Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Evaluation of the Refugee Social Service (RSS) and Targeted Assistance Formula Grant (TAG) Programs: Data Collection.

OMB No.: New Collection.

Description: The Office of Refugee Resettlement (ORR) within the U.S. Department of Health and Human Services (HHS) funds the Refugee Social Services (RSS) and Targeted Assistance Formula Grant (TAG) programs, which are designed to help refugees achieve economic success quickly following their arrival in the U.S. through employment services, English-language instruction, vocational training, and other social services. ORR is sponsoring a project to (1) conduct a comprehensive

evaluation of the effectiveness of ORR employability services through RSS and TAG, and (2) propose options for institutionalizing ongoing evaluation and performance assessment into the programs. ORR is requesting OMB clearance for three methods of information collection: (1) Interviews with state and local refugee program administrators and service providers in three sites to learn about service delivery and organizational arrangements, and with a small number of local employers who work with RSS- and TAG-funded service providers to learn about their experiences with the programs; (2) a sample of 1,125 refugees

to collect data on refugees' employment an earnings outcomes; (3) two to four focus groups with seven to ten program clients in each of the three sites to obtain customer perspectives of the services they received and their adjustment experiences.

Respondents

(1) Interviews will be conducted with three state refugee coordinators, voluntary agency (VOLAG) and Mutual Assistance Association (MAA) staff, local RSS and TAG service providers, and employers who employ significant numbers of refugees.

(2) The respondents of the survey are refugees who have been in the United

States for fewer than five years, and, thus, are eligible for RSS and TAG services. The survey relies on a mixed-mode data collection method that involves both telephone and in-person interviews. If individuals cannot be reached by phone, an attempt will be made to contact them in person.

Approximately 900 of the 1,125 refugees sampled will complete the survey over a nine-week period.

(3) Respondents of the focus groups will include refugees who have received RSS- and TAG-funded services. Approximately 70 refugees will participate in the focus groups.
