

Geophysical Survey on Section 9 (PMRMA 2000), (3) Vapor Pathway Analysis (EPA 1998), (4) Assessment of Residual Ecological Risk Report (PMRMA 2002), and (5) Potential Ordnance/Explosives and Recovered Chemical Warfare Materiel (OE/RCWM) Hazards Report (PMRMA 2002).

EPA proposed the partial deletion of the Western Tier Parcel on September 23, 2002, by publishing a second NOIDp in the **Federal Register** (67 FR 59487). Comments received during the public comment period, which ended November 22, 2002, were primarily focused on how potential contamination or munitions would be addressed if found during development of the Parcel. EPA also received nine letters of support for proceeding with the partial deletion.

In our Responsiveness Summary, EPA explained that the Tri-County Health Department (TCHD) is coordinating with Commerce City, the most likely purchaser of the Parcel, to provide personnel who will be available to brief contractors about the RMA/NPL Site history before any activity begins on the Parcel. As the local regulatory agency overseeing remediation of the RMA/NPL Site, TCHD has direct knowledge of the possible construction hazards associated with RMA lands. If any unusual

material, stained soil, unusual objects, or odors are discovered, TCHD may call upon local Emergency Response resources (including Fire, Law Enforcement, and the bomb squad) or Army technicians to assist in identifying the nature of the anomaly.

The nine entities who support the partial deletion cite the thoroughness of investigations conducted by EPA, the U.S. Army, and CDPHE to ensure the Parcel is fully protective of public health and the environment. EPA agrees that the numerous studies conducted for the Parcel demonstrate that the Parcel does not present a threat to the environment or human health and it is appropriate to delete the Western Tier Parcel from the RMA/NPL Site.

EPA identifies sites that appear to present a significant risk to public health, welfare, or the environment and maintains the NPL as the list of those sites. Any site deleted from the NPL remains eligible for Fund-financed actions in the unlikely event that conditions at the site warrant such action. Section 300.425(e)(3) of the NCP states that Fund-financed actions may be taken at sites deleted from the NPL. Deletion of a site from the NPL does not affect responsible party liability or impede Agency efforts to recover costs associated with response efforts.
