SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-48526; File No. SR-NSCC-2003-14]

Self-Regulatory Organizations; National Securities Clearing Corporation; Order Granting Approval of a Proposed Rule Change Relating to Anonymity Features on Trading Systems

September 23, 2003.

I. Introduction

On June 19, 2003, the National Securities Clearing Corporation ("NSCC") filed with the Securities and Exchange Commission ("Commission") and on June 23, 2003, amended proposed rule change SR-NSCC-2003-14 pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934

("Act").¹ Notice of the proposal was published in the **Federal Register** on July 11, 2003.² No comment letters were received. For the reasons discussed below, the Commission is granting approval of the proposed rule change.

II. Description

Pursuant to the rule filing, NSCC is adding language to Section II.C.1 of NSCC Rules and Procedures³ whereby NSCC may receive locked-in trade data from a self-regulatory organization ("SRO") that operates a trading system that provides trade anonymity.⁴ If trade data received from an SRO is from an anonymous trade, NSCC in reporting back to its members may report such trades identifying as the contraside an acronym selected by the SRO instead of naming the actual contraside. In the case of anonymous trades, the contraside shall be deemed to be one of the entities the SRO includes as an entity eligible to participate in the anonymous trading system. New language is also being added to Section II.C.1 to provide that if NSCC ceases to act for a member which is the unnamed contraside of an anonymous trade or trades and if NSCC determines that the anonymous trade or trades should be exited from trade processing, the SRO providing the anonymous trading system will be responsible for identifying to other members which of their trades are with the member for which NSCC has ceased to act.

In connection with this filing, the National Association of Securities Dealers, Inc. ("NASD") filed and the Commission approved a proposed rule change that allows the NASD to add an anonymity feature to the Nasdaq Stock Market's SuperMontage trading system.⁵

I. Discussion

Section 17A(b)(3)(F) of the Act requires, among other things, that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions.⁶ The trade anonymity feature is a valued service that trading

systems like the Nasdaq want to be able to provide to their members. The Commission finds that by amending its rules to provide for the clearance and settlement of anonymous trades, NSCC's proposed rule change should help to promote the prompt and accurate clearance and settlement of such transactions.

IV. Conclusion

On the basis of the foregoing, the Commission finds that the proposed rule change is consistent with the requirements of the Act and in particular Section 17A of the Act and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (File No. SR-NSCC-2003-14) be and hereby is approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.⁷

Deputy Secretary.
