II. Information on the Document

This discussion document and the consultation workshop of neurotoxicology experts are part of the preparation of an IRIS Toxicological Review of Tetrachloroethylene (Perchloroethylene, or perc) by NCEA. In a review of the published literature, NCEA has found that impairment of visual information processing and other adverse neurobehavioral effects have been observed in several studies of employees working in dry cleaning and metal degreasing facilities using perc. Two studies of people living near dry cleaning facilities have also shown neurological effects, and their exposures have been at lower concentrations than the occupationally exposed workers. The discussion document reviews the published reports of neurotoxic effects of perc in humans and animals and discusses the strengths and limitations of the evidence of neurotoxicity. NCEA decided to seek consultation of experts in neurotoxicology to get their opinions about whether these findings for perc and similar findings for other agents imply that perc exposure to the general population results in an appreciable risk of deleterious neurological effects.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's public notice, CC Docket No. 96-45, released October 7, 2003. On June 12, 2003, NPCR, Inc. d/b/a Nextel Partners (Nextel Partners TN) filed with the Commission a petition under section 214(e)(6) of the Communications Act of 1934, as amended. In particular, Nextel Partners TN seeks designation as an eligible telecommunications carrier (ETC) to receive federal universal service support for service offered in those portions of Nextel Partners TN's licensed service area located in rural study areas in Tennessee currently served by BellSouth and United Inter MT-TN (United).

Nextel Partners TN contends that the Tennessee Regulatory Authority (TRA) does not regulate Commercial Mobile Radio Service and presents a letter from TRA acknowledging its lack of jurisdiction. Hence, according to Nextel Partners TN, the Commission has jurisdiction under section 214(e)(6) to consider and grant its petition. Nextel Partners TN also maintains that it satisfies all the statutory and regulatory prerequisites for ETC designation, and that designating Nextel Partners TN as an ETC will serve the public interest.

In accordance with § 54.207(c) of the Commission's rules, Nextel Partners TN requests that the Commission designate Nextel as an ETC in a service area defined along boundaries that differ from the incumbent rural local exchange carrier's study area boundaries. The service area requested by Nextel Partners TN for ETC designation partially covers United's study area. Nextel Partners TN requests a redefinition of United's rural service

area so each wire center in United's study area is a separate service area. Nextel Partners TN intends to serve each proposed wire center in its entirety. Nextel Partners TN maintains that the proposed redefinition of service areas for ETC purposes is consistent with the factors to be considered when redefining a rural telephone company service area, as enumerated by the Federal-State Joint Board on Universal Service. (Joint Board). The Wireline Competition Bureau seeks comment on the Nextel Partners TN Petition.

The petitioner must provide copies of its petition to the TRA. The Commission will also send a copy of this public notice to the TRA by overnight express mail to ensure that the TRA is notified of the notice and comment period.
