An application has been submitted to the Foreign-Trade Zones (FTZ) Board (the Board) by Dane County, Wisconsin, to establish a general-purpose foreign-trade zone at sites in Dane County, Wisconsin, adjacent to the Milwaukee Customs port of entry. The FTZ application was submitted pursuant to the provisions of the FTZ Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on March 17, 2005. The applicant is authorized to make the proposal under Wisconsin Statutes 01-02, Section 182.50. The proposed zone would be the second general-purpose zone in the Milwaukee, Wisconsin, Customs port of entry. Specific manufacturing requests are not being sought at this time. Requests would be made to the Board on a case-by-case basis.

#### Saccharin From the People's Republic of China: Notice of Extension of Time Limit for Preliminary Results of Antidumping Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** March 24, 2005.

**FOR FURTHER INFORMATION CONTACT:**

Blanche Ziv or Steve Williams, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-4207 or (202) 482-4619, respectively.

#### Background

On August 30, 2004, the Department of Commerce ("the Department") published a notice of initiation of administrative review of the antidumping duty order on saccharin from the People's Republic of China for nine exporters, covering the period December 27, 2002, through June 30, 2004. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 69 FR 52857 (August 30, 2004). The preliminary results for this review are currently due no later than April 2, 2005.

#### Extension of Time Limits for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), provides that the Department will issue the preliminary results of an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act provides further that the Department may extend that 245-day period to 365 days if it determines it is not practicable to complete the review within the foregoing time period.

The Department has determined that it is not practicable to complete the preliminary results by the current deadline of April 2, 2005. In particular, we require additional time to issue supplemental questionnaires, review the responses, and conduct the analysis of the valuation of the factors of production. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is fully extending the time limit for the preliminary results until no later than August 1, 2005, which is the next business day after 365 days from the last day of the anniversary month.

The final results continue to be due 120 days after publication of the preliminary results.

We are issuing this notice in accordance with section 751(a)(3)(A) of the Act.

Dated: March 18, 2005.

#### Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish Fisheries Management in the Bering Sea and Aleutian Islands Management Area and the Gulf of Alaska

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of availability; request for comments.

**SUMMARY:** The North Pacific Fishery Management Council (Council) has submitted for Secretary of Commerce (Secretary) review Amendment 83 to the Fishery Management Plan (FMP) for Groundfish of the Bering Sea and Aleutian Islands Management Area (BSAI) and Amendment 75 to the FMP for Groundfish of the Gulf of Alaska (GOA). If approved, the amendments would provide housekeeping revisions to the FMPs. The proposed revisions would update harvest, ecosystem, and socioeconomic information, consolidate text, and reorganize the documents. The intent of this action is to provide more recent information in the FMPs and to make them easier to read. This action will promote the goals and objectives of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the FMPs, and other applicable laws. Comments from the public are welcome.

**DATES:** Written comments on Amendments 83 and 75 must be received by May 23, 2005.

**ADDRESSES:** Send comments to Sue Salvesson, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region, NMFS, Attn: Lori Durall. Comments may be submitted by:

#### FOR FURTHER INFORMATION CONTACT:

Melanie Brown, phone: 907-586-7228 or e-mail: [melanie.brown@noaa.gov](mailto:melanie.brown@noaa.gov).

**SUPPLEMENTARY INFORMATION:** The Magnuson-Stevens Act requires that the Council submit any FMP amendment it prepares to the Secretary for review and approval, disapproval, or partial approval. The Magnuson-Stevens Act also requires that the Secretary, upon receiving an FMP amendment, immediately publish a notice in the **Federal Register** that the amendment is available for public review and comment.

The Council prepared and the Secretary approved the FMP for Groundfish of the GOA in 1978 and the FMP for Groundfish of the BSAI in 1981. Both FMPs have been amended numerous times.

Amendments 83 and 75 were unanimously recommended by the Council in December 2004. If approved by the Secretary, these amendments would: (1) update harvest, ecosystem, and socioeconomic information, (2) consolidate text, and (3) reorganize the documents. The intent of this action is to provide more recent information in the FMPs and to make them easier to read.

The Council also recommended revising the harvest specifications process set forth in the FMPs to be consistent with Amendments 81 and 74 to the FMPs (69 FR 31091, June 2, 2004). These amendments were approved by the Secretary in August 2004.

Amendments 81 and 74 added new policy objectives to the FMPs, including the objective to adopt conservative harvest levels for multi-species and single species fisheries. Amendments 83 and 75 would amend the FMPs' description of the harvest specifications process by adding the provision that total allowable catch for species or species groups be set equal to or less than the acceptable biological catch. This revision would ensure that harvest levels are set conservatively and consistent with the FMP management

policy and objectives to prevent overfishing.

Public comments are being solicited on proposed Amendments 83 and 75 through the end of the comment period stated (see **DATES**). All comments received by the end of the comment period on the amendments will be considered in the approval/partial approval/disapproval decision. Comments received after that date will not be considered in the approval/partial approval/disapproval decision on the amendments. To be considered, written comments must be received not just postmarked or otherwise transmitted by the close of business on the last day of the comment period.

Dated: March 18, 2005.
