

materials or labor-hour contracts with small business represent only approximately 2 percent of all contracts. In addition, the rule eases the impact of the current FAR by permitting the contracting officer to use judgment in deciding whether to withhold payments, thus the number of contracts affected is a subset of the 2 percent figure. This change is expected to have a small but beneficial impact on small businesses.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, *et seq.*

SUPPLEMENTARY INFORMATION:

A. Background

Title 15 of the United States Code, section 632 requires that a qualified Historically Underutilized Business Zone (HUBZone) small business concern be certified by the Small Business Administration (SBA). A Department of Defense Inspector General report D–2003–019 “DoD Contractor Subcontracting With Historically Underutilized Business Zones (HUBZones) Small Businesses” found that prime contractors were overstating their HUBZone accomplishments because subcontractor’s representations were not being verified. The FAR is being revised to clarify that prime contractors must confirm a subcontractor representing itself as a HUBZone small business concern is certified, consistent with the requirements of 15 U.S.C. 632 *et seq.*, as amended.

The specific changes revise FAR 19.703 and the clause at 52.219–9 to clarify that contractors shall confirm that a subcontractor representing itself as a HUBZone small business concern is certified by SBA as a HUBZone small business concern by accessing the Central Contractor Registration or by contacting the SBA.

This is not a significant regulatory action and, therefore, was not subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The changes may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because this rule change will have a positive effect on small businesses who are certified HUBZone small business concerns and are losing subcontracting opportunities taken by another company falsely claiming to be a certified HUBZone small business concern. The FAR Secretariat has submitted a copy of the Initial Regulatory Flexibility Analysis to the Chief Counsel for Advocacy of the Small Business Administration. The analysis is summarized as follows:

Title 15 of the United States Code, section 632 requires that a qualified Historically Underutilized Business Zone (HUBZone) small business concern be on the list of qualified HUBZone small business concerns maintained by the Small Business Administration. A Department of Defense Inspector General report D–2003–019 “DoD Contractor Subcontracting With Historically Underutilized Business Zones (HUBZones) Small Businesses” found that prime contractors were overstating their HUBZone accomplishments because subcontractor’s representations were not being verified. This interim rule revises the Federal Acquisition Regulation to require prime contractors to verify that its HUBZone small business concerns are qualified as required by 15 U.S.C. 632 *et seq.*, as amended.

The changes may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, because certified HUBZone small business concerns will have additional subcontracting opportunities previously taken by other companies falsely claiming to be certified HUBZone small business concerns.

Interested parties may obtain a copy from the FAR Secretariat. The Councils will consider comments from small entities concerning the affected FAR Parts 19 and 52 in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 601, *et seq.* (FAC 2005–05, FAR case 2005–009), in correspondence.

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FAR do not impose information collection requirements that require the approval of the Office of Management

and Budget under 44 U.S.C. 3501, *et seq.*

D. Determination to Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense (DoD), the Administrator of General Services (GSA), and the Administrator of the National Aeronautics and Space Administration (NASA) that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. This action is necessary because some subcontractors incorrectly claim to be certified HUBZone small business concerns. Since prime contractors are not currently required to verify their subcontractors’ HUBZone certifications through the SBA prior to reporting their subcontracting awards to DoD, many real HUBZone small business concerns are losing opportunities that they should have. This also results in the reporting of inaccurate data on the HUBZone program to Congress and SBA. Awards to improperly certified subcontractors can be stopped immediately, if prime contractors make a simple check on the CCR database or contact SBA. Pursuant to Public Law 98–577 and FAR 1.501, the Councils will consider public comments received in response to this interim rule in the formation of the final rule.

Federal Acquisition Regulation; Government Property Rental and Special Tooling

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) have agreed on a final rule amending the Federal Acquisition Regulation (FAR) to incorporate a class deviation regarding use and charges, which has been applicable to the Department of Defense since 1998. This deviation is appropriate for application across the Federal Government. The change clarifies the basis for determining the rental charges for the use of Government property and is intended to promote the dual use of such property. The final rule specifically impacts contracting officers, property administrators, and contractors responsible for the management of Government property.

DATES: *Effective Date:* August 26, 2005.

FOR FURTHER INFORMATION CONTACT: The FAR Secretariat at (202) 501–4755 for information pertaining to status or publication schedules. For clarification of content, contact Ms. Jeritta Parnell, Procurement Analyst, at (202) 501–4082. Please cite FAC 2005–05, FAR case 2002–015.

SUPPLEMENTARY INFORMATION:

A. Background

DoD, GSA, and NASA published a proposed rule in the **Federal Register** at 69 FR 42544, July 15, 2004, to incorporate two Department of Defense class deviations, 98–O0010, Use and Charges, and 98–O0011, Special Tooling, into FAR Part 45 and make appropriate revisions to FAR 52.245–9, Use and Charges, and FAR 52.245–17, Special Tooling. The final rule establishes, as the basis for rental charges, the time property is actually used for commercial purposes, rather

than the time available for use; permits contractors to obtain property appraisals from independent appraisers; permits appraisal-based rentals for all property; and allows contracting officers to consider alternate bases for determining rentals. The final rule does not change the requirements for special tooling as originally proposed by the Councils because the Councils are now considering deleting the clause in its entirety rather than revising it based on comments received on the proposed rule. The Councils plan to solicit comments on the proposed deletion of the FAR clause at 52.245–17, Special Tooling, under another proposed rule.

Four respondents provided public comments. Consideration of these comments resulted in only minor administrative changes to the proposed rule. The resolution of the comments follows:

Summary of Comments Received/ Disposition

1. *Proposed Rule (PR): 52.245–9.* Deviation to the clause at 52.245–9 sets a fair and equitable method for applying a rent usage when Government property is used for commercial purposes or existing Government property is used for future contracts and equitable adjustment is needed to eliminate unfair competitive advantage.

Concur.

2. *PR: 52.245–17.* All respondents proposed the elimination of the special tooling clause. The Councils plan to solicit comments on the proposed deletion of the FAR clause at 52.245–17, Special Tooling, under another proposed rule.

3. *PR: 52.245–9(h).* Amend paragraph (h) to strike “person” and replace it with “contractor.” Rationale is that a company would control their personnel through their administrative procedures when wrong is discovered and the Government may control the contractor in a like manner.

Nonconcur. The legal basis for this citation, 18 U.S.C. 641, applies to an individual, as well as a corporate entity.

4. *PR: 52.245–9.* It may make sense to provide a time frame where an immediate need for usage of property from another contract becomes imminent and use of the property would not interfere with the owning contract, and the ACO is not available for authorization, a period of 48 hours, documented by the losing contract, would be allowed for transfer of tooling and use of such tooling be paid for at a higher rate than the proposed schedule. Tooling would be returned immediately if authorization were not received.
