

conditions, the plan will outline the kinds of resource management activities, visitor activities, and developments that would be appropriate in the park. Among the topics that will be addressed are protection of natural and cultural resources, protection of riparian resources, appropriate range of visitor uses, impacts of visitor uses, adequacy of park infrastructure, visitor access to the park, education and interpretive efforts, wilderness suitability, park partnerships, and external pressures on the park. In cooperation with local, State, tribal, and other Federal agencies, attention will also be given to cooperative efforts to address issues that affect the integrity of Saguaro National Park, such as the management of the urban/park interface, traffic congestion in and around the park, fires, threatened and endangered species and their habitat, and biological corridors that lead into and out of the park.

A range of reasonable alternatives for managing the park, including a no-action and preferred alternative, will be developed through the planning process and included in the EIS. The EIS will evaluate the potential environmental impacts of the alternatives.

As the first phase of the planning and EIS process, the National Park Service is beginning to scope the issues to be addressed in the GMP/EIS. All interested persons, organizations, and agencies are encouraged to submit comments and suggestions regarding the issues or concerns the GMP/EIS should address, including the suitable range of alternatives and appropriate mitigating measures, and the nature and extent of potential environmental impacts.

DATES: Written comments on the scope of the general management plan/ environmental impact statement will be accepted for 60 days beyond the publication of this notice of intent. In addition, public scoping sessions will be held in Tucson and surrounding communities in the winter of 2003. Locations, dates, and times of these meetings will be provided in local and regional newspapers, and on the Internet at <http://www.nps.gov/sagu>.

ADDRESSES: Written comments or requests to be added to the project mailing list should be directed to: Sarah Craighead, Superintendent, Saguaro National Park, 3693 S. Old Spanish Trail, Tucson, AZ 85730 telephone (520) 733-5101; e-mail: sagu_information@nps.gov.

FOR FURTHER INFORMATION CONTACT: Superintendent, Sarah Craighead, Superintendent, Saguaro National Park, 3693 S. Old Spanish Trail, Tucson, AZ

85730 telephone (520) 733-5101. General information about Saguaro National Park is available on the Internet at <http://www.nps.gov/sagu> and <http://friendsofsaguaro.org>.

SUPPLEMENTARY INFORMATION: Please submit Internet comments as a text file avoiding the use of special characters and any form of encryption. Be sure to include your name and return street address in your Internet message.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that their home addresses be withheld from the public record, which will be honored to the extent allowable by law. Requests to withhold names and/or addresses must be stated prominently at the beginning of the comments. However, submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Dated: February 3, 2003.

Karen P. Wade,

Director, Intermountain Region.

Notice of Availability of a Draft Environmental Impact Statement for Schuylkill River Valley National Heritage, Management Plan Update

AGENCY: National Park Service, Department of Interior.

ACTION: Availability of draft environmental impact statement for the Schuylkill River Valley National Heritage Area Management Plan Update.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the National Park Service announces the availability of a Draft Environmental Impact Statement (DEIS) for Schuylkill River Valley National Heritage Area Management Plan Update. The Schuylkill River Valley National Heritage Area Act of 2000 requires the Schuylkill River Greenway Association, with guidance from the National Park Service, to prepare an update of their 1995 Schuylkill Heritage Corridor Management Action Plan. The Management Plan Update is expected to include: (A) Actions to be undertaken by units of government and private

organizations to protect the resources of the Heritage Area; (B) an inventory of the resources contained in the Heritage Area, including a list of any property in the Heritage Area that is related to the themes of the Heritage Area and that should be preserved, restored, managed, developed, or maintained because of its natural, cultural, historical, recreational, or scenic significance; (C) a recommendation of policies for resource management that considers and details application of appropriate land and water management techniques, including the development of intergovernmental cooperative agreements to protect the historical, cultural, recreational, and natural resources of the Heritage Area in a manner consistent with supporting appropriate and compatible economic viability; (D) a program for implementation of the management plan by the management entity; (E) an analysis of ways in which local, State, and Federal programs may best be coordinated to promote the purposes of this title; and (F) an interpretation plan for the Heritage Area.

The study area, designated as the Schuylkill River Valley National Heritage, includes parts of the counties of: Schuylkill, Berks, Chester, Montgomery and Philadelphia in southeastern Pennsylvania as associated with the Schuylkill River corridor.

The National Park Service (NPS) maintains two park sites within the region: Valley Forge National Historical Park and the Hopewell Furnace National Historic Site. Otherwise the majority of land is non-federal and the NPS assumes a management role only within their park units. Instead, conservation, interpretation and other activities are managed by partnerships among federal, state, and local governments and private nonprofit organizations. The Schuylkill River Greenway Association manages the national heritage area. The National Park Service has been authorized by Congress to provide technical and financial assistance for a limited period (up to 10 years from the time of the designation in 2000).

DATES: The DEIS will remain on Public Review for sixty days from the publication of the notice in the **Federal Register** by the Environmental Protection Agency.

FOR FURTHER INFORMATION CONTACT: Peter Samuel, Project Leader, Philadelphia Support Office, National Park Service, U.S. Custom House, 200 Chestnut Street, Philadelphia, PA 19106, peter_samuel@nps.gov, 215-597-1848.

