Title: Final Authorization for Hazardous Waste Management.

Abstract: In order for a State to obtain final authorization for a State hazardous waste program or to revise its previously authorized program, it must submit an official application to the EPA Regional office for approval. The purpose of the application is to enable EPA to properly determine whether the State's program meets the requirements of section 3006 of RCRA.

A State with an approved program may voluntarily transfer program responsibilities to EPA by notifying EPA of the proposed transfer, as required by 40 CFR 271.23. Further, EPA may withdraw a State's authorized program under § 271.23.

State program revision may be necessary when the controlling Federal or State statutory or regulatory authority is modified or supplemented. In the event that the State is revising its program by adopting new Federal requirements, the State shall prepare

and submit modified revisions of the program description, Attorney General's statement, Memorandum of Agreement, or such other documents as EPA determines to be necessary. The State shall inform EPA of any proposed modifications to its basic statutory or regulatory authority in accordance with § 271.21. If a State is proposing to transfer all or any part of any program from the approved State agency to any other agency, it must notify EPA in accordance with § 271.21 and submit revised organizational charts as required under § 271.6, in accordance with § 271.21. These paperwork requirements are mandatory under section 3006(a). EPA will use the information submitted by the State in order to determine whether the State's program meets the statutory and regulatory requirements for authorization.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 399 hours per response.

Estimated Number of Respondents: 50.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 19,968 hours.

Estimated Total Annualized Capital, O&M Cost Burden: \$0.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a

Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.
