## FEDERAL MARITIME COMMISSION

[Docket No. 05-02]

### SAT International Corporation v. Great White Fleet (US), Ltd.; Notice of Filing of Complaint and Assignment

Notice is given that a complaint has been filed with the Federal Maritime Commission ("Commission") by SAT International Corporation ("SAT" or "Complainant") against Great White Fleet (US), Ltd. ("Great White" or "Respondent"). Great White, acting as a VOCC, transported cargo for SAT from the United States to Guatemala. Complainant contends that Respondent violated section 10(b)(4)(E) of the Shipping Act of 1984, 46 U.S.C. app. § 1709(b)(4)(E), by engaging in unfair and unjustly discriminatory practices relating to the adjustment and settlement of claims. Complainant also contends that Respondent violated section 10(d)(1) of the Shipping Act of 1984, 46 U.S.C. app. § 1709(d)(1), by failing to establish, observe, and enforce just and reasonable regulations and practices relating to the handling of SAT's goods. Complainant claims that it has suffered damages in the amount of at least \$69,520. Complainant seeks an order directing Respondent to cease and desist from such unlawful activities and compelling Respondent to make reparations to SAT in an amount to be proved at an administrative hearing, plus interest, costs, and reasonable attorneys' fees.

This proceeding has been assigned to the Office of Administrative Law Judges. Hearing in this matter, if any is held,

shall commence within the time limitations prescribed in 46 CFR 502.61, and only after consideration has been given by the parties and the presiding officer to the use of alternative forms of dispute resolution. The hearing shall include oral testimony and cross-examination in the discretion of the presiding officer only upon proper showing that there are genuine issues of material fact that cannot be resolved on the basis of sworn statements, affidavits, depositions, or other documents or that the nature of the matter in issue is such that an oral hearing and cross-examination are necessary for the development of an adequate record. Pursuant to the further terms of 46 CFR 502.61, the initial decision of the presiding officer in this proceeding shall be issued by March 9, 2006 and the final decision of the Commission shall be issued by July 7, 2006.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Centers for Disease Control and Prevention

[30 Day-05-0414X]

#### Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 371-5983 or send an e-mail to [omb@cdc.gov](mailto:omb@cdc.gov). Send written comments to CDC Desk Officer, Human Resources and Housing Branch, Office of Management and Budget by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

#### Proposed Project

Ecology of Bats in Households: A Survey for Assessing Knowledge, Attitudes, and Health Risks—New—National Center for Infectious Diseases (NCID), Centers for Disease Control and Prevention (CDC).

Bats are associated with many different kinds of infectious diseases that may be pathogenic to humans. Anthropogenic change from urban

sprawl provides new roosts for bats in homes and buildings while reducing available natural roosts and putting humans in more frequent contact with bats. The largest public health concern with respect to bat exposure is the transmission of rabies virus—about 75% of human rabies deaths are from bat-associated rabies variants. The current U.S. guidelines for animal rabies prevention and control recommend that bats be excluded from houses and adjacent structures to prevent direct association with humans. While direct association with bats is certainly a risk factor for rabies transmission, little is known about the effects of indirect association with bats and potential adverse health effects. This is of public

health concern because many organizations actually promote interactions between bats and humans, without consideration of public health consequences.

The questionnaire will establish bat exposure history, general personal health history including frequency of post-exposure prophylaxis for rabies and knowledge and attitudes pertaining to bat roosts. The Colorado State University/United States Geological Survey (USGS) study provides both a background for bat and rabies virus ecology in the Fort Collins area, and the ability of conservation and health issues to be relayed to the public.

We will evaluate health outcomes among household members by

administering a survey focused on frequency and nature of hospital/clinic visits, frequency of bat exposure, and frequency of post-exposure prophylaxis (PEP) for rabies.

The list of households with roosts is provided by Colorado State University bat researchers, identified through radio-tagging of bats. We plan to improve the knowledge of the ecology of bats and associated rabies transmission by assimilating rabies prevalence data in a bat population with data regarding the roost ecology and bat/human interaction ecology in a rapidly sprawling suburban area, Ft. Collins, Colorado. There is no cost to the respondents other than their time. The total annualized burden hours are 178.

ANNUALIZED BURDEN TABLE

Respondents	Number of respondents	Number of responses/re-spondent	Average burden/response (in hours)
Households with Bats (n=45) .....	81	1	30/60
Households without Bats (n=153) .....	275	1	30/60

Dated: March 14, 2005.

**Health Resources and Services Administration**

**General Notice.**

**AGENCY:** Health Resources and Services Administration, HHS.

**ACTION:** General notice.

**Background**

This notice supplements the summer 2004 HRSA Preview which announced the availability of fiscal year (FY) 2005 funding for new and competing continuation applications for Healthy Start. Healthy Start, authorized under section 330H of the Public Health Service Act, strengthens communities to effectively address the causes of infant mortality, low birth weight and other poor perinatal outcomes for women and infants. Recently, new guidance became available with regards to funding FY 2005 Healthy Start programs.

**SUMMARY:** Following the Senate Committee's recommendation, the Health Resources and Services Administration (HRSA) will give

funding preference during the FY 2005 competition to current and former Healthy Start grantees, including those whose Healthy Start grant application was approved but not funded in FY 2004.

Senate Report 108-345 at 54 (2004) accompanying the Consolidated Appropriations Act, 2005 (Pub. L. 108-447) states "The Committee urges HRSA to give preference to current and former grantees with expiring or recently expired project periods. This should include grantees whose grant applications were approved but not funded during fiscal year 2004."
