

information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street, NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 295, Arlington, Virginia 22230 or send an e-mail to splimpto@nsf.gov. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Abstract: The National Science Foundation (NSF), Division of Human Resources Management (HRM), as part of its Workforce Planning efforts, is continuing to reengineer its business processes. Part of this reengineering effort is devoted to making the application and referral process for both internal and external applicants easier to use, more efficient and timely. Applicants apply on-line using a Web-based résumé, which prompts them to provide pertinent personal data necessary to apply for a position.

Use of the Information: The information is used by NSF to provide applicants with the ability to apply electronically for NSF positions and receive notification as to their qualifications, application dispensation and to request to be notified of future vacancies for which they may qualify.

In order to apply for vacancies, applicants are encouraged to submit certain data in order to receive consideration. Users only need access to the Internet for this system to work. This information is used to determine which applicants are best qualified for a position, based on applicant responses to a series of job related "yes/no" or "multiple choice" questions. The resume portion requires applicants to provide the same information they

would provide were they submitting a paper OF-612. The obvious benefit being that the applicant may do so online, 24 hours a day/seven days a week and receive electronic notification about the status of their application or information on other vacancies for which they may qualify. Staff members of the Division of Human Resource Management and the selecting official(s) for specific positions for which applicants apply are the only ones privy to the applicant data. The most significant data is not the applicant personal data such as address or phone number but rather their description of their work experience and their corresponding responses to those questions, which determine their overall rating, ranking, and referral to the selecting official.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 45 minutes to create the on line resume and potentially less than 45 minutes to apply for jobs on-line.

There is no financial burden on the applicant, infact this relieves much of the burden the former paper-intensive process puts on applicants.

Respondents: Individuals. 7971 applicants applied for NSF vacancies between October 2003 and September 2004.

Average Number of Applicants: Approximately 42 responses per job opening for vacancy announcements between October 2003 and September 2004.

Estimated Total Annual Burden on Respondents: Approximately 45 minutes per respondent total time is all that is needed to complete the on-line application, for a total of 5,978.25 hours annually.

Frequency of Responses: Applicants need only complete the resume one time, and they may use that resume to apply as often as they wish for any NSF job opening.

Dated: January 25, 2005.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

1:30 p.m.–1:35 p.m. Closed
1:35 p.m.–1:45 p.m. Closed
1:45 p.m.–3:30 p.m. Open

PLACE: The University of Texas El Paso (UTEP), Geological Sciences Building (Geology Building), 500 W. University Avenue, El Paso, TX 79968, <http://www.nsf.gov/nsb>.

FOR FURTHER INFORMATION CONTACT: NSF Information Center (703) 292-5111.

STATUS: Part of this meeting will be closed to the public.

Part of this meeting will be open to the public.

MATTERS TO BE CONSIDERED:

Tuesday, February 8, 2005

Open

Committee on Education & Human Resources (9:15 a.m.–10:30 a.m.), Room 308, Geological Sciences Building, UTEP

- Approval of Minutes
- Discussions on Strategic Plans for EHR Committee

Committee on Programs & Plans (10:45 a.m.–11:30 a.m.), Room 318, Geological Sciences Building, UTEP

- Approval of Minutes
- Working Group Report: Long-lived Data Collections Task Group: Status of Draft Report
- Report on Major Research Facilities: Status of Report and Facility Guide Revisions

Committee on Strategy & Budget (11:30 a.m.–12:15 p.m.), Room 318, Geological Sciences Building, UTEP

- Approval of Minutes
- Status of FY 2006 budget request to Congress

Executive Committee (12:30 p.m.–12:45 p.m.), Room 318, Geological Sciences Building, UTEP

- Approval of Minutes
- Updates or new business from Committee Members

Closed

Committee on Programs & Plans (10:30 a.m.–10:45 a.m.), Room 318, Geological Sciences Building, UTEP

- NSB Information—Inter-American Institute for Global Change Research

Committee on Strategy & Budget (12:15 p.m.–12:30 p.m.), Room 318, Geological Sciences Building, UTEP

- Discussion of budget and programmatic tradeoffs

Executive Committee (12:45 p.m.–1 p.m.), Room 318, Geological Sciences Building, UTEP

- Director's Items

Plenary Session of the Board (1:30 p.m.–3:30 p.m.)

