

application package. The authorities for these grants vary. The term "grant" in this submission refers only to non-entitlement discretionary grants or cooperative agreements. Discretionary grant announcements include a number of information collections, including a "project description" (program narrative), budget information, assurances, and certifications. An optional faith-based survey form may also be included for the purpose of helping the Federal government determine the organizational nature of the applicant population, specifically when dealing with nonprofit organizations. The requirements for the program narrative statement are based on the requirements for program narrative statements described in section 1.c(5) of OMB Circular A-102 and OMB A-110 (as implemented at USDA 7 CFR Part 3015, 3016 and 3019); and will apply to all types of grantees—State and local governments, non-profit organizations, institutions of higher education, hospitals, and for profit organizations.

Need and Use of the Information: As the primary users of the information collected, FNS will review, evaluate and approve grant and cooperative agreement applications. The uniform grant application package will include general information and instructions; a checklist; a requirements for the program narrative statement describing how the grant objectives will be reached as well as a description of the budget; the Standard Form 424 series that requests basic information, budget information and assurances regarding Nonprocurement Debarment and Suspension, the Drug-Free Workplace rule, general assurances, a lobbying certification, and an optional survey form to ensure equal opportunity for applicants. Without this information, FNS will not have adequate data to select appropriate grantees or evaluate which grants should be continued.

Rural Utilities Service

Title: 7 CFR 1726, Electric System Construction Policies and Procedures—Electric.

OMB Control Number: 0572-0107.
Summary of Collection: The Rural Electrification Act of 1936, 7 U.S.C. 901 *et seq.*, as amended, (RE Act) in Sec. 4 (7 U.S.C. 904) authorizes and empowers the Administrator of the Rural Utilities Service (RUS) to make loans in the several States and Territories of the United States for rural electrification and the furnishing and improving of

electric energy to persons in rural areas. These loans are for a term of up to 35 years and are secured by a first mortgage on the borrower's electric system. In the interest of protecting loan security and accomplishing the statutory objective of a sound program of rural electrification, Section 4 of the RE Act further requires that RUS make or guarantee a loan only if there is reasonable assurance that the loan, together with all outstanding loans and obligations of the borrower, will be repaid in full within the time agreed. RUS will collect information using various RUS forms.

Need and Use of the Information: RUS will collect information to implement certain provisions of the RUS standard form of loan documents regarding the borrower's purchase of materials and equipment and the construction of its electric system by contract or force account. The information will be used by RUS electric borrowers and their contractors and by RUS. If standard forms were not used, borrowers would need to prepare their own documents at a significant expense; and each document submitted by a borrower would require extensive and costly review by both RUS and the Office of the General Counsel.
