The Social Security Administration (SSA) publishes a list of information collection packages that will require clearance by the Office of Management and Budget (OMB) in compliance with Pub. Social Security Benefits Application—20 CFR Subpart D, 404.310-404.311 and 20 CFR Subpart F, 404.601-404.603—0960-0618

One of the requirements for obtaining Social Security benefits is the filing of an application so that a determination may be made on the applicant's eligibility for monthly benefits. In addition to the traditional paper application, SSA has developed various options for the public to add convenience and operational efficiency to the application process. The total estimated number of respondents to all application collection formats is 3,874,369 with a cumulative total of 1,008,180 burden hours. The respondents are applicants for retirement insurance benefits (RIB), disability insurance benefits (DIB), and/or spouses' benefits.

Please note that burden hours for applications taken through the Modernized Claims System (MCS) are accounted for in the hardcopy collection formats. Guided by the MCS collection screens, an SSA representative interviews the applicant and inputs the information directly into the SSA's application database. MCS offers the representative prompts based on the type of application being filed and the circumstances of the applicant. These prompts facilitate a more complete initial application, saving both the agency and applicant time. MCS also propagates identity and similar information within the application, which saves additional time.

Type of Request: Revision of an OMB-approved information collection. (ISBA collection only).

ISBA, which is available through SSA's Internet site, is one method that an individual can choose to file an application for benefits. Individuals can use ISBA to apply for RIB, DIB and spouse's insurance benefits based on age. SSA gathers only information relevant to the individual applicant's circumstances and will use the information collected by ISBA to entitle individuals to RIB, DIB, and/or spouse's benefits. The respondents are applicants for RIB, DIB, and/or spouse's benefits.

1. Homeless Outreach Project and Evaluation (HOPE)

Background

Congress passed the McKinney Act of 1987 in recognition of and in an effort to address situations and conditions facing people without permanent shelter. The Act funded 15 emergency services and nine individual titles to authorize the provision of specific programs by Federal agencies. The Act also established the Interagency Council on Homelessness (ICH) composed of leaders from 15 Federal agencies who are in charge of coordinating efforts to assist people who are homeless. During the past decade, SSA and other ICH agencies have compiled important data about people who are homeless and have carried out evaluations of services which have generated evidence about "best" or "promising practices" well suited to combating homelessness.

In fiscal year 2003, President George W. Bush announced an initiative to end chronic homelessness in 10 years. As a result, SSA developed Project HOPE and in May 2004 awarded 34 Cooperative Agreements to organizations which provide outreach, support services and benefit application assistance to the chronically homeless and other underserved populations. An additional 7 cooperative agreements were awarded in November 2004 for a total of 41. The goal of Project HOPE is to improve both the quantity and quality of applications for disability benefits. Project HOPE gives focused support to Cooperative (co-op) awardees via a training program and ongoing technical assistance.

Evaluation of Project HOPE

SSA is undertaking the project HOPE evaluation to determine the effectiveness and the efficiency of the program. To obtain the information needed for the evaluation, SSA is developing an interactive Web site that will be used by co-op awardees to input client and program data, and by SSA to communicate project-wide announcements to the awardees. The

respondents are HOPE grantees/non-profit social services organizations serving people who are homeless & disabled.

The information collected by SSA on form SSA-1696-U4 is used to verify the applicant's appointment of a representative. It allows SSA to inform the representative of items which affect the applicant's claim. A representative of a claimant for Social Security benefits must file either a fee petition or a fee agreement with SSA in order to charge a fee for representing a claimant in proceedings before SSA. The representative uses form SSA-1560 to petition SSA for authorization to charge and collect a fee. A claimant may also use the form to agree or disagree with the requested fee amount or other information the representative provides on the form. SSA uses the information to determine a reasonable fee that a representative may charge and collect for his or her services. SUPPLEMENTARY INFORMATION:

I. Background and Purpose of the Proposed New System of Records Entitled the RP/MRCS System

A. General Background

On March 4, 2004, President Bush signed into law the Social Security Protection Act of 2004 (Pub. L. 108-203), which amended section 205(j) of the Social Security Act. Included in the amendment is a requirement for the Commissioner of Social Security to re-issue benefits under Title II or XVI whenever an individual representative payee serving 15 or more beneficiaries or an organizational representative payee is found to have misused a beneficiary's funds. This is effective for determinations of misuse on or after January 1, 1995. To carry out this function as required under the amended section 205(j), SSA must collect and

maintain certain identifying information about: (1) representative payees that have misused benefits; (2) beneficiaries whose benefits have been misused; and (3) the relationship between the representative payee and the beneficiary.

B. Collection and Maintenance of the Data for the Proposed New System of Records Entitled the RP/MRCS System

SSA must collect and maintain certain identifying information about representative payees that have misused benefits; beneficiaries whose benefits have been misused; and, the relationship between the representative payee and the beneficiary. We will retrieve information from the proposed system of records by using the individual's name and/or Social Security number. Thus the RP/MRCS system will constitute a system of records under the Privacy Act of 1974, as amended.

II. Proposed Routine Use Disclosures of Data Maintained in the Proposed RP/MRCS

A. Proposed Routine Use Disclosures

We are proposing to establish routine uses of information that will be maintained in the proposed RP/MRCS as discussed below.

1. To the Office of the President for the purpose of responding to an individual pursuant to an inquiry received from that individual or from a third party on his or her behalf.

We will disclose information under this routine use only in situations in which an individual may contact the Office of the President, seeking that Office's assistance in a matter relating to information contained in this system of records. Information will be disclosed when the Office of the President makes an inquiry and indicates that it is acting on behalf of the individual whose record is requested.

2. To a congressional office in response to an inquiry from that office made at the request of the subject of a record.

We will disclose information under this routine use only in situations in which an individual may ask his or her congressional representative to intercede in a matter relating to information contained in this system of records. Information will be disclosed when the congressional representative makes an inquiry and indicates that he or she is acting on behalf of the individual whose record is requested.

3. To the Department of Justice (DOJ), a court or other tribunal, or another party before such tribunal when:
