2. Sponsor: Federal Energy Regulatory Commission.
3. Control No.: 1902-0083.

4. Necessity of the Collection Information: Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the statutory provision of Section 305(b) of the Federal Power Act (FPA) (16 U.S.C. 825d). The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 45. Section 305(b) makes the holding of certain defined interlocking corporate positions unlawful unless the Commission has authorized the interlocks to be held and, requires the applicant to show in a form and manner as prescribed by the Commission, that neither public nor private interests will be adversely affected by the holding of the position.

Under part 45, each person that desires to hold interlocking positions must submit an application to the Commission for authorization, or if qualified, comply with the requirements for automatic authorization. The interlocking positions application requirements are set forth in Section 45.8; automatic authorization requirements are set forth in Section 45.9. In addition, a person already holding an existing authorized interlocking position, must apply for separate authorization under Section 45.4(a) when appointed to a new position within the same company. The information required under Part 45 generally identifies the applicant, describes the various interlocking positions the applicant seeks authorization to hold, provides information on the applicant's financial interests, other officers and directors of the firms involved, and the nature of the business relationships among the firms.

The Commission implements these filings requirements in the Code of Federal Regulations (CFR) under 18 CFR part 45.

7. Estimated Cost Burden to respondents: 1,450 hours/2080 hours per years x \$108,558 per year = \$75,677. The cost per respondent is equal to \$2,703.
