#### SUPPLEMENTARY INFORMATION:

#### History

*Federal Register* Document 05-374, published on Friday, January 7, 2005, (70 FR 1399) proposed to establish a Class E airspace area designated as a surface area and to modify the existing Class E airspace area extending upward from 700 feet above the surface at Newton, KS. The proposed airspace and changes were to protect aircraft departing from and executing instrument approach procedures to Newton-City-County Airport. However, the Newton-City-County airport

reference point used in both proposed airspace areas was incorrect.

Accordingly, pursuant to the authority delegated to me, the legal description of the Class E airspace area designated as a surface area and the Class E airspace area extending upward from 700 feet above the surface at Newton, KS, as published in the *Federal Register* on Friday, January 7, 2005 (70 FR 1399) [FR Doc. 05-374] are corrected as follows:

On page 1400, Column 1, second and fourth paragraphs from the bottom, third line, change "(lat. 38°05'26" N., long. 97°16'31" W.)" to read "(lat. 38°03'26" N., long. 97°16'31" W.)"

Issued in Kansas City, MO, on January 11, 2005.
