Note: This information represents financial data for public independent and dependent school systems. It includes state payments made on behalf of public school systems and excludes financial transactions of public nonschool entities. Expenditures for adult education, community services, and other nonelementary-secondary programs are included under "Current spending" and "Other current spending" but are excluded from these categories in the per pupil data displayed in Table 14. Expenditures for support services are not shown by size-group because support service expenditures in many school districts in California cannot be isolated by function. See Appendix B for a description of state-specific reporting anomalies.

¹ Enrollments reflect fall 1997 memberships reported to the National Center for Education Statistics in the Public Elementary-Secondary Education Agency Universe Survey.

Note: See Appendix B for a description of state-specific reporting anomalies. Revenues from and expenditures to other school systems are included in this table. Expenditures for adult education, community services, and other nonelementary/secondary programs are included under total general expenditure, total current spending, and other current spending, but are excluded in the per pupil data displayed in Table 17. Data for specific state revenue programs are generally comparable for school systems in the same state but are not for school systems in other states. Due to enrollments under 15,000, Maine, Montana, North Dakota, Vermont, and Wyoming are not shown on the individual unit tables.

\1 Includes amounts not shown separately.

Note: See Appendix B for a description of state-specific reporting anomalies. Where state accounting practices permit, revenues from other school systems are included under "Other local governments". Some data appear under local sources for Hawaii's state-operated school system for consistency with data presented for all other school systems. Due to enrollments under 15,000, Maine, Montana, North Dakota, Vermont, and Wyoming are not shown on the individual unit tables.
