

respondents, including the use of automated collection techniques or other forms of information technology.

Comments, to DMS or OIRA, must contain the OMB Control Number of the ICR addressed. Comments to DMS must contain the docket number of this request, USCG 2002-13767. Comments to OIRA are best assured of having their full effect if OIRA receives them 30 or fewer days after the publication of this request.

Information Collection Request

1. *Title:* National Response Resource Inventory.

OMB Control Number: 2115-0606.

Type of Request: Extension of a currently approved collection.

Affected Public: Organizations that remove oil spills.

Form: This collection of information does not require the public to fill out forms, but the information is submitted in a electronic format.

Abstract: The information is needed to improve the effectiveness of deploying response equipment in the event of an oil spill. It may also be used in the development of contingency plans.

Annual Estimated Burden Hours: The estimated burden is 1,224 hours a year.

2. *Title:* Facilities Transferring Oil or Hazardous Materials in Bulk—Letter of Intent and Operations Manual (OM).

OMB Control Number: 2115-0077.

Type of Request: Extension of a currently approved collection.

Affected Public: Operators of facilities that transfer oil or hazardous materials in bulk.

Form: This collection of information does not require the public to fill out forms, but does require the information to be in written format to the Coast Guard.

Abstract: A Letter of Intent is a notice to the Coast Guard Captain of the Port that an operator intends to operate a facility that will transfer bulk oil or hazardous materials to or from vessels. An OM establishes procedures to follow when conducting the transfer and in the event of a spill.

Annual Estimated Burden Hours: The estimated burden is 27,819 hours a year.

3. *Title:* Records on Oil and Hazardous Material Pollution Prevention and Safety: Equivalents, Alternatives, and Exemptions.

OMB Control Number: 2115-0096.

Type of Request: Extension of a currently approved collection.

Affected Public: Operators of facilities and vessels transferring oil and hazardous materials in bulk.

Form: CG-4602B.

Abstract: This information is needed to minimize the number and impact of

pollution discharges and accidents occurring during transfer of oil or hazardous materials. It also helps to evaluate proposed alternatives and requests for exemptions.

Annual Estimated Burden Hours: The estimated burden is 1,440 hours a year.

4. *Title:* Requirements for the Use of Liquefied Petroleum Gas and Compressed Natural Gas as Cooking Fuel on Passenger Vessels.

OMB Control Number: 2115-0549.

Type of Request: Extension of a currently approved collection.

Affected Public: Owners and operators of passenger vessels.

Form: This collection of information does not require the public to fill out forms, but does require the posting of two placards on passenger vessels.

Abstract: The collection of information requires passenger vessels to have posted two placards that contain safety and operating instructions on the use of cooking appliances that employ liquefied gas or compressed natural gas.

Annual Estimated Burden Hours: The estimated burden is 2,680 hours a year.

5. *Title:* Periodic Gauging and Engineering Analyses for Certain Tank Vessels Over 30 Years Old.

OMB Control Number: 2115-0603.

Type of Request: Extension of a currently approved collection.

Affected Public: Owners and operators of certain tank vessels.

Form: This collection of information does not require the public to fill out forms, but does require the information to be in written format to the Coast Guard.

Abstract: OPA 1990 requires the issuance of rules for the structural integrity of tank vessels, including periodic gauging of the plating thickness of tank vessels over 30 years old. This also helps to verify the structural integrity of older such vessels.

Annual Estimated Burden Hours: The estimated burden is 13,688 hours a year.

6. *Title:* Mandatory Ship Reporting System for the Northeast and Southeast Coasts of the United States.

OMB Control Number: 2115-0640.

Type of Request: Extension of a currently approved collection.

Affected Public: Operators of certain vessels.

Form: This collection of information does not require the public to fill out forms, but does require the information to be reported electronically.

Abstract: The information is needed to reduce the number of ship collisions with endangered northern right whales. The rules establish two mandatory ship-reporting systems off the northeast and southeast coasts of the United States.

Annual Estimated Burden Hours: The estimated burden is 88 hours a year.

Dated: February 4, 2003.

Clifford I. Pearson,

Rear Admiral, Coast Guard, Director of Information and Technology.

Federal Aviation Administration

Noise Exposure Map Notice; Receipt of Noise Compatibility Program and Request for Review; Toledo Express Airport, Toledo, OH

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by the Toledo-Lucas County Port Authority for the Toledo Express Airport under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Pub. L. 96-193) and 14 CFR part 150 are in compliance with applicable requirements. The FAA also announces that it is reviewing a proposed noise compatibility program that was submitted for Toledo Express Airport under Part 150 in conjunction with the noise exposure map, and that this program will be approved or disapproved on or before July 22, 2003.

