General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

General wage determinations issued under the Davis-Bacon and related Acts are available electronically at no cost on the Government Printing Office site at <http://www.access.gpo.gov/davisbacon>. They are also available electronically by

subscription to the Davis-Bacon Online Service (<http://davisbacon.fedworld.gov>) of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068. This subscription offers value-added features such as electronic delivery of modified wage decisions directly to the user's desktop, the ability to access prior wage decisions issued during the year, extensive Help desk Support, etc.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the six separate Volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC, this 20th day of March 2003.

Carl J. Poleskey,

Chief, Branch of Construction Wage Determinations.

BILLING CODE 4510-27-M

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Snyder Coal Company

[Docket No. M-2003-011-C]

Snyder Coal Company, RD #2 Box 93, Hegins, Pennsylvania 17938 has filed a petition to modify the application of 30 CFR 75.335 (Construction of seals) to its N. and L. Slope Mine (MSHA I.D. No. 36-02203) located in Northumberland County, Pennsylvania. The petitioner proposes to use wooden materials of moderate size and weight for constructing seals due to the difficulty in accessing previously driven headings and breasts containing inaccessible abandoned workings; to accept a design criteria in the 10 psi range; and to permit the water trap to be installed in the gangway seal and sampling tube in the monkey seal for seals installed in

pairs. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

2. Snyder Coal Company

[Docket No. M-2003-012-C]

Snyder Coal Company, RD #2 Box 93, Hegins, Pennsylvania 17938 has filed a petition to modify the application of 30 CFR 75.1002-1 now 75.1002 (Installation of electric equipment and conductors; permissibility) to its N. and L. Slope Mine (MSHA I.D. No. 36-02203) located in Northumberland County, Pennsylvania. The petitioner requests a modification of the existing standard to permit the use of non-permissible electric equipment within 150 feet of the pillar line in the working section's only intake entry (gangway) that is regularly traveled and examined. The petitioner states that the non-permissible equipment would include drags and battery locomotives due in part to the method of mining used in pitching anthracite mines and the alternative evaluation of the mine air quality for methane on an hourly basis during operation. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

3. Cannelton Industries, Inc.

[Docket No. M-2003-013-C]

Cannelton Industries, Inc., PO Box 150, Cannelton, West Virginia 25036 has filed a petition to modify the application of 30 CFR 75.1002 (Installation of electric equipment and conductors; permissibility) to its Shadrick Mine (MSHA I.D. No. 46-08159) located in Kanawha County, West Virginia. The petitioner proposes to use 2,400-volt electricity to power continuous mining equipment at the Shadrick Mine. The petitioner has listed in this petition specific terms and conditions that would be followed when its proposed alternative method is implemented. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

4. Lodestar Energy, Inc.

[Docket No. M-2003-014-C]

Lodestar Energy, Inc., PO Box 448, Clay, Kentucky 42404 has filed a petition to modify the application of 30 CFR 75.1101-1(b) (Deluge-type water spray systems) to its Baker Mine (MSHA I.D. No. 15-14492) located in Webster County, Kentucky. The petitioner requests a modification of the existing standard to allow weekly examinations

and testing of the deluge systems to ensure that nozzles are not blocked. In lieu of using blow-off dust covers, the petitioner proposes to have a trained person conduct a weekly visual examination and a functional test on each deluge-type fire suppression system installed at conveyor belt drives by actuating the water system and observing its performance. The petitioner states that any malfunction or clogged nozzle that is detected as a result of the weekly visual examination or functional test, would be corrected immediately. The petitioner will record the results of the examination and test in a book located on the surface and made available to the authorized representative of the Secretary. The book would be retained at the mine for one year. The petitioner further states that a book with the dates of the examinations and tests would also be kept at the location of each conveyor belt drive. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

5. Mettiki Coal, LLC

[Docket No. M-2003-015-C]

Mettiki Coal, LLC, 293 Table Rock Road, Oakland, Maryland 21550 has filed a petition to modify the application of 30 CFR 75.1325(c)(1) (Firing procedures) to its Mettiki Mine (MSHA I.D. No. 18-00621) located in Garrett County, Maryland. The petitioner requests a modification of the existing standard to permit blasting in certain locations on the longwall face in the Mettiki Mine without always requiring all miners to leave the face to go to an area that is around at least one corner from the blasting area. The petitioner states that the modification would apply to blasting at longwall faces at locations more than 200 feet inby the headgate. The petitioner has listed in this petition specific terms and conditions that would be followed when its proposed alternative method is implemented. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

