

# Verify Status Update

EPA – Light-duty Industry Meeting

April 26, 2007

Washtenaw Community College

# Light Duty Modules

- Release 4a successfully implemented
- All Certification and Fuel Economy Information System (CFEIS) formatted data should be submitted through Verify
- Paper Test Waiver forms are replaced with web submissions.
- Certificates requested through Verify
- Applications and other document should be submitted through Verify.

# CFEIS Parts Retired

- Dial-In Server
- Automatic Certificate Generation (ACGM)
- Electronic Applications Processing (EAP)
- Compliance Information Web Screens (CIWS)
  - ACGM submission retired
  - In-use Verification Program (IUVP) submission to be retired soon

# Enhancements Coming

- Document batch submissions
- Node-to-Node submissions (General Motors has already successfully tested)
- Transaction status reports and other reports

# Light Duty Modules - Release 4b

- EPA data requirements are complete
- EPA schema complete for Confirmatory Test and Certification
- Requested mapping of CFEIS data elements to Verify data elements
  - Certification (complete)
  - Confirmatory Test (complete)
  - IUVP (In-Progress)
  - Fuel Economy (In-Progress)

# New Web Site for Verify

## www.epa.gov/otaq/verify

The screenshot shows a Microsoft Internet Explorer browser window displaying the EPA Verify website. The browser's address bar shows the URL <http://www.epa.gov/otaq/verify/>. The website header features the U.S. Environmental Protection Agency logo and the title "Verify: Engine and Vehicle Compliance System". A search bar is present with a "Go" button. The main content area includes a navigation menu on the left with links for "Verify Home", "Basic Information", "Frequent Questions", "Calendar", "Compliance Help", "Publications", and "Related Links". The main text describes the Verify system and provides a list of links for more information. A "System Information" box on the right states that all Verify production systems are currently operational. The footer contains contact information and a date stamp from March 26th, 2007.

### Verify: Engine and Vehicle Compliance System

[Contact Us](#)   **Search:**     

You are here: [EPA Home](#) » [Transportation and Air Quality](#) » [Verify](#)

EPA's Verify Engine and Vehicle Compliance Computer System collects emissions and fuel economy compliance information for all types of vehicles. The Verify System is used by engine and vehicle manufacturers to report this information to EPA. [Read more basic information.](#)

This site describes the Verify system in general. Manufacturers who need to use Verify to report to EPA must first register with EPA to access the system. [More information for manufacturers.](#)

The following page links help you to:

- [Basic Information](#): Learn more about the purpose of Verify.
- [Frequent Questions](#): Find out answers to questions about Verify, such as: What is the first step manufacturers must complete in order to use the Verify system? and What must a manufacturer do to be able to submit data to Verify?
- [Calendar](#): See the schedule of system releases and upcoming events.
- [Compliance Help](#): Find guidance for the regulated community to comply with EPA regulations.
- [Publications](#): Read and download Verify related documents and presentations.
- [Related Links](#): Find links to other certification and compliance activities.

This page is maintained by EPA's [Office of Transportation and Air Quality \(OTAQ\)](#).
