CEMENT IN DECEMBER 2007

This report provides monthly data on the shipments of cement to final customers, and the production of clinker, in the United States from January 2006 through the current month.¹ Data on the imports of cement and clinker for the current month are also provided.

Total shipments of portland and blended cement in the United States and Puerto Rico for December 2007 were about 6.1 million metric tons (Mt). This was 22.4% lower than shipments in December 2006 (tables 2A and 2B); the decline was aggravated by widespread cold weather. Shipments for 2007 overall totaled about 112 Mt, down by 9.5% compared with those for 2006. The leading producing States (Texas, California, Florida, Alabama, and Pennsylvania, in descending order) shipped about 41% of the December total (table 1A). The leading consuming States (Texas, California, Florida, Illinois, and Ohio, in descending order) received about 44% of December's total shipments (tables 2A and 2B).

Clinker production totaled about 7.5 Mt, about 3.1% lower than the production in December 2006 (table 4). Production for 2007 overall was 87.3 Mt, down by 3.0% from that of 2006. The

leading clinker-producing States (California, Texas, Pennsylvania, Alabama, and Florida, in descending order) produced about 41% of the December total.

Masonry cement shipments in December of about 219,000 metric tons were 35.0% lower than shipments for December 2006 (table 2C). Shipments for the full year 2007 were 4.28 Mt, down by 20.7% from those of 2006. The leading consuming States in December, in descending order, were Florida, California, Texas, North Carolina, and Georgia, and these States received almost 53% of the month's total shipments.

Tables 5, 6, and 7 contain import data from the U.S. Census Bureau. Data for clinker imports into the Seattle and possibly the Detroit customs districts remain incomplete owing to some shipments arriving overland from Canada on an informal entry basis. December 2007 imports of cement and clinker were about 1.5 Mt, down by about 24% from imports in December 2006. Imports for 2006 overall were about 22.7 Mt, down by about 37% from those of 2006.

An e-mail notification will be sent to MI-CEMENT list service subscribers when new publications or data releases become available. For more information, refer to USGS Minerals Information Publication List Services at URL: <http://minerals.usgs.gov/minerals/pubs/listservices.html>.

¹Footnoted revisions to the historical data are those received since the publication of the previous month's edition of this report. Data for the current month may contain revisions (not indicated by footnotes) received since the publication of the preliminary edition of the current month's report.
