V. Conclusion: Analysis of the Environmental Assessment Submitted by the Sponsor

On the basis of the Final Environmental Assessment, the Department's independent review of that assessment, information developed during the review of the application and Environmental Assessment, comments received by the Department from Federal and state agencies and the public, and measures that Valero has or is prepared to undertake to mitigate prevent potentially adverse environmental impacts, the Department has concluded that issuance of a Presidential Permit authorizing construction of the proposed Dos Laredos Pipeline would not have a significant impact on the quality of the human environment within the United States. Accordingly, a Finding of No Significant Impact is adopted and an environmental impact statement will not be prepared.

The Final Environmental Assessment addressing this action is on file and may be reviewed by interested parties at the Department of State, 2200 C Street NW., Room 3535, Washington, DC 20520 (Attn: Mr. Pedro Ertivi, Tel. 202-647-1291).