If you correspond using the Internet, please include your name and return address in your e-mail message. Our practice is to make comments, including names and home addresses of respondents, available for public review. Individual respondents may request that we withhold their home address from the record, which we will honor to the extent allowable by law. There also may be circumstances in which we would withhold from the record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representative or officials of organizations or businesses, available for public inspection in their entirety.

Dated: February 13, 2002.

Pat Phelan,

Associate Regional Director, Administration, Northeast Region.

National Park Service

Ala Kahakai National Historic Trail Comprehensive Management Plan, County of Hawaii, HI; Notice of Intent To Prepare an Environmental Impact Statement

Summary: Pursuant to provisions in § 102(2)(c) of the National Environmental Policy Act of 1969 (Pub. L. 91-190), the National Park Service is initiating conservation planning and environmental impact analysis for a Comprehensive Management Plan (CMP) for the recently designated Ala Kahakai National Historic Trail. This effort will provide an Environmental Impact Statement (EIS) and CMP that encompasses protection of sacred, cultural and natural resources, visitor use and interpretation, and facilities. This National Historic Trail traces approximately 175 miles of the prehistoric coastal Ala Loa ("long trail") on the island of Hawaii, from Upolu Point on the northern tip of the island, south along the entire west coast, around Ka Lae (South Point), and then up to the eastern boundary of Hawaii Volcanoes National Park. The original trail linked many pre-contact communities on the island, as well as

locations of many significant events in Hawaiian history.

The Ala Kahakai Trail was designated a National Historic Trail by the United States Congress on January 24, 2000. This designation was derived from a trail feasibility study entitled Ala Kahakai National Trail Study (and Final Environmental Impact Statement, January 1998), as well as on testimony offered by community advocacy groups for the trail. On November 13, 2000, the 106th U.S. Congress and President William Clinton officially incorporated the trail into the National Trails System. Pub. L. 106-509 calls for establishment of a continuous trail, which is to be administered by the Secretary of the Interior.

Alternatives: As basis for preparing the Ala Kahakai NHT CMP/EIS, the NPS jointly with the State of Hawaii, Native Hawaiian groups, private landowners and other stakeholders will identify and analyze several alternative management concepts, consistent with agency policy. At this time, in addition to establishing an environmental baseline by developing a "No Action" alternative (maintaining existing conditions and management), the conservation planning process is expected to identify several alternative options for providing visitor use opportunities and suitable protection strategies. The CMP/EIS will evaluate the potential environmental impacts of each alternative, and identify appropriate mitigation actions. The alternatives will be based upon input from the community, an environmental constraints analysis using updated Geographical Information Systems (GIS) data, and other analytical and decision-making methods.

Impact Analysis Issues: The CMP/EIS will be tiered to the 1998 Ala Kahakai National Trail Study and EIS. All issues and concerns which informed completion of that project will be updated through consultations and discussions with current landowners, agencies, Native Hawaiian groups, local business owners, and other stakeholders. A planning newsletter is available detailing issues identified to date (copies may be obtained as noted below). At this time, topics to be addressed include:

- (1) Protection of sacred and cultural Native Hawaiian sites from intended and unintended damage by trail users;
- (2) Management of marine and terrestrial natural resources that are or may be affected by increased public use of the Ala Kahakai;
- (3) Landowner liability with regard to access across privately-owned property, as well as trespassing, littering, and other property offenses (approximately

50% of the trail corridor, much of which may be owned in fee simple by the State of Hawaii, traverses private lands);

(4) Trail maintenance and monitoring by volunteer community-based groups;

(5) Facility development and maintenance; and

(6) Safety and security of trail users.

Scoping/Public Involvement: There will be public open house meetings held throughout the various stages of the overall conservation planning process. These meetings will be hosted in communities across the various regions along the designated trail route. The first public meetings will be to elicit comments that identify new concerns and issues, provide essential environmental information, and suggest trail design alternatives. These initial meetings will take place beginning on March 22, 2003. A final summary of all information developed in the scoping phase will be available. Subsequently, draft management alternatives will be developed and available for review through a second round of public meetings. Finally, public meetings to foster broad review of the Draft CMP/EIS will be hosted. All meetings will be noticed and publicized through the local news media, direct mailings, and on the trail's Web site.

Comments: All responses conveying new information or concerns are encouraged at this time, and may be submitted by any one of several methods. Mail comments to Mr. Mike Donoho, Planning Team Leader, 73-4786 Kanalani Street, #14, Kailua-Kona, HI 96740; or transmit via email c/o mike_donoho@nps.gov (include your name and return address in your email message); or via facsimile to (808) 329-2597. All written scoping comments must be postmarked or transmitted not later than 30 days from the date that this notice is published in the **Federal Register**—as soon as this date has been determined it will be widely publicized, including posting on the trail's Web site to be established in spring 2003.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. If individuals submitting comments request that their name or/and address be withheld from public disclosure, it will be honored to the extent allowable by law. Such requests must be stated prominently in the beginning of the comments. There also may be circumstances wherein the NPS will withhold a respondent's identity as allowable by law. As always: NPS will make available to public inspections all submissions from organizations or businesses, and from individuals
