exceeds the cost of service work.

Except where they deviate to address the new authorities, the FS-2400-13 and FS-2400-13T contracts parallel recently revised timber sale contracts FS-2400-6 and FS-2400-6T, which became effective upon notice in the Federal Register on May 6, 2004 (69 FR 25367).

In order to fully implement the authorities under section 323 of Public

USDA—FS

Law 108-7, and because they are so similar to timber sale contracts FS-2400-6 and FS-2400-6T, the Agency implemented interim use of the integrated resource contracts while public comments are being sought. Comments received will be considered in the development of the final contracts.

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: 36 CFR 223.52

Abstract: The Forest Service published an interim final rule amending the current regulation at 36 CFR 223.52 to require the use of three alternative Producer Price Indices (PPI) from the Bureau of Labor Statistics in lieu of the four PPI that the Forest Service has monitored for timber sale contract market-related contract term additions. As of January, 2004, the Bureau of Labor Statistics discontinued providing three of the four PPI that the Forest Service has monitored and changed the reference number for the fourth PPI. By using the three alternative PPI, the Forest Service will be able to continue providing market-related contract term additions during drastic reductions in wood products market prices.

Priority: Substantive, Nonsignificant

Legal Authority: PL 108-447

CFR Citation: 36 CFR 291.2; 36 CFR 261.15

Legal Deadline: None

Abstract: The Appropriations Act for the Department of the Interior and related agencies for fiscal year 2005 (Pub. L. 108-447) contains the Federal Lands Recreation Enhancement Act that allows the Secretaries of the Interior and Agriculture to establish, modify, change, and collect recreation fees at Federal recreation lands and waters administered by the National Park Service, the U.S. Fish and Wildlife Service, the Bureau of Land Management, the Bureau of Reclamation, and the Forest Service. In addition, the act (1) specifies criteria for how different types of fees may be established and charged in a consistent manner across all the Federal land management agencies; (2) establishes an interagency national recreation pass; (3) requires the establishment of Recreation Resource Advisory Committees to make recommendations relating to public concerns with certain fees in the area covered by the Committee(s); and (4) identifies requirements for providing the public with opportunities to participate in the development of or changing of a recreation fee established

under this act. The Forest Service proposes to amend title 36, Code of Federal Regulations, by removing section 291.2, and revising section 261.15. Revisions to section 261.15 would more accurately describe the types of fees punishable for nonpayment and remove the maximum \$100 fine with language from the act specifying that the failure to pay a required recreation fee under the act is punishable as a Class B misdemeanor.

Abstract: The Forest Service is issuing a direct final rule to amend the current regulation at 36 CFR 223.41 and 223.82 (5)(b) by raising the total specified road construction cost threshold for a small business concern road election from \$20,000 to \$50,000. Congress raised the limit to \$50,000 via the Supplemental Appropriations Act for Fiscal Year 1999 (Pub. L. 105-277, sec. 329 (c)) (Act). The Act eliminated the restriction that precluded small business concerns in the State of Alaska from exercising the road option. The Act also directed the Forest Service to eliminate purchaser credit from timber sales sold after April 1, 1999. The Forest Service implemented these changes upon passage of the law and corrected agency manual and handbook direction. The CFR references to these minimum values have not been changed. This

change to the CFRs corrects this policy oversight.

Abstract: USDA published 7 CFR part 3015, Uniform Federal Assistance Regulations, in 1981 to establish and codify departmentwide policies and standards for administering grants and cooperative agreements to governmental and nongovernmental entities. Since that time, the Office of Management and Budget has led efforts to establish Governmentwide common rules for governmental and nongovernmental recipients of grants and cooperative agreements. Consequently, over the years, USDA has codified its Governmentwide common rules in other parts of title 7 of the CFR. This has resulted in corresponding amendments to part 3015 to revise its scope accordingly. We are proposing to remove part 3015 and to add part 3020 to parts of title 7. We are proposing to include other administrative requirements that were never codified. The alternative would be to continue to work with the disjointed, outdated part 3015. Expected results are that the new part 3020 will be more clear and concise and will only contain those cross-cutting requirements not included

in other USDA departmentwide administrative regulations.

Legal Authority: 7 USC 1988; 7 USC 1989

CFR Citation: 7 CFR 4279-A; 7 CFR 4279-C

Legal Deadline: None

Abstract: Section 338(b)(2)(A) of the Consolidated Farm and Rural Development Act (CONACT) authorizes the Secretary, either directly or through a market maker, to issue pool certificates representing ownership of part or all of the guaranteed portion of any loan guaranteed by the Secretary for certain guaranteed programs.

The sale of Government guaranteed loan portions to investors in the secondary market increases earnings, liquidity, and the capital available to lenders. Lenders in the Small Business Administration (SBA) 7(a) loan program are selling loans by using an SBA-approved Fiscal Transfer Agent (FTA) that pools and markets loans on the secondary market. Rural Development seeks to use section 338(b)(2)(A) of the CONACT to provide the same service to lenders.

CFR Citation: 7 CFR 1980; 7 CFR 4279

Legal Deadline: None

Abstract: This rulemaking amends 7 CFR parts 4279 and 1980 by modifying the equity requirement considered in the underwriting of business and industry loans by guaranteed lenders and/or the Rural Business-Cooperative Service as follows:

— In the case of direct or guaranteed refinancing loans only, apply an adjusted equity requirement, where tangible net equity is modified by (i) including asset value to the extent of

the difference between the depreciated book value of real property assets and current market value supported by an independent appraisal, or the original loan amount, whichever is less and (ii) family capital subordinated debt, where the subordinated debt is held by and represents a cash infusion to the business by the owner or close family member, and the repayment terms are such that repayment is not ahead of Agency direct and/or guaranteed loan exposure.

— Increase the equity requirement for energy loans to 40 percent for existing businesses (in existence for 3 years) and 50 percent for new businesses. Construction financing is not an eligible energy loan purpose; energy projects that produce biomass fuel, biogas, fuel cells, or batteries as an output must have completed two operating cycles at design performance levels acceptable to the Agency.

Abstract: The Rural Utilities Service consolidates and amends the regulations utilized to service water and waste loan and grant programs. Unnecessary and burdensome requirements for water and waste loan and grant servicing under the program will be eliminated. The streamlining will allow RUS to provide better service to entities needing assistance in resolving financial and economic problems in their communities and in general improve the quality of life in rural areas.

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: Not Yet Determined

Legal Deadline: None

Abstract: The Federal Communications Commission had required all television broadcasters to initiate the broadcast of a digital television signal and to cease analog television broadcasts. To assist stations with the transition, Congress recognized the need to facilitate the digital transition in public television stations that serve rural areas. This grant program will assist rural public television to finance the conversion of television services to digital broadcasting. To continue this program in Y 2005, Congress provided \$10 million for grant funds in the Consolidated Appropriations Act, 2005 (Pub. L. 108-447). Congress also authorized additional purposes, which were specifically excluded in the NOFA. This regulation will incorporate the new statutory requirements and updates this competitive grant program for FY 2005.
