SUPPLEMENTARY INFORMATION:

A. Purpose

The General Services Administration (GSA) has various mission responsibilities related to the acquisition and provision supply, service, and leasehold acquisitions. These mission responsibilities generate requirements that are realized through the solicitation and award of various types of contracts. Individual solicitations and resulting contracts may impose unique information collection and reporting requirements on contractors, not required by regulation, but necessary to evaluate particular program accomplishments, measure success in meeting program objectives, or adjust acquisition requirements. Leasehold acquisitions provide for real estate tax adjustments due to changes in real estate taxes on land and buildings

occupied by the Government. In a leasehold acquisition, the lessor shall provide the following information regarding real estate taxes: (1) Any notice which may affect the valuation of land and buildings covered by this lease for real estate tax purposes; (2) Any notice of a tax credit or tax refund related to land and buildings covered by this lease; and (3) Each tax bill related to land and building covered by this lease. The lessor is also required to provide the contracting officer a proper invoice including evidence of payment to receive the tax adjustment.

Depending on the leasehold acquisition, the tax adjustment can result in either the lessor receiving a credit or the Government receiving a credit.

SUPPLEMENTARY INFORMATION:**I. Background**

House Appropriations Committee Report 108–636 includes a provision for the Health and Human Services Assistant Secretary for Planning and Evaluation (HHS/ASPE) and the Office of Management and Budget (OMB) to establish an interagency committee, to be coordinated by HHS. The committee's role is to examine major Federal regulations governing the health care industry and to make suggestions regarding how health care regulation could be coordinated and simplified to reduce costs and burdens and improve translation of biomedical research into medical practice, while continuing to protect patients. The interagency committee will examine the economic impact of the major Federal regulations governing the health care industry, and will explore both immediate steps and longer-term proposals for reducing regulatory burden, while maintaining the highest quality health care and other patient protections.

In accord with the House Appropriations Committee's intent, ASPE and OMB have undertaken several complementary activities. The HHS/OMB interagency committee is conducting a comprehensive review of Federal health care regulations, guidance, and paperwork requirements in order to identify areas for reform. In order to facilitate the work of this committee, ASPE and OMB are soliciting public nominations of regulatory reforms in several ways. First, we published a notice in the **Federal Register** on October 4, 2005, soliciting public nominations of reforms. Second, we are holding a series of Town Hall meetings in several cities across the country to provide an opportunity for input from health care administrators, institutional providers, physicians, practitioners, patients, and others about the impact of regulations, and to identify other potential areas for reform.

The purpose of this **Federal Register** notice is to give potential participants in these Town Hall meetings more information regarding how their participation and the information they provide can facilitate the consideration of their suggestions for regulatory reform. In particular, participants in the Town Hall meetings and individuals who submit written comments are requested to provide, to the extent feasible, an estimate of the economic impact of health care regulations, guidance documents, or paperwork requirements, and also to describe the methods used to calculate the economic

impact of the regulations. The findings from the Town Hall meetings, other reform nominations and comments from the public, and the subsequent work of the HHS/OMB committee will be synthesized and included in a report to Congress.

II. Registration

Registration Procedures: Registration can be completed online at <http://aspe.hhs.gov/arrb/index.shtml>. To register by telephone, contact Bridgette Saunders of Social and Scientific Systems at (301) 628–3158. (Social and Scientific Systems is the Contractor to HHS/ASPE to provide logistical support for the Town Hall meetings.) The following information must be provided when registering: Name, organization name and address, and consent to publish contact information on a participants list and other reports to document the Town Hall Meeting. A Social & Scientific Systems, Inc. staff member will confirm your registration by mail, e-mail, or fax.

III. Presentations and Comment Format**A. "5-Minute" Public Comment Presentations**

Meeting attendees can sign up at the meeting, on a first-come, first-served basis, to make 5-minute presentations. We ask that commenters focus on the economic impacts of health care regulations, and quantify these impacts to the extent possible. Depending on the number of persons who sign up to make public comments, we will decide whether additional time will be allotted. In order to offer the same opportunity to all attendees, there is no pre-registration for 5-minute speakers. Attendees can sign up only on the day of the meeting to make a 5-minute presentation. They must provide their name, title, and organization name on the sign-up sheet, and identify the general area of health care regulation that they will address.

B. Written Comments From Meeting Attendees

Written comments are welcome from the public regardless of attendance at a Town Hall Meeting or whether they make an oral presentation at a Town Hall Meeting. Written comments can be submitted either at the meeting, or before or after the meeting via e-mail to the mailboxes specified on the project Web site: <http://aspe.hhs.gov/arrb/index.shtml> or via regular mail to Marty McGeein, Office of the Assistant Secretary for Planning and Evaluation, 200 Independence Avenue, SW., Washington, DC 20201. Please note that electronic submissions are preferred due

to delays in receiving U.S. Postal Mail. We are able to consider only those comments received in writing and/or via e-mail by 5 p.m. EST on February 9, 2006.