EFFECTIVE DATES: The effective date of the FAA's determination on the noise exposure maps and the start of its review of the associated noise compatibility program is January 24, 2003. The public comment period ends March 24, 2003.

FOR FURTHER INFORMATION CONTACT: Katherine Jones, Federal Aviation Administration, Great Lakes Region, Detroit Airports District Office, DET ADO-670.7, Willow Run Airport, East, 8820 Beck Road, Belleville, Michigan 48111, (734) 487-7298. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for Toledo Express Airport are in compliance with applicable requirements of part 150, effective January 24, 2003. Further, the FAA is reviewing a proposed noise compatibility program for that airport which will be approved or disapproved on or before July 22, 2003. This notice also announces the availability of this program for public review and comment.

Under section 103 of Title I of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter referred to as "the Act"), an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict non-compatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted noise exposure maps that are found by the FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) part 150, promulgated pursuant to Title I of the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes for the reduction of existing non-compatible uses and for the prevention of the introduction of additional non-compatible uses.

Toledo-Lucas County Port Authority submitted to the FAA on January 21, 2003 noise exposure maps, descriptions, and other documentation which were produced during the Supplemental Part 150 Study to the Final 1999 part 150 Noise Compatibility Study, January 2003. It was requested that the FAA review this material as the noise exposure maps, as described in section 103(a)(1) of the Act, and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 104(b) of the Act.

The FAA has completed its review of the noise exposure maps and related descriptions submitted by Toledo-Lucas County Port Authority. The specific maps under consideration are NEM-1, "Existing (2002) Conditions, Noise Exposure Map," and NEM-2, "Future (2007) NEM/NCP Conditions," on pages NEM-7 and NCP-6, respectively, in the submission. The FAA has determined that these maps for Toledo Express Airport are in compliance with applicable requirements. This determination is effective on January 24, 2003. FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in appendix A of FAR Part 150. Such determination does not constitute approval of the applicant's data, information or plans, or a commitment to approve a noise

compatibility program or to fund the implementation of that program.

If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 103 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 107 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part 150 or through the FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator which submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 103 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR Part 150, that the statutorily required consultation has been accomplished.

The FAA has formally received the noise compatibility program for the Toledo Express Airport, also effective on January 24, 2003. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of a 180 days, will be completed on or before July 22, 2003.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR part 150, § 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps, the FAA's evaluation of

the maps, and the proposed noise compatibility program are available for examination at the following locations: Federal Aviation Administration, 800 Independence Avenue, SW., Room 617, Washington, DC 20591.

Federal Aviation Administration, Great Lakes Region, Airports Division Office, 2300 East Devon Avenue, Room 315, Des Plaines, Illinois 60018. Federal Aviation Administration, Detroit Airports District Office, Willow Run Airport, East, 8820 Beck Road, Belleville, Michigan 48111. Mr. Paul Toth, Jr. Airport Director, Toledo Express Airport, Swanton, Ohio 43558.

Questions may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT**.

Dated: Issued in Belleville, Michigan, January 24, 2003.

Irene R. Porter,

Manager, Detroit Airports District Office, Great Lakes Region.

Federal Aviation Administration

Notice of Intent To Provide an O'Hare International Airport Environmental Impact Statement Public Information Meeting in Schiller Park, IL

AGENCY: Federal Aviation Administration, DOT.

ACTION: The Federal Aviation Administration (FAA) Issuance of a Notice of Intent (NOI) to Conduct an Informational Meeting with Regard to the Ongoing Environmental Impact Statement for the Proposed Modernization Program for O'Hare International Airport.

SUMMARY: This NOI announces the FAA's intention to conduct a Public Information Meeting on behalf of the FAA's ongoing Environmental Impact Statement (EIS) for the proposed Modernization Program for O'Hare International Airport. The Airport is located in Chicago, Illinois. Due both to the anticipated high level of interest in matters pertaining to O'Hare International Airport, and FAA's desire to more fully involve and accommodate potentially interested persons, agencies, and other entities, the FAA has decided to conduct a Public Information Meeting focused on the status of the ongoing EIS, with special emphasis on project purpose and need matters. The information meeting will be co-hosted
