Equivalency Documentation

The U.S. Coast Guard plans to help the United States maritime industry demonstrate equivalent compliance with MARPOL 73/78, (revised) Annex IV to which the United States is not a Party. The United States considers a U.S. Coast Guard certified Marine Sanitation Device (MSD) to offer equivalent sewage pollution prevention to MSDs with an IMO Certificate of Type Test demonstrating compliance with the performance requirements of MARPOL 73/78, (revised) Annex IV. Therefore, any vessel with an installed and operational Coast Guard certified MSD which meets the criteria of 33 Code of Federal Regulations (CFR) part 159 should be eligible to receive documentation certifying equivalent compliance with the revised Annex IV of MARPOL 73/78.

Because the United States is not a party to MARPOL 73/78, Annex IV, the Coast Guard cannot issue official international convention certificates as a Flag State. To facilitate commerce and reduce confusion, however, the Coast Guard plans to issue a Flag State document to demonstrate equivalent compliance with MARPOL 73/78, (revised) Annex IV for eligible vessels.

Dated: August 28, 2003.

L. L. Hereth,

Acting Assistant Commandant for Marine Safety, Security and Environmental Protection.

SUPPLEMENTARY INFORMATION: These procedures address policy as well as procedure in order to assure compliance with the spirit and intent of NEPA. They update our policies and procedures in order to stay current with changing environmental laws and programs of the Federal government. It is the intent of these procedures to continue to set forth one set of broad Departmental directives and instructions to all bureaus and offices of the Department to follow in their NEPA compliance activities. In the current chapters, the Department's bureaus published appendices to Chapter 6 to further describe each bureau's NEPA compliance program. In order to more efficiently handle these appendices in the ELIPS system, it has been decided to rename them as new chapters to this DM part. Therefore, this publication expands the chapter numbering system from 516 DM 8 through 516 DM 15 to contain the old bureau appendices. These chapters have already received public review and are final. They may be viewed and downloaded from ELIPS. Comments are not being requested on these chapters. Chapters 8 through 15 may be revised in the future to further conform to the revised Chapters 1-7. If so, they will each appear for comment in the **Federal Register** at the appropriate time. In accordance with 1507.3 of the CEQ Regulations, this Department is consulting with CEQ and is hereby requesting public review and comment on the proposed procedures.

Background: On August 28, 2000, the Department published these procedures in draft form and invited the public to make comments. Several reviewers requested a time extension, and a time extension was granted through the close of business on November 13, 2000. That publication has never been made final, and all comments received to date on that publication have been read, analyzed, and considered in the revision process. Internal Departmental review and revision has continued throughout 2001 and 2002. In early 2003, the Department held four listening sessions to seek views and comments on this

process. Those sessions were held in Washington, DC; Denver, CO; Portland, OR; and Anchorage, AK. Again, those comments have been taken into account in revising these chapters. The procedures have also been recirculated in the Department for further review and clearance by each bureau and assistant secretary.

Procedural Requirements: The following list of procedural requirements has been assembled and addressed to contribute to this open review process. Today's publication is a notice of draft, internal Departmental action and not a rulemaking. However, we have addressed the various procedural requirements that are generally applicable to proposed and final rulemaking to show how they would affect this notice if it were a rulemaking.

Regulatory Planning and Review

Under Executive Order 12866 (58 FR 51735, October 4, 1993) it has been determined that this action is the implementation of policy and procedures applicable only to the Department of the Interior and not a significant regulatory action. These policies and procedures would not impose a compliance burden on the general economy.

Administrative Procedures Act

This document is not subject to prior notice and opportunity to comment because it is a general statement of policy and procedure [(5 U.S.C. 553(b)(A)]. However, notice and opportunity to comment is required by the CEQ Regulations [40 CFR 1507.3(a)].

Regulatory Flexibility Act

This document is not subject to notice and comment under the Administrative Procedures Act, and, therefore, is not subject to the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). This document provides the Department with policy and procedures under NEPA and does not compel any other party to conduct any action.

Small Business Regulatory Enforcement Fairness Act

These policies and procedures do not comprise a major rule under 5 U.S.C. 804(2), the Small Business Regulatory Enforcement Fairness Act. The document will not have an annual effect on the economy of \$100 million or more and is expected to have no significant economic impacts. Further, it will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions and will
