§ 3001.196 Requests to recommend a negotiated service agreement that is functionally equivalent to a previously recommended negotiated service agreement.

(a) This section governs Postal Service requests for a recommended decision in regard to a Negotiated Service Agreement that is proffered as functionally equivalent to a Negotiated Service Agreement previously recommended by the Commission and currently in effect. The previously recommended Negotiated Service Agreement shall be referred to as the baseline agreement. The purpose of this section is to establish procedures that provide for accelerated review of functionally equivalent Negotiated Service Agreements. The Postal Service request shall include:

(1) A detailed description of how the proposed Negotiated Service Agreement is functionally equivalent to the baseline agreement;

(2) A detailed description of how the proposed Negotiated Service Agreement is different from the baseline agreement;

(3) Identification of the record testimony from the baseline agreement docket, or any other previously concluded docket, on which the Postal Service proposes to rely, including specific citation to the locations of such testimony;

(4) Any available special studies developing information pertinent to the proposed Negotiated Service Agreement;

(5) If applicable, the identification of circumstances unique to the request; and

(6) If applicable, a proposal for limitation of issues in the proceeding, except that the following issues will be relevant to every request predicated on a functionally equivalent Negotiated Service Agreement:

(i) The financial impact of the Negotiated Service Agreement on the Postal Service over the duration of the agreement;

(ii) The fairness and equity of the Negotiated Service Agreement in regard to other users of the mail; and

(iii) The fairness and equity of the Negotiated Service Agreement in regard to the competitors of the parties to the Negotiated Service Agreement.

(b) When the Postal Service submits a request predicated on a functionally equivalent Negotiated Service Agreement, it shall provide written notice of its request, either by hand delivery or by First-Class Mail, to all participants in the Commission docket established to consider the baseline agreement.

(c) The Commission will schedule a prehearing conference for each request. Participants shall be prepared to address whether or not it is appropriate to proceed under § 3001.196 at that time. After consideration of the material presented in support of the request, and the argument presented by the participants, if any, the Commission shall promptly issue a decision on whether or not to proceed under § 3001.196. If the Commission's decision is to not proceed under § 3001.196, the docket will proceed under § 3001.195.

(d) The Commission will treat requests predicated on functionally equivalent Negotiated Service Agreements as subject to accelerated review consistent with procedural fairness. If the Commission determines that it is appropriate to proceed under § 3001.196, a schedule will be established which allows a recommended decision to be issued not more than:

(1) 60 days after the determination is made to proceed under § 3001.196, if no hearing is held; or

(2) 120 days after the determination is made to proceed under § 3001.196, if a hearing is scheduled.

Revisions to the California State Implementation Plan, Kern County Air Pollution Control District and San Joaquin Valley Unified Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Kern County Air Pollution Control District (KCAPCD) and San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) portions of the California State Implementation Plan (SIP). The KCAPCD revisions concern the emission of particulate matter (PM-10) from agricultural burning and prescribed burning. The SJVUAPCD revision concerns the emission of oxides of nitrogen (NOX) from lime kilns. We are proposing to approve local rules that regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Any comments on this proposal must arrive by October 6, 2003.

SUPPLEMENTARY INFORMATION: This proposal addresses the approval of local KCAPCD Rule 417 and SJVUAPCD Rule 4313. In the Rules section of this

Federal Register, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. We do not plan to open a second comment period, so anyone

interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.