Executive Closed Plenary Session (1:30 p.m.–1:35 p.m.), Room 318, Geological Sciences Building, UTEP

- Approval of Executive Closed Minutes

Closed Plenary Session (1:35 p.m.–1:45 p.m.), Room 318, Geological Sciences Building, UTEP

- Approval of Closed Session Minutes
- Closed Committee Reports

Open Plenary Session of the Board (1:45 p.m.–3:30 p.m.), Reading Room, Geological Sciences Building, UTEP

- Approval of Open Session Minutes
- Resolution to Close March 2005 Meeting
- NSB Chairman's Report
- NSF Director's Report
- Committee Reports

Michael P. Crosby,

Executive Officer, NSB.

BILLING CODE 7555–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 30–5980 and 30–5982; ASLBP No. 04–833–07–MLA]

Safety Light Corporation; Notice of Reconstitution

Pursuant to 10 CFR 2.321, the Atomic Safety and Licensing Board in the above captioned *Safety Light Corporation* proceeding is hereby reconstituted by appointing Administrative Judge Alan S. Rosenthal in place of Administrative Judge Ann M. Young.

In accordance with 10 CFR 2.302, henceforth all correspondence, documents, and other material relating to any matter in this proceeding over which this Licensing Board has jurisdiction should be served on Administrative Judge Rosenthal as follows: Administrative Judge Alan S. Rosenthal, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

Issued at Rockville, Maryland, this 25th day of January 2005.

G. Paul Bollwerk, III,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 030–31689]

Notice of Availability of Environmental Assessment and Finding of No Significant Impact for License Amendment for the Department of Health and Human Services' Facility in Kensington, MD

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability.

FOR FURTHER INFORMATION CONTACT:

Bryan A. Parker, Health Physicist, Commercial and R&D Branch, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, Pennsylvania, 19406, telephone (404) 562–4728, fax (610) 337–5269; or by email: bap@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission (NRC) is issuing a license amendment to the Department of Health and Human Services for Materials License No. 19–07538–05, to authorize release of its facility in Kensington, Maryland for unrestricted use. NRC has prepared an Environmental Assessment (EA) in support of this action in accordance with the requirements of 10 CFR Part 51. Based on the EA, the NRC has concluded that a Finding of No Significant Impact (FONSI) is appropriate. The amendment will be issued following the publication of this Notice.

II. EA Summary

The purpose of the action is to authorize the release of the licensee's Kensington, Maryland facility for unrestricted use. The Department of Health and Human Services was authorized by NRC from May 29, 1990, to use radioactive materials for research and development purposes at the site. On September 21, 2004, the Department of Health and Human Services requested that NRC release the facility for unrestricted use. The Department of Health and Human Services has conducted surveys of the facility and provided information to the NRC to demonstrate that the site meets the license termination criteria in Subpart E of 10 CFR Part 20 for unrestricted use.

The NRC staff has prepared an EA in support of the license amendment. The facility was remediated and surveyed prior to the licensee requesting the license amendment. The NRC staff has reviewed the information and final

status survey submitted by the Department of Health and Human Services. Based on its review, the staff has determined that there are no additional remediation activities necessary to complete the proposed action. Therefore, the staff considered the impact of the residual radioactivity at the facility and concluded that since the residual radioactivity meets the requirements in Subpart E of 10 CFR Part 20, a Finding of No Significant Impact is appropriate.

III. Finding of No Significant Impact

The staff has prepared the EA (summarized above) in support of the license amendment to release the facility for unrestricted use. The NRC staff has evaluated the Department of Health and Human Services' request and the results of the surveys and has concluded that the completed action complies with the criteria in Subpart E of 10 CFR Part 20. The staff has found that the environmental impacts from the action are bounded by the impacts evaluated by NUREG–1496, Volumes 1–3, "Generic Environmental Impact Statement in Support of Rulemaking on Radiological Criteria for License Termination of NRC-Licensed Facilities" (ML042310492, ML042320379, and ML042330385). On the basis of the EA, the NRC has concluded that the environmental impacts from the action are expected to be insignificant and has determined not to prepare an environmental impact statement for the action.

IV. Further Information

Documents related to this action, including the application for the license amendment and supporting documentation, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession number for the document related to this Notice is ML042680139. Please note that on October 25, 2004, the NRC terminated public access to ADAMS and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's Web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the Public Document Room pending resumption of public access to ADAMS. The NRC
