NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice.

SUMMARY: NARA is giving public notice that the agency has submitted to OMB for approval the information collection described in this notice. The public is invited to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted to OMB at the address below on or before January 29, 2004, to be assured of consideration.

ADDRESSES: Comments should be sent to: Office of Information and Regulatory

Affairs, Office of Management and Budget, Attn: Mr. Jonathan Womer, Desk Officer for NARA, Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the proposed information collection and supporting statement should be directed to Tamee Fechhelm at telephone number 301-837-1694 or fax number 301-837-3213.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the general public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on October 1, 2003 (68 FR 56652 and 56653). No comments were received. NARA has submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for the proper performance of the functions of NARA; (b) the accuracy of NARA's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of information technology. In this notice, NARA is soliciting comments concerning the following information collection:

Title: Contractor/Agency Reviewer Identification Badge Authorization.

OMB number: 3095-NEW.

Agency form number: NA Form 6000B.

Type of review: Regular.

Affected public: Business or for-profit, Federal government.

Estimated number of respondents: 600.

Estimated time per response: 3 minutes.

Frequency of response: On occasion.

Estimated total annual burden hours: 30 hours.

Abstract: The collection of information is necessary as a security measure to protect employees, information, and property in NARA facilities, and to facilitate the issuance of badges and cards. Use of the form is authorized by 44 U.S.C 2104. At the NARA College Park facility, individuals receive a proximity card with the identification badge that is electronically coded to permit access to

secure zones ranging from a general nominal level to stricter access levels for classified records zones. The proximity card system is part of the security management system that meets the accreditation standards of the Government intelligence agencies for storage of classified information and serves to comply with E.O. 12958.

Dated: December 19, 2003.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Office of Presidential Libraries; Proposed Disposal of Superseded Version of Clinton Administration Electronic Mail Records

AGENCY: National Archives and Records Administration (NARA).

ACTION: Presidential Records Act notice of proposed disposal of superseded version of Clinton Administration electronic mail records; request for public comment.

SUMMARY: The National Archives and Records Administration (NARA) has identified an incomplete version of Presidential records on electronic media, housed at the National Archives at College Park, Maryland facility, as appropriate for disposal under the provisions of 44 U.S.C. 2203(f)(3). This notice describes the records and our reasons for determining that the records have insufficient administrative, historical, informational, or evidentiary value to warrant their continued preservation, in light of the fact that NARA is maintaining a comprehensive set of the same records on a different set of electronic media. NARA will review timely public comments received on this notice before making a final determination on the disposal of the records.

This notice does not constitute a final agency action, as described in 44 U.S.C. 2203(f)(3), and no Presidential records will be disposed of following this notice. NARA will publish a second notice only after it has considered any comments received during this 45-day notice. The second, 60-day notice will constitute a final agency action, in the event NARA proceeds with disposal.

DATES: Comments must be received by February 13, 2004.

ADDRESSES: Comments regarding the proposed disposal of these Presidential records must be sent in writing to the

Assistant Archivist for Presidential Libraries, National Archives and Records Administration (NL), 8601 Adelphi Road, College Park, Maryland 20740-6001 or by fax to 301-837-3199; or by e-mail to sharon.fawcett@nara.gov.

FOR FURTHER INFORMATION CONTACT: Sharon Fawcett at 301-837-3250.

SUPPLEMENTARY INFORMATION: The following materials are proposed for disposal because NARA has determined that they lack continuing administrative, historical, informational, or evidentiary value.

NARA is proposing the disposition of 27,866 class 3480 magnetic tape cartridges, consisting of an incomplete set of e-mail records created from July 15, 1994 through December 1999, and originally captured on the Automated Records Management System (ARMS) as created by staff in the Executive Office of the President (EOP) during the Clinton Administration. ARMS consisted of an electronic recordkeeping system for the preservation of e-mail records and any attachments thereto, plus pager and calendar records. These cartridges were transferred to NARA at the end of the Clinton Administration.

ARMS records on the 27,866 cartridges were in turn subject to reformatting pursuant to a Memorandum of Understanding entered into between NARA and the EOP, signed on October 6 and 8, 1999, respectively (1999 MOU). Under the 1999 MOU, NARA requested that the EOP Office of Administration (OA) convert attachments from hexadecimal to native format. NARA also asked OA to format the files to contain as many records as would fit in a single file. This reformatting resulted in reducing the number of tape cartridges necessary to store the records from approximately 28,000 down to 4,000. Accordingly, OA produced and transferred to NARA a second set of approximately 4,000 tape cartridges in a NARA-preferred format.

