NUCLEAR REGULATORY COMMISSION

Notice of Public Meeting of the Interagency Steering Committee on Radiation Standards

AGENCIES: Nuclear Regulatory Commission and Environmental Protection Agency.

ACTION: Notice of public meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) will host a meeting of the Interagency Steering Committee on Radiation Standards (ISCORS) on September, 27, 2005, in Rockville, Maryland. The purpose of ISCORS is to foster early resolution and coordination

of regulatory issues associated with radiation standards. Agencies represented on ISCORS include the NRC, U.S. Environmental Protection Agency, U.S. Department of Energy, U.S. Department of Defense, U.S. Department of Transportation, the Occupational Safety and Health Administration of the U.S. Department of Labor, U.S. Department of Health and Human Services, U.S. Department of Homeland Security. Representatives from the Office of Science and Technology Policy, Defense Nuclear Facilities Safety Board, Office of Management and Budget, State Department, Illinois Bureau of Radiation Safety, and Pennsylvania Bureau of Radiation Protection may be observers at meetings. The objectives of ISCORS are to: (1) Facilitate a consensus on allowable levels of radiation risk to the public and workers; (2) promote consistent and scientifically sound risk assessment and risk management approaches in setting and implementing standards for occupational and public protection from ionizing radiation; (3) promote completeness and coherence of Federal standards for radiation protection; and (4) identify interagency radiation protection issues and coordinate their resolution. ISCORS meetings include presentations by the chairs of the subcommittees and discussions of current radiation protection issues. Committee meetings normally involve pre-decisional intra-governmental discussions and, as such, are normally not open for observation by members of the public or media. ISCORS has adopted the practice of opening one of its meetings each year to all interested members of the public. There will be time on the agenda for members of the public to provide comments. The final agenda for the September meeting will be posted on the ISCORS Web site, <http://www.iscors.org>, shortly before the meeting. Participants are encouraged to (1) notify the contact below for pre-registration and (2) allow sufficient time for security screening prior to accessing the meeting.

DATES: The meeting will be held from 1 p.m. to 5 p.m. on Tuesday, September 27, 2005.

ADDRESSES: The meeting will be held in the NRC auditorium, at Two White Flint North, 11545 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION, CONTACT: Kyung Hee (Jessica) Shin, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone 301-

415-8117; fax 301-415-5397; e-mail KXS1@NRC.GOV.

SUPPLEMENTARY INFORMATION: Visitor parking around the NRC building is limited; however, the NRC auditorium is located adjacent to the White Flint Metro Station on the Red Line.

Dated at Rockville, MD, this 23rd day of August, 2005.

For the Nuclear Regulatory Commission.

Scott Flanders,

Deputy Director, Environmental and Performance Assessment Directorate, Division of Waste Management and Environmental Protection, Office of Nuclear Material Safety and Safeguards.

NUCLEAR REGULATORY COMMISSION

Notice of Opportunity To Comment on Model Safety Evaluation on Elimination of Typical License Condition Requiring Reporting of Violations of Section 2.C of Operating License Using the Consolidated Line Item Improvement Process

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for comment.

SUMMARY: Notice is hereby given that the staff of the Nuclear Regulatory Commission (NRC) has prepared a model safety evaluation (SE) relating to the elimination of the license condition involving reporting of violations of other requirements (typically in License Condition 2.C) in the operating license of some commercial nuclear power plants. The NRC staff has also prepared a model no significant hazards consideration (NSHC) determination relating to this matter. The purpose of these models is to permit the NRC to efficiently process amendments that propose to delete the reporting requirement. Licensees of nuclear power reactors to which the models apply could then request amendments, confirming the applicability of the SE and NSHC determination to its reactors. The NRC staff is requesting comment on the model SE and model NSHC determination prior to announcing their availability for referencing in license amendment applications.

DATES: The comment period expires 30 days from date of publication in the **Federal Register**. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.
