

Third, the Commission believes that the Nasdaq-100 would be difficult to manipulate based on the wide range of instruments that provide economic exposure to the Index. Finally, Nasdaq's surveillance procedures will serve to deter as well as detect any potential manipulation. The Commission also notes that the value of the Nasdaq-100 Index is disseminated every 15 seconds over the Nasdaq Trade Dissemination System.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**. Nasdaq has requested accelerated approval in order to begin listing and trading the PLUS immediately. In determining to grant the accelerated approval for good cause, the Commission notes that the Nasdaq-100 Index is an index of large, actively traded securities listed on the Nasdaq. Additionally, the PLUS will be listed pursuant to existing hybrid security listing standards as described above. Moreover, the Nasdaq-100 Index's weighting methodology is a commonly applied index calculation method. The Commission believes that the Notes will provide investors with an additional investment choice and that accelerated approval of the proposal will allow investors to begin trading the Notes promptly. Based on the above, the Commission finds, consistent with sections 15A(b)(6)²² and 19(b)²³ of the Act, that there is good cause for accelerated approval of the product.

The Commission is approving Nasdaq's proposed listing and trading standards for the PLUS. The Commission specifically notes that, notwithstanding approval of the listing standards for the PLUS, other similarly structured products will require review by the Commission prior to being trading on Nasdaq.

V. Conclusion

It is therefore ordered, pursuant to section 19(b)(2) of the Act,²⁴ that the proposed rule change (SR-NASD-2003-100) is hereby approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²⁵

Margaret H. McFarland,
Deputy Secretary.

DEPARTMENT OF STATE

[Public Notice 4387]

Office of Visa Services; 60-Day Notice of Proposed Information Collection: Form DSP-122, Supplemental Registration for the Diversity Immigrant Visa Program; OMB Control Number 1405-0098

AGENCY: Department of State.

ACTION: Notice.

SUMMARY: The Department of State is seeking Office of Management and Budget (OMB) approval for the information collection described below. The purpose of this notice is to allow 60 days for public comment in the **Federal Register** preceding submission to OMB. This process is conducted in accordance with the Paperwork Reduction Act of 1995.

The following summarizes the information collection proposal to be submitted to OMB:

Type of Request: Extension of currently approved collection.

Originating Office: Bureau of Consular Affairs, Department of State (CA/VO).

Title of Information Collection: Supplemental Registration For The Diversity Immigrant Visa Program.

Frequency: Once per respondent.

Form Number: DSP-122.

Respondents: Aliens applying for a Diversity Visa.

Estimated Number of Respondents: 50,000 per year.

Average Hours Per Response: .5 hours.

Total Estimated Burden: 25,000 hours per year.

Public comments are being solicited to permit the agency to:

- Evaluate whether the proposed information collection is necessary for the proper performance of the functions of the agency.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the reporting burden on those who are to respond, including through the use of automated collection techniques or other forms of technology.

FOR FURTHER INFORMATION CONTACT:

Public comments, or requests for additional information regarding the collection listed in this notice should be directed to Brendan Mullarkey of the Office of Visa Services, U.S. Department of State, 2401 E St. NW., RM L-703,

Washington, DC 20520, who may be reached at 202-663-1163.

Dated: June 4, 2003.

Janice L. Jacobs,

Deputy Assistant Secretary of State for Visa Services, Bureau of Consular Affairs, Department of State.

BILLING CODE 4710-06-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[U.S. DOT Docket Number NHTSA-02-14038]

Reports, Forms, and Recordkeeping Requirements

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation.

ACTION: Request for public comment on proposed collection of information.

SUMMARY: Before a Federal agency can collect certain information from the public, it must receive approval from the Office of Management and Budget (OMB). Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatement of previously approved collections.

This document describes one collection of information for which NHTSA intends to seek OMB approval.

DATES: Comments must be received on or before August 26, 2003.

ADDRESSES: Comments must refer to the docket notice number cited at the beginning of this notice and be submitted to Docket Management, Room PL-401, 400 Seventh Street, SW., Washington, DC 20590. It is requested, but not required, that 2 copies of the comment be provided. The Docket Section is open on weekdays from 10 a.m. to 5 p.m.

FOR FURTHER INFORMATION CONTACT: Complete copies of each request for collection of information may be obtained at no charge from Dr. George Mouchahoir, NHTSA 400 Seventh Street, SW., Room 5313-E, NVS-113, Washington, DC 20590. Dr. Mouchahoir's telephone number is (202) 366-4919. Please identify the relevant collection of information by referring to this Docket Number (Docket Number NHTSA-02-14038).