The latter reformatted set of cartridges also reflects the results of OA conducting an extensive Tape Restoration Project (TRP), pursuant to a second MOU between NARA and OA entered into on January 11, 2001, aimed at ensuring that a comprehensive set of e-mail records from the Clinton Administration be transferred to NARA. This restoration work has been completed, and as a result a separate and comprehensive set of Clinton Administration Presidential record e-mail records, as well as pager and calendar entries, currently resides on the 4,000 cartridges, in a preservation master copy set, and in an automated

database operated and maintained by NARA staff. These latter collections, which incorporate the work of the TRP, contain approximately 1 million additional e-mail records that were not originally captured by ARMS and which are not otherwise preserved on the 27,866 cartridges at issue. (E-mail records on these cartridges separately covered under the Federal Records Act have also been captured on the 4,000 cartridges and will be included in the automated database, and thus may be disposed of under existing Federal Records Act disposition authority.)

The copies of Presidential e-mail records contained on the 27,866 cartridges constitute an incomplete and superseded subset of the Presidential e-mail record series from the Clinton Administration EOP that NARA has otherwise obtained in electronic form. NARA will be fully able to respond to future access requests for Clinton Administration e-mail records from the EOP through the above-described database, and has no need or use for the additional set of these records contained on these cartridges.

Dated: December 19, 2003.

Assistant Archivist for Presidential Libraries.

BILLING CODE 7515-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-317 and 50-318]

Calvert Cliffs Nuclear Power Plant, Inc., Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2; Exemption

1.0 Background

Calvert Cliffs Nuclear Power Plant, Inc. (CCNPP) or the licensee) is the holder of Renewed Facility Operating License Nos. DPR-53 and DPR-69, which authorizes operation of Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 (CCNPP1-2). The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the U.S. Nuclear Regulatory Commission (NRC, the Commission) now or hereafter in effect.

The facility consists of two pressurized-water reactors located in Calvert County, Maryland.

2.0 Purpose

Section IV.F.2.b of Appendix E, to 10 CFR part 50 requires each licensee at each site to conduct an exercise of its onsite emergency plan every 2 years and

indicates the exercise may be included in the full participation biennial exercise required by paragraph 2.c of the same section. In addition, licensees are to take actions necessary to ensure that adequate emergency response capabilities are maintained during the interval between biennial exercises by conducting drills. Paragraph 2.c requires offsite plans for each site to be exercised biennially with full participation by each offsite authority having a role under the plan. Normally during such biennial full participation exercises, the NRC evaluates onsite and the Federal Emergency Management Agency (FEMA) evaluates offsite emergency preparedness activities. The licensee must coordinate and schedule an exercise that involves multiple governmental agencies at the Federal, State, and local level. Many local response organizations depend on volunteers. In order to accommodate this task, the NRC has allowed licensees to schedule full participation exercises at any time during the calendar biennium. This gives the licensee the flexibility to schedule the exercise within a 12- to 36-month window and still meet the biennial requirement specified in the regulations.

The licensee was scheduled to conduct a biennial full participation exercise on October 21, 2003. The licensee has requested a temporary exemption to 10 CFR part 50, Appendix E, Section IV.F.2.c that would reschedule the planned offsite full-participation emergency exercise from 2003 to 2004 and subsequent exercises would be scheduled biennially from the year 2003. The most recently evaluated biennial full-participation exercise at CCNPP was conducted on September 9, 2002.

3.0 Discussion

Pursuant to 10 CFR 50.12, the Commission may, upon application by any interested person or upon its own initiative, grant exemptions from the requirements of 10 CFR part 50, when (1) the exemptions are authorized by law, will not present an undue risk to public health or safety, and are consistent with the common defense and security; and (2) when special circumstances are present. Under § 50.12(a)(2), special circumstances include, among other things, when application of the regulation in the particular circumstance would not serve, or is not necessary to achieve, the underlying purpose of the rule.

The underlying purpose of 10 CFR part 50, Appendix E, Section IV.F.2.c is to establish requirements for the biennial exercise of offsite emergency
