22 DETAIL OF SALES, SHIPMENTS, RECEIPTS, OR REVENUE

(Report receipts by source either as a dollar figure or as a whole percent of total receipts (reported in §). See HOW TO REPORT DOLLAR FIGURES on page 2 and HOW TO REPORT PERCENTS above. Do not combine data for two or more receipts lines.)

- Line 1 Report receipts from wired or wireless telecommunications facilities to originate, terminate, or transit calls for another telecommunications service provider, including transoceanic telecommunications. Include interconnection and settlement charges for the termination of domestic or international calls, charges to long distance carriers for calls originating at a payphone or within another carriers local network, charges for jointly used facilities, such as pole attachments, and charges for the exclusive use of circuits. Satellite operators/carriers should report on the carrier services line if their customers are telecommunication companies. Non-telecommunications companies should report on line 7, Private network services.
- Line 2 Report receipts from the public switched telephone network (PSTN) for the transmission and switching of voice, data, and video within a local calling area. Include related local services, such as connection charges, 911 services, operator services, and local directory assistance; and subscriber line services to end user customers.
- Lines 2a and 2c Include call services that are self-defined in the carriers tariffs or other documents detailing the terms of service.
- Line 4 Report receipts from transmitting and switching of voice, data, and video over the public switched telephone network between local calling areas and where the call is made from a fixed customer location and is paid for by the caller.
- Line 5 Report receipts from calls made from a fixed customer location which are paid for by the call recipient.
- Line 7 Report receipts from wired or wireless (satellite, microwaves, cellular, etc.) telecommunication link(s) between specified points for the exclusive use of the client. Exclude the provision of private links to telecommunication service providers.
- Line 10 Report receipts from providing access to the public switched and/or mobile switching center telephone networks for the transmission and switching of voice, data, and video between local calling areas, where the call is made from or received with a portable handset. Include roaming charges.

DETAIL OF SALES, SHIPMENTS, RECEIPTS, OR REVENUE - Continued

- Line 11 Report receipts from providing access to the public switched and/or mobile switching center telephone networks for the transmission and switching of voice, data, and video, where the call originates from or terminates into a portable handset and where the charges are not distance sensitive.
- **Line 12** Report receipts from mobile radio service that subscribers primarily use to receive voice, text, or tone messages with small radio receivers. These devices may or may not be accessed by the public switched telephone network (PSTN).
- Line 13 Report receipts from non-switched radio transmission services, such as dispatch services for taxis or field service personnel and mobile data for police departments.
- **Line 14** Report receipts from providing specialized wireless applications, such as ship-to-shore, air-to-ground, and on-train wireless systems. In most cases the portable transmitter/receiver is supplied by the service provider and the service is billed a fixed charge plus usage or just fixed charges.
- Line 15 Report receipts from providing a direct connection to the Internet, wired or wireless, for the transmission of voice or data to fixed local telephone locations on the public switched telephone network. May include 911 service and a number to mimic a local fixed telephone number for the purpose of receiving calls from local fixed telephone users in the same local calling area. Include voice over Internet protocol (VOIP) and related Internet telephony services.
- Line 17e Report receipts from designing, developing, and implementing customer's networks, such as intranets, extranets, and virtual private networks. Exclude service contracts where this service is bundled with the day-to-day management of the client's network.
- **Line 19a** Report receipts from audio and/or video programming on a subscription basis in analog or digital mode by using a cable, satellite, or wireless terrestrial network. The programming is provided in packages that consist of a set of predefined channels or one time viewing packages. Also include charges for initial connection or reconnection to the network on the basic programming package.
- **Line 19a(1)** Report receipts from subscriber access to a basic range of programming services generally for a monthly fee. This package contains the minimum number of channels available to subscribers, as defined by each cable, satellite, or MDS operator, and must be purchased to obtain any higher-level programming package.

Line 22 - Report receipts from granting permission to use content protected as industrial property (i.e., by patent or trademark) owned or controlled by this establishment. Exclude outright sale of rights in perpetuity.
