

Eligible applicants for fiscal year (FY) 2005 funds under the CRN program are the entities designated by the Governor and the eligible agency under Title I of the Perkins Act for each of the 50 States, the Virgin Islands, the Commonwealth of Puerto Rico, the District of Columbia, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and the Republic of Palau. The designated entities in the Republic of the Marshall Islands and the Federated States of Micronesia are no longer eligible to receive funds under the CRN program and therefore cannot receive continuation grants from funds appropriated for FY 2005 or subsequent fiscal years, pursuant to 48 U.S.C. 1921d(f)(1)(B)(iii).

The nature of the CRN program, in which the universe of eligible applicants is defined in the law and all eligible entities are funded, allowed us to provide actual notice in lieu of publishing a notice of proposed rulemaking, consistent with section 553(b) of the APA. Pursuant to the requirements of section 553(b) of the APA, and in order to make timely grant awards in FY 2005, on July 14, 2005, we contacted CRN grantees directly and provided them actual notice of, and requested their comments on, our proposal to waive 34 CFR 75.250 and fund continuation grants.

To avoid a lapse in the availability of career resources and related services and activities provided by the CRN grantees, the Secretary waives the requirements in 34 CFR 75.250, which prohibit project periods exceeding five years. With this waiver we can continue the CRN grants of all current, eligible grantees for as long as Congress continues to appropriate funds for the existing statutory program authority and during a transition to any new statutory program authority. It would be contrary to the public interest to have a lapse in CRN projects, especially as they are preparing for a new school year. This waiver of 34 CFR 75.250 means that: (1) current CRN grants will be continued at least through FY 2005 and possibly beyond, if Congress continues to appropriate funds for the CRN program under the current statutory authority or provides for a transition to any new statutory authority, and (2) we will not announce a new competition or make new awards in FY 2005.

We waived the requirements of 34 CFR 75.261(c)(2), which prohibit project period extensions involving the obligation of additional Federal funds, in a notice published in the **Federal Register** on July 31, 2002 (67 FR 49852). The waiver of 34 CFR 75.261(c)(2) is

still in effect; therefore, we are not waiving this requirement in this notice.

The waivers of 34 CFR 75.250 and 75.261(c)(2) do not exempt current CRN grantees from the account closing provisions of 31 U.S.C. 1552(a), nor do they extend the availability of funds previously awarded to current CRN grantees. As a result of 31 U.S.C. 1552(a), appropriations available for a limited period may be used for payment of valid obligations for only five years after the expiration of their period of availability for Federal obligation. After that time, the unexpended balance of those funds is canceled and returned to the Treasury Department and is unavailable for restoration for any purpose.

#### Regulatory Flexibility Act Certification

The Secretary certifies that this notice of funding of continuation grants and waiver will not have a significant economic impact on a substantial number of small entities. The only entities that would be affected are the 57 current, eligible CRN grantees.

#### Paperwork Reduction Act of 1995

This notice of funding of continuation grants and waiver does not contain any information collection requirements.

#### Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. The objective of the Executive Order is to foster an intergovernmental partnership and a strengthened federalism by relying on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

In accordance with the order, we intend this document to provide early notification of the Department's specific plans and actions for this program.

#### Assessment of Educational Impact

Based on our own review, we have determined that this notice of funding of continuation grants and waiver does not require transmission of information that any other agency or authority of the United States gathers or makes available.

## DEPARTMENT OF ENERGY

[Docket No. EA-283-A]

### Application to Export Electric Energy; Public Service Company of Colorado

**AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.

**ACTION:** Notice of application.

**SUMMARY:** Public Service Company of Colorado (PSCo) has applied to renew its authority to export electric energy from the United States to Canada, pursuant to section 202(e) of the Federal Power Act.

**DATES:** Comments, protests or requests to intervene must be submitted on or before August 11, 2005.

**ADDRESSES:** Comments, protests or requests to intervene should be addressed as follows: Permitting, Siting and Analysis Division (OE-20), Office of Electricity Delivery and Energy Reliability, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585-0350 (FAX 202-586-5860).

**FOR FURTHER INFORMATION CONTACT:** Xavier Puslowski (Program Office) 202-586-4708 or Michael Skinker (Program Attorney) 202-586-2793.

**SUPPLEMENTARY INFORMATION:** Exports of electricity from the United States to a foreign country are regulated and require authorization under section 202(e) of the Federal Power Act (FPA) (16 U.S.C. 824a(e)).

On August 19, 2003, the Department of Energy (DOE) issued Order No. EA-283 authorizing PSCo to export electric energy from the United States to Canada. That two-year authorization will expire on August 19, 2005. On July 12, 2005, DOE received an application from PSCo to renew its export authority for a five-year term. PSCo is a Colorado corporation with its principal place of business in Denver, Colorado. PSCo is an investor-owned subsidiary of Xcel Energy, Inc., and is engaged in the generation, distribution and sale of electric energy. PSCo controls electric power generation and transmission facilities in the States of Arizona, Colorado, Kansas, New Mexico, Oklahoma, Texas, and Wyoming. As a regulated utility, PSCo produces and distributes electric power and conducts wholesale purchases and sales of capacity and energy.

In Docket No. EA-283-A, PSCo proposes to export electric energy that is in excess of the amounts required to meet its native load obligations or that is purchased from generators, power marketers or federal power marketing agencies. PSCo will arrange for the delivery of those exports to Canada over the international transmission facilities owned by Basin Electric Power Cooperative, Boise Cascade, Bonneville Power Administration, Eastern Maine Electric Cooperative, International Transmission Company, Joint Owners of the Highgate Project, Long Sault, Inc., Maine Electric Power Company, Maine Public Service Company, Minnesota

Power Inc., Minnkota Power Cooperative, Inc., New York Power Authority, Niagara Mohawk Power Corporation, Northern States Power Company, and Vermont Electric Transmission Company.

The construction of each of the international transmission facilities to be utilized by PSCo has previously been authorized by a Presidential permit issued pursuant to Executive Order 10485, as amended.

Because Order No. EA-283 will expire within the next 30 days, DOE has shortened the comment period to 15 days so that this proceeding can be concluded prior to the expiration of PSCo's existing authorization and prevent any gap in authority with respect to PSCo's current exports.

*Procedural Matters:* Any person desiring to become a party to this proceeding or to be heard by filing comments or protests to this application should file a petition to intervene, comment or protest at the address provided above in accordance with §§ 385.211 or 385.214 of the FERC's Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE on or before the date listed above.

Comments on the PSCo application to export electric energy to Canada should be clearly marked with Docket EA-283-A. Additional copies are to be filed directly with Public Service Company of Colorado, 1099 18th Street, Suite 3000, Denver, CO 80202, Attn: Director, Contract Administration.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to the National Environmental Policy Act of 1969, and a determination is made by the DOE that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above or by accessing the program's Home Page at <http://www.fe.de.gov>. Upon reaching the Home Page, select "Electricity Regulation," and then "Pending Proceedings" from the options menu.

Issued in Washington, DC, on July 21, 2005.
