In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. I. The State's Submittal

A. What Rule Did the State Submit?

Rule 4550, Conservation Management Practices, and the List of Conservation Management Practices (CMP List), were adopted by the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) on May 20, 2004. Rule 4550 and the CMP List were readopted without change on August 19, 2004, and submitted by the California Air Resources Board (CARB) to EPA on September 23, 2005. On October 18, 2004, this submittal was found to meet the completeness criteria in 40 CFR part 51, appendix V, which must be met before formal EPA review.

B. Are There Other Versions of This Rule?

There are no previous versions of Rule 4550 or the CMP List in the SIP. Rule 4550 and the CMP List were readopted without change on August 19, 2004, to ensure a full and complete public notice process.

C. What Is the Purpose of the Submitted Rule?

Small particulate matter (PM-10) harms human health and the environment. CAA section 110(a) requires States to submit regulations that control PM-10 emissions. The San Joaquin Valley area (SJV) is a serious PM-10 nonattainment area. 40 CFR 81.305. As such, under CAA section 189(b)(1)(B), the nonattainment plan for the area must, among other things, provide for the expeditious implementation of best available control measures (BACM).

Because the SJV failed to attain the 24-hour and annual National Ambient Air Quality Standard (NAAQS) for PM-10 by the December 31, 2001, statutory deadline, pursuant to CAA section 189(d), California was required to submit a plan that provides for expeditious attainment and, from the date of the plan submission until attainment, for an annual reduction in PM-10 or PM-10 precursor emissions within the area of not less than 5% of the amount of such emissions as reported in the most recent inventory