6. Canyon Fuel Company, LLC

[Docket No. M-2003-016-C]

Canyon Fuel Company, LLC, HC 35 Box 380, Helper, Utah 84526 has filed a petition to modify the application of 30 CFR 75.500(d) (Permissible electric equipment) to its Skyline Mine No. 3 (MSHA I.D. No. 42-01566) located in Carbon County, Utah. The petitioner requests a modification of the existing standard to permit the use of low-

voltage or battery powered non-permissible electronic testing and diagnostic equipment in or inby the last open crosscut under controlled conditions. The petitioner proposes to use the following low-voltage or battery powered non-permissible electronic testing and diagnostic equipment: lap top computers, oscilloscopes, vibration analysis machines, cable fault detectors, point temperature probes, infrared temperature devices, insulation testers (meggers), voltage, current and power measurement devices and recorders, pressure and flow measurement devices, signal analyzer device, ultrasonic thickness gauges, electronic component testers, and electronic tachometers, other testing and diagnostic equipment that may be approved by the MSHA District Office. The petitioner states that non-permissible electronic testing and diagnostic equipment shall only be used when equivalent permissible equipment does not exist. The petitioner further states that equipment used in or inby the last open crosscut shall be examined by a qualified person as defined in existing 30 CFR 75.153, prior to being used to ensure the equipment is being maintained in a safe operating condition. The examination results will be recorded in a book and made available to an authorized representative of the Secretary and the miners at the mine. The petitioner has listed specific procedures in this petition, including monitoring, that would be followed when using the non-permissible equipment. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

7. L—Coal Co.

[Docket No. M-2003-017-C]

L—Coal Co., RD #2 Box 630, Shamokin, Pennsylvania 17872 has filed a petition to modify the application of 30 CFR 75.1002-1 now 75.1002 (Installation of electric equipment and conductors; permissibility) to its Lenig Tunnel Mine (MSHA I.D. No. 36-08288) located in Northumberland County, Pennsylvania. The petitioner requests a modification of the existing standard to permit the use of non-permissible electric equipment within 150 feet of the pillar line. The petitioner states that the non-permissible equipment would include drags and battery locomotives due in part to the method of mining used in pitching anthracite mines and the alternative evaluation of the mine air quality for methane on an hourly basis during operation. The petitioner asserts that the proposed alternative method would provide at least the same

measure of protection as the existing standard.

8. Maple Creek Mining, Inc.

[Docket No. M-2003-019-C]

Maple Creek Mining, Inc., 981 Route 917, Bentleyville, Pennsylvania 15314 has filed a petition to modify the application of 30 CFR 75.1400(e) (Hoisting equipment; general) to its High Quality Mine (MSHA I.D. No. 36-08375) located in Washington County, Pennsylvania. The petitioner proposes to use an electric slope hoist to transport miners in and out the mine. The petitioner states that the High Quality Mine is a new underground mine nearing completion of the slope facilities and hoist installation, and there are no miners employed at the mine. The petitioner further states that the High Quality Mine does not employ any miners who have held the position of hoisting engineer for a period of six months prior to opening the mine, and that an alternate method of obtaining qualifications for the position of a Hoisting Engineer is paramount to the operation of the High Quality Mine. The petitioner has listed specific terms and condition in this petition that would be followed when its proposed alternative method is implemented. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

9. Highland Mining Company

[Docket No. M-2003-020-C]

Highland Mining Company, has filed a petition to modify the application of 30 CFR 75.1909(b)(6) (Nonpermissible diesel-powered equipment; design and performance requirements) to its Highland 9 Mine (MSHA I.D. No. 15-02709) located in Union County, Kentucky. The petitioner requests a modification of the existing standard to allow the mine to use the Getman diesel grader underground with rear wheel brakes only at the Highland 9 Mine. The petitioner proposes to: (i) Limit the diesel grader speed to 10 miles per hour maximum; (ii) physically block higher ear ratios on the Getman diesel grader in order to limit the speed to 10 miles per hour maximum; (iii) provide training to the grader operators on how to drop the grader blade in the event the brakes fail and the machine needs to be stopped. The petitioner states that the modification will provide the same protection that is realized from the current standard in that the grader can be stopped using the blade as a brake system. The petitioner asserts that the proposed alternative method would

provide at least the same measure of protection as the existing standard.

