BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

International Trade Administration

(A-580-601)

Top-of-the-Stove Stainless Steel Cooking Ware from the Republic of Korea; Continuation of the Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (the Department) and the International Trade Commission (ITC) that revocation of the antidumping duty order on top-of-the-stove stainless steel cooking ware (cooking ware) from the Republic of Korea (Korea) would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing this notice of continuation of the cooking ware antidumping duty order.

EFFECTIVE DATE: November 17, 2005.

FOR FURTHER INFORMATION Zev Primor, AD/CVD Operations, Office IV, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4114.

SUPPLEMENTARY INFORMATION:

Background

On March 1, 2005, the Department and the ITC initiated sunset reviews of the antidumping duty order on cooking ware from Korea pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). See *Initiation of Five-year ("Sunset") Reviews*, 70 FR 9919 (March 1, 2005). As a result of its

review, the Department found that revocation of the antidumping duty order would likely lead to continuation or recurrence of dumping, and notified the ITC of the magnitude of the margins likely to prevail were the order revoked. See *Top-of-the-Stove Stainless Steel Cooking Ware from the Republic of Korea and Taiwan; Final Results of the Expedited Sunset Reviews of the Antidumping Duty Orders*, 70 FR 56443 (September 27, 2005).

On October 27, 2005, the ITC determined, pursuant to section 751(c) of the Act, that revocation of the antidumping duty order on cooking ware from Korea would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time. See USITC Publication 3808 (October 2005) and *Investigations Nos. 731-TA-298 and 299 (Second Review); Investigations Nos. 701-TA-267 and 268 and 731-TA-304 and 305 (Second Review); Porcelain-on-Steel Cooking Ware From China and Taiwan; Top-of-the-Stove Stainless Steel Cooking Ware From Korea and Taiwan*, 70 FR 67740 (November 8, 2005).

Scope of the Order

The merchandise subject to this antidumping duty order is cooking ware from Korea. The subject merchandise is all non-electric cooking ware of stainless steel which may have one or more layers of aluminum, copper or carbon steel for more even heat distribution. The subject merchandise includes skillets, frying pans, omelette pans, saucepans, double boilers, stock pots, dutch ovens, casseroles, steamers, and other stainless steel vessels, all for cooking on stove top burners, except tea kettles and fish poachers. Excluded from the scope of the orders are stainless steel oven ware and stainless steel kitchen ware. The subject merchandise is currently classifiable under Harmonized Tariff Schedule of the United States (HTSUS) item numbers 7323.93.00 and 9604.00.00. The HTSUS item numbers are provided for convenience and Customs purposes only. The written description remains dispositive.

Determination

As a result of the determinations by the Department and the ITC that revocation of the antidumping duty order would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the antidumping duty order on cooking ware from Korea.

United States Customs and Border Protection (CBP) will continue to collect antidumping duty cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of continuation of this order will be the date of publication in the **Federal Register** of this Notice of Continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of this order not later than November 2010.

The Department's and ITC's five-year (sunset) reviews and notices are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: November 9, 2005.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

National Fire Protection Association (NFPA): Request for Comments on NFPA's Codes and Standards

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: Since 1896, the National Fire Protection Association (NFPA) has accomplished its mission by advocating scientifically based consensus codes and standards, research, and education for safety related issues. NFPA's *National Fire Codes®*, which holds over 270 documents, are administered by more than 225 Technical Committees comprised of approximately 7,000 volunteers and are adopted and used throughout the world. NFPA is a nonprofit membership organization with approximately 80,000 members from over 70 nations, all working together to fulfill the Association's mission.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and that takes approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The process contains five basic steps that are followed both for

developing new documents as well as revising existing documents. These steps are: Calling for Proposals; Publishing the Proposals in the Report on Proposals; Calling for Comments on the Committee's disposition of the Proposals and these Comments are published in the Report on Comments; having a Technical Report Session at the NFPA Annual Meeting; and finally, the Standards Council Consideration and Issuance of documents.

Note: Under new rules effective this Fall 2005, anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal their intention by submitting a Notice of Intent to Make a Motion by the Deadline of October 20, 2006. Certified motions will be posted by November 17, 2006. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the annual June 2007 Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these new rules and for up-to-date information on schedules and deadlines for processing NFPA Documents, check the NFPA Web site at www.nfpa.org or contact NFPA Codes and Standards Administration.

The purpose of this notice is to request comments on the technical reports that will be published in the NFPA's 2006 Fall Revision Cycle. The

publication of this notice by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

DATES: Thirty-six reports are published in the 2006 Fall Revision Cycle Report on Proposals and will be available on December 23, 2005. Comments received on or before March 3, 2006, will be considered by the respective NFPA Committees before final action is taken on the proposals.

ADDRESSES: The 2006 Fall Revision Cycle Report on Proposals is available and downloadable from NFPA's Web site—www.nfpa.org or by requesting a copy from the NFPA, Fulfillment Center, 11 Tracy Drive, Avon, Massachusetts 02322. Comments on the report should be submitted to Casey C. Grant, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02269-7471.

FOR FURTHER INFORMATION CONTACT: Casey C. Grant, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02269-7471, (617) 770-3000.

SUPPLEMENTARY INFORMATION:

Background

The National Fire Protection Association (NFPA) develops building,

fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

Request for Comments

Interested persons may participate in these revisions by submitting written data, views, or arguments to Casey C. Grant, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02269-7471. Commenters may use the forms provided for comments in the Reports on Proposals. Each person submitting a comment should include his or her name and address, identify the notice, and give reasons for any recommendations. Comments received on or before March 3, 2006, for the 2006 Fall Revision Cycle Report on Proposals will be considered by the NFPA before final action is taken on the proposals.

