

This information collection approval was granted by OMB on March 29, 2005, and expires on March 31, 2008. Because OMB approved the information collection after publication of the February 14, 2005, final rule and the February 25, 2005, reporting directive, we are now announcing the OMB approval and establishing Wednesday, June 15, 2005, as the date on which carriers must begin to submit monthly reports on incidents involving the loss, injury, or death of an animal during air transport to DOT's ACPD.

The June 15, 2005, report which would be the first report required of carriers, must cover incidents that occurred from May 1, 2005, to May 31, 2005. Carriers must submit all subsequent reports within 15 days of the end of the month as required under 14 CFR 234.13(a). If the 15th day of a month should fall on a Saturday, Sunday or Federal holiday, then the carrier may provide the report on the next work day.

Issued this 5th day of April, 2005, in Washington, DC.

Michael Robinson,

Departmental Information Collection Clearance Officer, U.S. Department of Transportation.

Notice of Charter Renewal, RTCA, Inc. (Utilized as an Advisory Committee)

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of RTCA Charter Renewal.

SUMMARY: The FAA is issuing this notice to advise the public of the renewal of the RTCA Charter (FAA Order 1110.77Q) for two years, effective April 4, 2005. The Administrator is the sponsor of the committee. The objective of the advisory committee is to seek solutions to problems involving applied technology (for example, electronics, computers, and telecommunications) to aeronautical operations that impact the future air traffic management system. The solutions are often about recommended minimum operational performance standards and technical guidance documents that are acceptable to Government, industry, and users. Standards ensure equivalent performance of the same generic equipment built by different manufacturers. Government regulatory

and procurement practices reference or use RTCA standards (with or without change). The Secretary of Transportation has determined that the information and use of the committee are necessary in the public interest in connection with the performance of duties imposed on the FAA by law.