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995,

before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) How to enhance the quality, utility, and clarity of the information to be collected;

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information:

Title: Final rule, response to petitions for reconsideration; Phase-in reporting requirements.

OMB Control Number: None.

Affected Public: Manufacturers of passenger cars, and trucks and multipurpose passenger vehicles with a gross vehicle weight rating (GVWR) of 3,855 kilograms (8,500 pounds) or less, and of buses with a GVWR of 4,536 kilograms (10,000 pounds) or less.

Form Number: None.

Number of Respondents: From existing phase-in reporting requirements (Part 596) for this standard, we expect about 20 respondents.

Estimated Annual Burden: Since almost all of the information required is already recorded by the manufacturers as part of their production control and tracking systems, a nominal assessment of 60 total burden hours per respondent is estimated for data retrieval and report preparation. The estimated cost per hour in dollars is \$35. Based on this estimate, the total annual burden for manufacturers would be: (20 respondents) × (60 total burden hours per respondent) × (\$35 per hour) = \$42,000.

Abstract: NHTSA issued a final rule establishing FMVSS No. 225, "Child restraint anchorage systems," in March 1999 (64 FR 10786). A final rule, response to petitions for reconsideration is prepared to respond to remaining outstanding issues raised by petitions for reconsideration of the agency's March 1999 final rule, and of the agency's previous responses to petitions, published in August 1999 (64 FR 47566) and July 2000 (65 FR 46628). The final rule is published in today's edition of the **Federal Register** (RIN 2127-AH99, Docket Number NHTSA-03-15438).

The final rule resolves the issue of the appropriateness of the 15,000 N strength requirement for tether and lower anchorages (S6.3 and S8.1 of FMVSS No. 225) and the 11,000 N strength requirement for the lower anchorages only (S9.4.1(a)). Those strength requirements are, for the most part, unchanged from the March 1999 final rule. However, this final rule makes several important amendments to requirements of the standard relating to how the 15,000 and 11,000 N loads are applied and how the agency determines compliance with the requirements. Examples of these are the change from the 125 mm displacement criterion for the tether anchorage to one that determines whether the anchorage withstood the force by assessing the deformation of the structure; and the change in the load application rate for the 11,000 N load for the lower anchorages from 10 seconds to 1 second. The agency has determined that these changes may necessitate the reassessment by manufacturers of some vehicle models as to whether the vehicles comply with the amended standard. Further, some manufacturers may need more time than the period from now until August 31, 2004 to make whatever changes are needed to the structure of the vehicles to meet the new requirements. Because of this, this final rule gives vehicle manufacturers an additional year, for a few model lines, to assess whether their vehicles meet this rule's amended strength requirements and to make necessary changes to meet the requirements. Ninety (90) percent of the vehicles they manufacture on or after September 1, 2004 and before September 1, 2005 must be certified as meeting the amended strength requirements. One hundred (100) percent of the vehicles manufactured on or after September 1, 2005 must be certified as meeting the requirements. Thus, a new phase-in schedule is being established to make it easier for manufacturers to comply with

the permanent requirements. The collection of information is used for recordkeeping to keep track of covered vehicles, and for reporting to the agency the covered vehicles that comply with the requirements.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued on: June 19, 2003.

Stephen R. Kratzke,

Associate Administrator for Rulemaking.

BILLING CODE 4910-59-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 34358]

New York and Eastern Railway LLC—Lease, Operation, and Future Purchase Exemption—New York Central Lines, LLC and CSX Transportation, Inc.

New York and Eastern Railway LLC (NY&E), a noncarrier, has filed a notice of exemption under 49 CFR 1150.31 to lease and operate, pursuant to an agreement¹ entered into with New York Central Lines, LLC (NYC) and CSX Transportation, Inc. (CSXT), approximately 4.7 miles of rail line and associated property presently owned by NYC and operated by CSXT extending from milepost QCO 0.0 (approximately Valuation Station 60+80), to milepost QCO 3.2 (approximately Valuation Station 113+10) and from milepost QCK 29.5 (approximately Valuation Station 2331+25) to milepost QCK 31.0 (approximately Valuation Station 2266+00), a total of approximately 44.91 acres, in the Town and City of Poughkeepsie, Dutchess County, NY. In addition, the agreement gives NY&E an option to purchase the rail property which NY&E anticipates exercising within several months after instituting operations under the lease.

NY&E certifies that its projected annual revenues will not exceed those that would qualify it as a Class III rail

¹ NY&E states that the agreement is to become effective on July 15, 2003.