Copies of all written comments received and the disposition of those comments by the NFPA committees will be published as the 2006 Fall Revision Cycle Report on Comments by August 25, 2006. A copy of the Report on Comments will be sent automatically to each commenter.

2006 FALL REVISION CYCLE—REPORT ON PROPOSALS

[P = Partial revision; W = Withdrawal; R = Reconfirmation; N = New; C = Complete Revision]

NFPA 12	Standard on Carbon Dioxide Extinguishing Systems	P
NFPA 12A	Standard on Halon 1301 Fire Extinguishing Systems	P
NFPA 16	Standard for the Installation of Foam-Water Sprinkler and Foam-Water Spray Systems	P
NFPA 18A	Standard on Water Additives for Fire Control and Vapor Mitigation	N
NFPA 25	Standard for the Inspection, Testing, and Maintenance of Water-Based Fire Protection Systems	P
NFPA 30	Flammable and Combustible Liquids Code	P
NFPA 51	Standard for the Design and Installation of Oxygen-Fuel Gas Systems for Welding, Cutting, and Allied Processes	P
NFPA 58	Liquefied Petroleum Gas Code	P
NFPA 68	Guide for Venting of Deflagrations	C
NFPA 85	Boiler and Combustion Systems Hazards Code	P
NFPA 204	Standard for Smoke and Heat Venting	P
NFPA 385	Standard for Tank Vehicles for Flammable and Combustible Liquids	P
NFPA 471	Recommended Practice for Responding to Hazardous Materials Incidents	P

BILLING CODE 3510-13-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

National Fire Protection Association (NFPA) Proposes To Revise Codes and Standards

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The National Fire Protection Association (NFPA) proposes to revise some of its safety codes and standards and requests proposals from the public to amend existing or begin the process of developing new NFPA safety codes and standards. The purpose of this request is to increase public participation in the system used by NFPA to develop its codes and standards. The publication of this notice of request for proposals by the National Institute of Standards and Technology (NIST) on behalf of NFPA is being undertaken as a public service; NIST does not necessarily endorse, approve, or recommend any of the standards referenced in the notice.

The NFPA process provides ample opportunity for public participation in the development of its codes and standards. All NFPA codes and standards are revised and updated every three to five years in Revision Cycles that begin twice each year and that takes approximately two years to complete. Each Revision Cycle proceeds according to a published schedule that includes final dates for all major events in the process. The process contains five basic steps that are followed both for developing new documents as well as revising existing documents. These steps are: Calling for Proposals; Publishing the Proposals in the Report on Proposals; Calling for Comments on the Committee's disposition of the proposals and these Comments are published in the Report on Comments; having a Technical Report Session at the

NFPA Annual Meeting; and finally, the Standards Council Consideration and Issuance of documents.

Note: Under new rules effective this Fall 2005, anyone wishing to make Amending Motions on the Technical Committee Reports (ROP and ROC) must signal their intention by submitting a Notice of Intent to Make a Motion by the Deadline stated in the ROC. Certified motions will then be posted on the NFPA website. Documents that receive notice of proper Amending Motions (Certified Amending Motions) will be presented for action at the annual June Association Technical Meeting. Documents that receive no motions will be forwarded directly to the Standards Council for action on issuance.

For more information on these new rules and for up-to-date information on schedules and deadlines for processing NFPA Documents, check the NFPA Web site at www.nfpa.org or contact NFPA Codes and Standards Administration.

DATES: Interested persons may submit proposals on or before the dates listed with the standards.

ADDRESSES: Casey C. Grant, Secretary, Standards Council, NFPA, 1 Batterymarch Park, Quincy, Massachusetts 02269-7471.

FOR FURTHER INFORMATION CONTACT: Casey C. Grant, Secretary, Standards Council, at above address, (617) 770-3000.

SUPPLEMENTARY INFORMATION:

Background

The National Fire Protection Association (NFPA) develops building, fire, and electrical safety codes and standards. Federal agencies frequently use these codes and standards as the basis for developing Federal regulations concerning safety. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

When a Technical Committee begins the development of a new or revised NFPA code or standard, it enters one of two Revision Cycles available each year. The Revision Cycle begins with the Call for Proposals, that is, a public notice asking for any interested persons to submit specific written proposals for developing or revising the Document. The Call for Proposals is published in a variety of publications. Interested

parties have approximately twenty weeks to respond to the Call for Proposals.

Following the Call for Proposals period, the Technical Committee holds a meeting to consider and accept, reject or revise, in whole or in part, all the submitted Proposals. The committee may also develop its own Proposals. A document known as the Report on Proposals, or ROP, is prepared containing all the Public Proposals, the Technical Committees' action and each Proposal, as well as all Committee-generated Proposals. The ROP is then submitted for the approval of the Technical Committee by a formal written ballot. If the ROP does not receive approval by a two-thirds vote calculated in accordance with NFPA rules, the Report is returned to the committee for further consideration and is not published. If the necessary approval is received, the ROP is published in a compilation of Reports on Proposals issued by NFPA twice yearly for public review and comment, and the process continues to the next step.

The Reports on Proposals are sent automatically free of charge to all who submitted proposals and each respective committee member, as well as anyone else who requests a copy. All ROP's are also available for free downloading at www.nfpa.org.

Once the ROP becomes available, there is a 60-day comment period during which anyone may submit a Public Comment on the proposed changes in the ROP. The committee then reconvenes at the end of the comment period and acts on all Comments.

As before, a two-thirds approval vote by written ballot of the eligible members of the committee is required for approval of actions on the Comments. All of this information is compiled into a second Report, called the Report on Comments (ROC), which, like the ROP, is published and made available for public review for a seven-week period.

The process of public input and review does not end with the publication of the ROP and ROC. Following the completion of the Proposal and Comment periods, there is yet a further opportunity for debate and