Request for Comments

Persons interested in these petitions are encouraged to submit comments via e-mail to comments@msha.gov, or on a computer disk along with an original hard copy to the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 1100 Wilson Boulevard, Room 2352, Arlington, Virginia 22209. All comments must be postmarked or received in that office on or before April 28, 2003. Copies of these petitions are available for inspection at that address.

Dated at Arlington, Virginia, this 21st day of March 2003.

Marvin W. Nichols, Jr.,

Director, Office of Standards, Regulations, and Variances.

BILLING CODE 4510-43-P

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Biological Sciences (BIO); Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L., 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Biological Sciences (1110).

Date and Time: April 24, 2003; 8:30 a.m.—5 p.m. April 25, 2003, 8:30 a.m.—3 p.m.

Place: National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230, Room 375.

Type of Meeting: Open.

Contact Person: Dr. Mary E. Clutter, Assistant Director, Biological Sciences, Room 605, National Science Foundation, 4201 Wilson Blvd., Arlington, VA 22230 Tel No.: (703) 292-8400.

Minutes: May be obtained from the contact person listed above.

Purpose of Meeting: The Advisory Committee for BIO provides advice, recommendations, and oversight concerning major program emphases, directions, and goals for the research-related activities of the divisions that make up BIO.

Agenda: Planning and Issues Discussion:

- BIO Science Retreat.
- VIO Education Plan.
- NSB Task Force on Infrastructure Report.

Dated: March 25, 2003.

Susanne Bolton,

Committee Management Officer.

BILLING CODE 7555-01-M

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information cv unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* 10 CFR Part 55, "Operators' Licenses".

3. *The form number if applicable:* Not applicable.

4. *How often the collection is required:* As necessary for NRC to meet its responsibilities to determine the eligibility of applicants for operators' licenses, prepare or review initial operator licensing and requalification examinations, and review applications for and performance of simulation facilities.

5. *Who will be required or asked to report:* Holders of and applicants for facility (*i.e.*, nuclear power, research, and test reactor) operating licenses and individual operators' licenses.

6. *An estimate of the number of annual responses:* 278 (172 responses + 106 recordkeepers).

7. *The estimated number of annual respondents:* 106 (70 power reactor licensees + 36 non-power reactor licensees).

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 66,018 (approximately 44,736 hours of reporting burden [averaging 422 hours per respondent] and approximately 21,282 hours of recordkeeping burden [averaging 201 hours per recordkeeper]).

9. *An indication of whether Section 3507(d), Public Law 104-13 applies:* N/A.

10. *Abstract:* 10 CFR Part 55, "Operators' Licenses," of the NRC's regulations, specifies information and data to be provided by applicants and

facility licenses so that the NRC may make determinations concerning the licensing and requalification of operators for nuclear reactors, as necessary to promote public health and safety. The reporting and recordkeeping requirements contained in 10 CFR Part 55 are mandatory for the licensees and applicants affected.

A copy of the final supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions should be directed to the OMB reviewer listed below by April 28, 2003. Comments received after this date will be considered if it is practical to do so, but assurance of consideration cannot be given to comments received after this date. Bryon Allen, Office of Information and Regulatory Affairs (3150-0018), NEOB-10202, Office of Management and Budget, Washington, DC 20503.

Comments can also be submitted by telephone at (202) 395-3087.

The NRC Clearance Officer is Brenda Jo. Shelton, 301-415-7233.

Dated at Rockville, Maryland, this 24th day of March, 2003.

For the Nuclear Regulatory Commission.

Brenda Jo. Shelton,

NRC Clearance Officer, Office of the Chief Information Officer.

[FR Doc. 03-7487 Filed 3-27-03; 8:45 am]

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-338, 50-339, 50-280, and 50-281]

Virginia Electric and Power Company, North Anna Power Station, Unit Nos. 1 and 2, and Surry Power Station, Unit Nos. 1 and 2; Notice of Issuance of Renewed Facility Operating License Nos. NPF-4, NPF-7, DPR-32, and DPR-37 for an Additional 20-Year Period

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Renewed Facility Operating License Nos. NPF-4, NPF-7, DPR-32, and DPR-37 to Virginia Electric and Power Company (the licensee), the operator of the North Anna Power Station, Unit Nos. 1 and 2
