**U.S. Census Bureau***The Official Statistics**TIGER (Digital Map and Mapping Files)*

Title/software	Subjects	Geography	Price	Available
<b>TIGER/LINE Files, 1992 Version</b> —	Digital map data for 1990 census geographic areas, basic map features (streets, rivers, railroads, etc.) And their names, address ranges, and ZIP codes (in 345 core metropolitan areas) in the form of 14 record types.	Boundaries of legal entities and certain statistical areas such as blocks, census tracts, and BNAs.	\$100 per disc; \$1,760 for set of 44 discs.	Now
<b>LandView II</b> — CD92-LV2-1 to 11 ( <i>Software is an adaptation of MARPLOT DOS</i> )	Includes a subset of the facilities, sites, and monitoring stations represented in five EPA data bases; the Census Bureau's 1992 TIGER/Line file information which provides spatial characteristics of streets (with address ranges and ZIP codes), rivers, railroads, and other landmarks; it also contains 1990 census demographic and economic data from the Bureau of the Census, including population and housing characteristics drawn from two census data bases, Summary Tape Files a and 3A.	States, Congressional Districts (103rd), metropolitan areas, counties, cities, Indian reservations, census tracts and census block groups.	\$95 per disc or \$795 for 11-disc set.	Now
<b>TIGER/Census Tract Street Index, Version 2</b> — CD-CTSI-V.-01 to 06 ( <i>dBase; DOS and Windows-based software</i> )	Lists the streets, address ranges on each street, and the corresponding census tract or block numbering area (BNA) codes for each address range. Also shown for the address ranges are corresponding U.S. Postal ZIP Code and 103rd Congressional District numbers, as well as Federal Information Processing Standard (FIPS) state, county, county subdivision, and place codes.	Organized by groups of states and counties (or statistical equivalents)	\$90 per disc; \$400 for 6-disc set.	Now
<b>TIGER/Geographic Identification Code Scheme</b> — CD-TGR-GICS ( <i>dBase III+ format; modified GO software</i> )	Entity names, codes, selected geographic relationships, total population, total number of housing units, area measurements (land, total water, inland water, coastal water, Great Lakes water, and territorial water), and internal points for the high-level geographic entities listed; data dictionary (on the disc) identifies the data items reported in this file; internal points permit determination of approximate distances between entities.	Regions; divisions; states and statistically equivalent entities: District of Columbia, six territories under U.S. jurisdiction (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, Puerto Rico, and the Virgin Islands of the U.S.), and two freely associated entities (the Federated States of Micronesia and the Marshall Islands); American Indian and Alaska Native areas; counties and statistically equivalent entities; county subdivisions; places; metropolitan areas; and urbanized areas.	\$100	Now

GO is display-retrieval software; EXTRACT is data tabulation software; QuickTab and PUMA2DSK are tabulation and selection software.
